### **Acknowledgements**

We acknowledge the contributions of all Secondary Teachers who in one way or another helped to develop this course.

Our profound gratitude goes to the former Principal of FODE, Mr. Demas Tongogo for leading FODE team towards this great achievement. Special thanks to the FODE It Edit Team and SRC Members who played an active role in critiquing and editing to ensure quality control for this Course.

We also acknowledge the Professional guidance provided by the Curriculum Assessment Division throughout the process of writing especially to the late Mr. Tobias Gena.

The development of this book was co-founded by GoPNG and World Bank.

**SECRETARY'S MESSAGE**

Achieving a better future by individual students and their families, communities or the nation as a whole, depends on the kind of curriculum and the way it is delivered.

This course is a part of the new Flexible, Open and Distance Education curriculum. The learning outcomes are student-centred and allows for them to be demonstrated and assessed.

It maintains the rationale, goals, aims and principles of the national curriculum and identifies the knowledge, skills, attitudes and values that students should achieve.

This is a provision by Flexible, Open and Distance Education as an alternative pathway of formal education.

The course promotes Papua New Guinea values and beliefs which are found in our Constitution, Government Policies and Reports. It is developed in line with the National Education Plan (2005 -2014) and addresses an increase in the number of school leavers affected by the lack of access into secondary and higher educational institutions.

Flexible, Open and Distance Education curriculum is guided by the Department of Education's Mission which is fivefold:

To facilitate and promote the integral development of every individual

To develop and encourage an education system satisfies the requirements of Papua New Guinea and its people

To establish, preserve and improve standards of education throughout Papua New Guinea

To make the benefits of such education available as widely as possible to all of the people

To make the education accessible to the poor and physically, mentally and socially handicapped as well as to those who are educationally disadvantaged.

The college is enhanced to provide alternative and comparable pathways for students and adults to complete their education through a one system, many pathways and same outcomes.

It is our vision that Papua New Guineans' harness all appropriate and affordable technologies to pursue this program.

I commend all those teachers, curriculum writers, university lecturers and many others who have contributed in developing this course.

**UKE KOMBRA, PhD**  
Secretary for Education

## UNIT INTRODUCTION

---

Unit 2 will introduce you to word processing where you will learn to use Microsoft Word application. The Unit consists of the following Topics:

- |                 |                                            |
|-----------------|--------------------------------------------|
| <b>Topic 1:</b> | <b>Word Documents</b>                      |
| <b>Topic 2:</b> | <b>Formatting Documents</b>                |
| <b>Topic 3:</b> | <b>Editing Text And Desktop Publishing</b> |
| <b>Topic 4:</b> | <b>Using Word Processor In Real World</b>  |

By the end of this Unit you will have gained the skills and proficiency on how to use the word processing program, able to demonstrate skills required to do. Word processing, uses the design process to produce solutions involving word processing and demonstrate ethical values on computer use like sharing files on one computer.

## STUDY GUIDE

Below are steps to guide you in your course study.

- Step 1: Read each lesson of the Unit Book carefully. In most cases, reading through a lesson once is not enough. It helps to read something over several times until you understand it. You are not expected to memorise the information in the Unit Book. You should use it as a reference and to learn from the examples given to illustrate important points.
- Step 2: After reading the summary of the lesson, start doing the Practice Exercise. You must do only one practice exercise at a time. Then mark it according to the following instruction.

**CHECK YOUR ANSWERS AT THE END OF TOPIC 1.**

- Step 3: After marking your answers, go back to the lesson and correct any mistakes you may have made. Then move on to the next lesson.
- Step 4: After completing all the Practice Exercises, do Assignment 1.
- Step 5: Now send the completed Assignment booklet to FODE for marking.

Follow all these steps 1 - 5 when completing all Unit Books.

**Be honest with yourself** when you are doing and marking your Practice Exercises as well as completing your Assignment Booklets.

This Unit has a separate assignment booklet for you to use. The information at the end of the last lesson in every Topic will let you know what to do with the assignment exercises.

Whenever you need help and advice, contact your tutor or your Provincial Coordinator for assistance. If you are in the NCD or Central Province, we are available on Mondays to Fridays. You can call in anytime between 8 a.m. and 4 p.m. We would be glad to help you.

The following icons are used in each Lesson in this Unit. Icons are the symbols used in this book to indicate the parts of your lessons. The following are the meanings of these icons.

|                                                                                     |                      |                                                                                     |                          |
|-------------------------------------------------------------------------------------|----------------------|-------------------------------------------------------------------------------------|--------------------------|
|  | Lesson Introduction  |  | - All other Activities   |
|  | Lesson Objectives    |  | Summary                  |
|  | Reading Activities   |  | - Additional Information |
|  | - Practical Activity |                                                                                     |                          |

We hope you enjoy learning this course. All the best!

| <b>Lesson 3:</b> | <b>Use of Save and Save As</b>               |
| <b>Lesson 4:</b> | <b>Opening a Document</b>                    |
| <b>Lesson 5:</b> | <b>Using Print Preview</b>                   |
| <b>Lesson 6:</b> | <b>Printing Selected Parts of a Document</b> |

## TOPIC 1: WORD DOCUMENT

---

In this topic you will learn about the basic concepts of documents. The Topic is designed to familiarise yourself with word processing. It aims to help you gain basic understanding of facts and concepts necessary to have a head start in the study of computing.

In this topic, you will study about the following:

- Lesson 1** is all about creating document. You will be introduced to MS Word. A program used in word processing.
- Lesson 2** discusses the different uses of a Word document.
- Lesson 3** focuses on the steps on how to use Save and Save As.
- Lesson 4** presents the steps in opening a Word document in different directories/locations.
- Lesson 5** explains the concept of Print Preview and how to use it with your document.
- Lesson 6** emphasizes on the process of printing selected parts of a word document.

By the end of Topic 1, you should be able to confidently open Microsoft Word program, create and save a document, save a copy of your document in another directory/location, and use print preview before printing your work.

## Lesson 1: Creating a Document

---

Welcome to Lesson 1 of Unit 2. In this lesson you will learn to familiarize yourself with using word processing software called the (Microsoft Word) and identify its different features.

### Your Aims:

- define a document
- identify the steps in creating a document
- create a document

Word Processing is one of the most widely used application software program. Putting your thoughts in writing is a time consuming process. Even time consuming is the task of editing and re-typing the document to make it better. The introduction of word processing makes correcting mistakes, moving paragraphs and reprinting your documents easier.

Microsoft Word (MS-Word) is a word processing software that is used to create documents such as letters, assignment paper, fax and other stuff that involves texts, numbers and graphics.

### Opening and Closing MS Word

There are many ways of opening and closing MS Word program. This will all be discuss in this lesson. When you get used to using MS Word, you may choose any of steps you are comfortable with.

#### A. Using the Start Menu

1. Click the **Start** button.
2. Choose **All programs**. Menus and options will appear on your screen.

3. Click the Scroll button until you see **MS Office** folder.
4. Click MS Office folder and select **Microsoft Word 2010**.

5. Microsoft Word is now open.

6. On the upper left side of your screen, click the **File** tab.
7. Choose **Exit** to close your MS Word Program.

8. Click **Don't Save**, if a dialogue box appears asking you to save changes to your document.

## B. Using Desktop Icons

1. **Double click** the MS icon from your desktop. Do not worry if your computer does not have this icon. You can skip this part and proceed to the next exercise.

2. MS Word document is now open.
3. Click File and click Close. Notice that this will only close the document and not the entire program.
4. Click the **Close ( X )** button to close the entire program.
5. Click **Don't Save**, if a dialogue box appears asking you to save changes to your document.

### C. Using the Start menu

1. Click the **Start** button.
2. Without going to All program, locate the Microsoft Word 2010 icon located in the **Start** menu.

3. MS Word is now open.
4. Click **File** and then **Exit** to close MS Word program.
5. Click **Don't Save**, if a dialogue box appears asking you to save changes to your document.

### Activity 1: Opening MS Word Program

You can mix and match the different ways of opening MS Word. Try practicing the various ways and see which one you are comfortable with.

- A. Open MS Word using the Word icon on the desktop and close it using the Close button.
- B. Open MS Word using the Start menu and close using Exit from the File menu.
- C. Open MS Word from All Programs and close the document only and not the MS Word program.

Thank you for completing this activity. You have learned different ways of opening and closing MS Word. The skills you learned can also be applied to other Microsoft Office programs.

### Word 2010 Environment

Open MS Word program. At first glance it might be a little confusing because of all the different icons and menus that you see in the MS Word Environment.

Before we start, let us first define some of the terms we will use for this lesson:

1. **Backstage view** – displayed on your screen as **File** tab. It involves things that you do to manage files and documents.

2. **Cursor** - a vertical bar that blinks in your document which serves as your guide to typing text.
3. **Document** – used to represent the saved work using a word processing software. The white area where you type contents.

4. **Tab** – is located in the ribbon to find things easily and groups similarly used commands. Some examples of tabs are the Home, Insert, and Page layout.

7. **Ruler** – located at the top and the left side of your document and is used to easily work with tabs and margins. The gray area in the ruler represents your margins. (Note: If ruler is not turn on your document go to the **View** tab and tick the Ruler box).

9. **Minimize, Maximize/Restore, and Close** – adjusts the size of your document screen and closes document window.
- Minimize – temporarily reduces the Word window and sets aside the document from your screen by placing it in the task bar
  - Maximize- enlarges the screen after it is minimized.
  - Restore – will return your document to its previous size after it's adjusted.
  - Close – will close the program from the desktop.
10. **Task Bar** – located at the bottom of you screen. The task bar contains programs, documents or files that are still open but currently not in use.

## Activity 2: Moving around the Word Environment

Answer the following questions. Answers can be found by exploring the Word Environment.

A. What tab or menu displays the following ribbons.

- B. Using the **Home Ribbon**, identify what type of dialogue box is displayed below.

Thank you for completing this activity. You have explored some of the features of the Word 2010 environment. These are only some and there are still lots of things you can learn in the course of this lesson.

## What is a Document?

In computing, the term Document is used to refer to files created using a word processing program. In MS Word, **Document 1** is a temporary name given to your work before it is saved.

## Creating a New Blank Document

Now, let us study the different steps in creating a new blank document. Use the skills you learned from the previous activity to open MS Word program. Use the illustration below as guide to create your new document.

1. Click the **File** tab. This contains the Backstage view.
2. Click **New** and a list of option appears.
3. Make sure that the **Blank Document** is selected.
4. Click **Create**. A new blank document appears. Document 2 is now created.

### Activity 3: Moving around multiple window

Windows refer to programs that are currently open in your computer. This activity will teach you how to open multiple window or programs in your computer.

You must first make sure you have created a New Blank Document before you can perform this activity.

1. After creating a new document, your screen will now display **Document 2** in the title bar. This is now the current active document.

2. Move your mouse pointer to the word icon on the task bar. This is located at the bottom of your screen. Notice that there are two documents currently opened: Document 1 and Document 2.

3. Move your mouse pointer to Document 1 and **click** the mouse. Document 1 is now active. Observe that the document displayed on your screen is now Document 1.

4. Move your mouse pointer to the **Word** icon located on the task bar. A preview of the two documents appear.
5. Move your mouse to **Document 2** and left click the mouse to make it the active document.
6. Close the two documents using the steps you have learned from the earlier part of this lesson.
7. Click **Don't Save** if the computer asks you to save changes to your work.

Thank you for completing this activity. You have also opened multiple documents and move between these documents in your computer. This skill will be usefull in the later part of our unit.

---

### Summary

You have come to the end of Lesson 1. In this lesson, you have learned different ways of Opening and Closing documents. Choose any technique of opening and closing MS Word that you are most comfortable with. This lesson also taught you how to create a new document to help you start using word processing to write your document

---

**NOW DO PRACTICE EXERCISE 1 ON THE NEXT PAGE**

## Practice Exercise 1

A. Identify the icons below and write your answers on the space provided.

- |          |          |
|----------|----------|
| 1. _____ | 4. _____ |
| 2. _____ | 5. _____ |
| 3. _____ |          |

B. Label the parts of the MS Word Screen

- |          |          |
|----------|----------|
| 1. _____ | 4. _____ |
| 2. _____ | 5. _____ |
| 3. _____ |          |

C. Write True if the statement is correct and False if it is incorrect.

- The long strip of icons is called the Tab. \_\_\_\_\_
- Double-clicking the Start button opens up MS Word. \_\_\_\_\_
- Clicking the X button closes the Start menu. \_\_\_\_\_
- The tab contains similarly used command. \_\_\_\_\_
- Document 1 is the temporary name given to your work before you save your work. \_\_\_\_\_

**CHECK YOUR ANSWERS AT THE END OF TOPIC 1.**

## Answer to Activity 1

Follow the instructions below to perform the given task.

- A. Open MS Word using the Word icon and close it using the Close button.

- B. Open MS Word using the Start menu and close using Exit from the File menu.

- C. Open MS Word from All Programs and close the document only and not the MS Word program.

## Answer to Activity 2

- A. What menu tab displays the following menu options?
1. Page Layout
  2. View
  3. Insert

- B. Using the **Home Menu**, identify what type of dialogue box is displayed below.
1. Font dialogue box
  2. Paragraph dialogue box

### Answer to Activity 3

---

1. Document 1 and Document 2 are currently open in the task bar.
2. Click Document 1 in the taskbar and it will maximize the document.

3. Click Document 2 in the taskbar and it will maximize the document.

## Lesson 2: Intended Uses Of Document

Welcome to Lesson 2 of Unit 2. In Lesson 1 you have learned how to open and close MS Word as well as create your first document. Lesson 2 will show you different uses of MS Word and how it can be put to practical use.

### Your Aim:

- identify and define the intended uses of a document.

A Document is any file created using a word processor. It could be letters, invitation or report. Word offers a variety of templates which you can use to create documents. A **template** serves as a skeleton or blueprint of the document. Using a template can save you time to set up individual documents before you can add your contents.

### To Open Templates

There are pre-existing templates which serve as patterns for creating a document. Some templates are readily available from your computer but some templates are only available through the Internet.

Here are the steps to open a template:

1. Click **File**.
2. Select **New**, the New panel will appear.

3. Select the type of **Templates** you want to use.
4. Click **Create**.

## Template Samples

Below are examples of different documents taken from Office.com. **Office.com** is an online resource centre provided by MS Office. It provides sample templates on commonly used documents. You can use this as guide when you are creating your own MS Word document. The Sample templates are given on the succeeding pages. More templates are available on the MS Office website.

- Curriculum Vitae
- Award Certificates
- Calendars
- Newsletter
- Report

### A. Curriculum Vitae

### B. Award Certificate

## C. Calendar

## D. Newsletter

**E. Letter****F. Report**

**Activity 1:**

**Perform the task given to help you better understand the importance of documents.**

Documents are available everywhere. The following activity will help you further understand the advantages of using MS Word documents.

1. Look at the examples of document templates from pages 28-30 provided in this lesson. Pay special attention to the different physical characteristics and features applied to these document.
2. Tick the column if the sample template contains the following features:

| Template    | Text Type | Text Size | Text style | Pic-<br>tures | Co-<br>lumns | Rows | Borders |
|-------------|-----------|-----------|------------|---------------|--------------|------|---------|
| CV          |           |           |            |               |              |      |         |
| Certificate |           |           |            |               |              |      |         |
| Calendar    |           |           |            |               |              |      |         |
| Newsletter  |           |           |            |               |              |      |         |

3. Compare the example of documents against a hand written document. Write your general observation.

---

---

---

---

Thank you for completing this activity. It aims to make you better appreciate and understand the uses and benefits of using a computer over the usual pen and paper work. Before you move to the next part, check your answer at the end of this lesson.

**Summary**

You have come to the end of Lesson 2. In this lesson you have seen different examples of document templates. We have also learned that there are many examples of documents commonly used in our daily lives.

**NOW DO PRACTICE EXERCISE 2 ON THE NEXT PAGE**

**Practice Exercise 2**

---

**A. Write True if the statement is correct and False if it is incorrect.**

1. Document templates can be created using MS Word. \_\_\_\_\_
  2. You must always use a template when creating documents \_\_\_\_\_
  3. Document templates can be accessed through the Backstage view. \_\_\_\_\_
  4. Internet is the only way you can use a template. \_\_\_\_\_
  5. Templates are patterns of documents you can use to create other documents. \_\_\_\_\_
  6. New Blank Document is an example of a template. \_\_\_\_\_
  7. Templates help users to quickly create documents. \_\_\_\_\_
  8. Templates cannot be changed by the users. \_\_\_\_\_
  9. You must always use an existing template to create documents. \_\_\_\_\_
  10. Create is the last step when creating a document. \_\_\_\_\_
- 

**B. Follow the given instructions.**

Before the invention of computers, documents were first created using just pen and paper. Let us create a simple document the old fashioned way. Try to apply the features of a modern document to your handmade one.

1. Choose any topic that you could make an article of.
  2. In an A4 size paper, create a simple newsletter style document.
  3. You could apply different style of handwriting, use different color pens, or add some pictures taken from any magazine.
  4. On a separate A4 paper, write down the problems you encountered while working on this project.
- 

|                                                 |
|-------------------------------------------------|
| <b>CHECK YOUR ANSWERS AT THE END OF TOPIC 1</b> |
|-------------------------------------------------|

### Answers to Activity 1

---

A document can share similarities between other documents. Observe that the first three are the most common.

| Template    | Text Type | Text Size | Text style | Pic-<br>tures | Co-<br>lums | Lines | Borders |
|-------------|-----------|-----------|------------|---------------|-------------|-------|---------|
| CV          | ✓         | ✓         | ✓          |               |             | ✓     |         |
| Certificate | ✓         | ✓         | ✓          |               |             | ✓     | ✓       |
| Calendar    | ✓         | ✓         | ✓          | ✓             | ✓           | ✓     |         |
| Newsletter  | ✓         | ✓         | ✓          | ✓             | ✓           | ✓     | ✓       |

Compare the example of documents against a hand written document. Write your general observation. You may have more or less the same observation as written here. You could add some more from the list given below.

| Handwritten                 | Computerized                          |
|-----------------------------|---------------------------------------|
| Hard to read                | Text are easily readable              |
| Limited text style          | Varied text can be used               |
| Graphics are hard to place  | Colorful graphics or pictures         |
| Margins are manually placed | Text are set against specific margins |
|                             |                                       |
|                             |                                       |
|                             |                                       |

## Lesson 3: Using Save And Save As

---

Welcome to Lesson 3 of Unit 2. In Lesson 2 you created a document using the traditional way. It is time consuming especially if you have to revise your work again when making some changes to it. Saving your work and retrieving your files for editing is a feature of word processing that makes working with documents easier.

### Your Aims:

- correctly use Save and Save As commands.
- identify the procedure of Save and Save As commands
- differentiate the uses of “Save” and “Save As”

---

### The Benefits of Saving

The following are the benefits of saving:

-  Stored document can be used again and again.
-  Copies can be made which leaves the original document untouched.
-  Allows you to share your work by saving it in a saving media.
-  Downloaded files from the internet or electronic encyclopaedia can be saved for future reference.

Saving is one of the most commonly used commands in word processing. It allows document to be stored for future use. One must make it a habit of frequently saving while working so they do not lose work during power interruptions.

Saving could be done using the **Save** and **Save As**. Both of them have specific function and uses.

### Using the Save As Command

This command is used when you are saving your work for the first time and specifies the location of where your work will be saved. It can also be used when you are creating a different copy of your original document.

Before you start, here are some keyboard tips you could use.

- Press the **Caps Lock** key to type your text in capital letters.
- Press the **Space bar** once to add space between words in your document.
- Continue typing your text and wait for the **Cursor** to move to the next line of the paragraph. This is usually done automatically.
- Press the **Enter** key only when you want to create a new paragraph or any part of your text.
- Use the **Tab** key to indent the first line of your paragraph.
- If you want to make the first letter of the word in capital letters, press the **Shift** key and hold it until you pressed the letter you want to capitalize.

- Press the **Back Space** or **Delete** key to erase typing, paragraph and character space. However, when dealing with text pressing the **del key** deletes text to the right of the cursor and pressing the **backspace key** deletes text to the left (backwards) of the cursor.
- The Red and Green wavy lines underneath your text mean a spelling and grammar error. Ignore it! We will edit your work in the next succeeding lesson

### Creating a Document

In Lesson 1, you have learned to Open and Create a blank document. Use the skills you have learned to perform the following tasks.

1. In a Blank Document, type the article below taken from the April 20, 2012 of **The National** newspaper.

PNG children in sex work

CHILDREN are being driven into sex work in Papua New Guinea because of poverty, a damning report by the International Labour Organisation (ILO) said.

The report, released in the capital yesterday, says there is child trafficking involving parents and guardians who sell their children to clients.

It classes children forced into sex work as the worst form of child labour.

The report was based on findings by a joint committee comprising members of the PNG Trade Union Congress, Young Women's Christian Association and other stakeholders.

The researchers interviewed about 400 children living in Port Moresby. Pacific ILO director David Lamotte said sex work by children aged below 18 was caused by poverty.

2. After typing, click the File menu tab.
3. Select **Save As**.

4. The Save As dialogue box appears. By default, your work will be saved in the **Documents library**. This is where your computer puts all the saved files. Do not worry if the content of your Documents library is different from what you see in the picture on below.

5. In the **File name box**, the computer will give a suggested file name for your document. Let us use the suggested filename.

Sometimes using the suggested filename is not the ideal way of saving your work. A good filename name should allow you to easily guess the content of the document. A filename that is vague or does not reflect the content of the document is not a good filename.

6. Click **Save**.

7. Observe that the word Document 1 in the title bar was changed to **PNG children in sex work**.

**Activity 1:**

**Follow the steps below to use Save and Save As command**

**A. To save your work using a different filename.**

1. Make sure that the **PNG children in sex work** document is open. If you closed the document, proceed to Lesson 4 of this unit to learn how to Open a saved document.
2. Click the **File** tab.
3. Select **Save As**. The Save As dialogue box appears.
4. Change the filename of your document to **Child Exploitation**.
5. Click **Save**.

6. The Child Exploitation document is now displayed on your screen.
7. You now have two files of the same document saved under a different filename.

---

**B. Follow the steps below to save your document to a different location.**

1. Make sure that the Child Exploitation document is open. If you closed the document, proceed to Lesson 4 of this unit to learn how to Open a saved document.
2. Insert the flash drive in your computer. The AutoPlay dialogue box will appear. Click Close (X) button to close the dialogue box.

3. Click the **File Menu tab** and select **Save As**.
4. On the left side of your window click the scroll button up or down to locate the Computer icon. (You can also click hold and drag the Scroll bar.)

5. Click the Computer icon. This will display the content of your computer. Your window will display the brand of the flash drive followed by a letter. The letter displayed will be different depending on the computer you are using.
6. Double-click the flash drive icon located on the right side of the window.

7. **Click Save.** A copy of your Child Exploitation document is now saved on your flash drive.

### Using the Flash Drive

A flashdrive is an external USB storage device used to save and create a back-up copy of your documents and other files. Here are some tips when using a flash drive:

- Keep away from heat, water, and magnet.
- Refrain from using with other computer. This reduces the risk of **VIRUS** infecting your flash drive. Use an updated antivirus to scan your flash drive if you must use it with another computer.
- Do not share flash drives. This prevents other users from opening and accidentally deleting your files.
- Always save your work on the computer. Save your work in the flash drive as a backup copy or when you need to transfer files from one computer to another.

8. Keep this copy of your work open for the next activity.

You have successfully completed this activity. Keep in mind that it is a common practice to create another copy of your document and store it in another location other than your computer. There are different types of storage media available but the flashdrive is the most convenient and easily available media you can use to create a copy of your work. Continue practising your skills in saving your work. You may go to the end of this lesson to check your work.

---

### Using the Save Command

Save command is used when you are saving changes done to a previously saved file. There are different ways you can use the save command. Let us continue and finish our typing.

### Activity 2: Follow the given instructions to use the Save command.

1. Use the file from Activity 1. In the next paragraph type the following text:

In a statement, Labour and Industrial Relations Minister Martin Aini said the government was not left with the challenge to prevent child labour especially with the economic boom in the country.  
He said the statistics of child labour “makes it crucial to plan a way forward to address the issue”.

2. Click the **File menu** tab.

3. Choose **Save**. The changes you just made to your document are now saved in your flash drive. This is because the last location you saved was in the flash drive.

4. The Save As dialog box does not appear this time when you click the Save button. This is because the computer already knows the name of the document and where it is saved.
5. Continue on and type the following text.

The report states that about 175 sex workers interviewed were all females and two were transgender sex workers – boys who were paid by men for sex.

It said about 47% of children interviewed on the street had never been to school.

Lamotte said that the ILO was working closely with trade unions, YMCA, education department and police to draft a child labour national policy to stop child labour.

6. Click the **Save** button in the Quick access toolbar located at the upper left corner of your screen.

7. Type the the following text in a new paragraph

He said children often looked for work because their parents could not afford their needs and wants or because they came from broken homes.

He said once a child started working at the early ages of 13, 14 and 15, he or she would remain poor for the rest of his or her life.

8. Press and hold down **Ctrl** from your keyboard and press the letter **S**.
9. Observe the bottom of your word document as you save. The computer displays the message saying that it is saving your document. Complete the last paragraphs of your document as follows.

He said there were also other means of earning money by school-aged children who were not at school because they just had to earn money to make a living.

Lamotte said the research was conducted in Port Moresby because of the accessibility and the fact that child labour was an issue that arose in urban areas.

He said if urban areas in the city revealed serious abuse of children through child labour, “it can be said that such is experienced throughout other centres”.

10. Save changes to your work. Feel free to use any technique on Saving you are comfortable with.

You have successfully completed this activity. You use Save As when saving your work for the first time. Observe how the Save command was used and know when to use Save or Save As. Continue practising your saving skills. You may go to the end of this lesson to check your work.

---

## Summary

You have come to the end of Lesson 3. In this lesson, you have learned the proper way of using Save command. Just remember that Save will save the changes where it was previously saved with the same filename. Save As command however, will allow you to save your work in a different directory/location and/or different filename.

---

**Practice Exercise 3**

---

**A. Identify whether the command to use is SAVE or SAVE AS.**

1. Save your work for the first time. \_\_\_\_\_
  2. Save a copy of Exercise 1 from your computer to your flash drive.  
\_\_\_\_\_
  3. Save Document 1 in your flash drive. \_\_\_\_\_
  4. Save changes you've done to Exercise 1. \_\_\_\_\_
  5. Save a copy of Exercise 2 from your flash drive to your computer.  
\_\_\_\_\_
  6. Save Exercise 1 as Practice 1. \_\_\_\_\_
- 

**B. Identify what keyboard key to use to perform the given task.**

she sells sea shells from the shore

1. To make the first letter of the word "she" uppercase.  
\_\_\_\_\_
  2. To make the second word all capital letters. \_\_\_\_\_
  3. With the cursor after "e" of see, replace the letter "e" with "a".  
\_\_\_\_\_
  4. With the cursor at the end of the word see, move the 4<sup>th</sup> word and rest of the text to the next line. \_\_\_\_\_
  5. To separate the word "the" from "sea". \_\_\_\_\_
- 

**C. Write TRUE if the statement is correct and FALSE if it is incorrect.**

1. You can save your document only once. \_\_\_\_\_
  2. Documents1 is the default name of your first unsaved document.  
\_\_\_\_\_
  3. Your work is automatically saved in Documents library until you changed its location. \_\_\_\_\_
  4. The Save and Save As commands can be found in the Home tab.  
\_\_\_\_\_
- 

**D. Create and save a document using the skills you have learned in previous lesson.**

1. Using a computer, compose a one paragraph reaction paper on the document Child Exploitation.
2. Do not forget to type your Name and the current date.
3. Save your work as **Essay Draft**.
4. Read through your work again. Make changes as you read through it.

5. Save the changes you made to your document.
6. Continue to make changes to your document until you are satisfied with your work.
7. When you are satisfied with your work, save your work as **Final Draft**.
8. Save a copy of your final work to the flash drive. Do not change the filename.
9. Close MS Word.

**CHECK YOUR ANSWERS AT THE END OF TOPIC 1**

### Answers to Activity 1

**A. To check if your work is saved.**

1. Click Start > Documents. The Documents Library will appear.
2. Check if the document **PNG Children in sex work** is saved inside.
3. Check if **Child Exploitation** document is saved inside.
4. Click X to close the dialogue box.

**B. To check if your document was saved to a different location.**

1. Click Start and choose Computer. The Computer Dialogue box appears.

2. Double click the flash drive icon. The name of your flash drive may be different from the one shown below.

3. Check if your Child Exploitation document is saved inside your flashdrive.

4. Click X to close the dialogue box.

## Answers to Activity 2

---

### A. To check if changes done to your document were saved.

1. Click Start and choose Computer.
2. The Computer Dialogue box appears.
3. Double click the flash drive icon.
4. Check if Child Exploitation document is saved inside your flashdrive. Revise on Lesson 3 if your document is not saved inside your flashdrive.
5. Double-click Child Exploitation document.
6. Your work should look like the example below:

7. Click X to close the dialogue box.

## Lesson 4: Opening Documents

Welcome to Lesson 4 of Unit 2. In the previous lesson you learned to use the Save and Save As command to save your work. In this lesson you will learn to retrieve files and make changes to your existing document. You will also use the saving techniques you have learned from the previous lesson to save your work.

### Your Aims:

- identify the steps in opening a document
- open documents saved from different locations

Once documents are stored on the computer or a storage device, they can be retrieved for viewing and editing. There are many ways you could retrieve files and documents such as using the Backstage View and using the Window.

### A. Opening a Document Using the Backstage View

The first way is using the Backstage View. Study the following steps below in order to retrieve files and folders.

1. Open MS Word program
2. Click the **File Menu tab**.
3. Click **Open** and the Open dialogue box will appear.
4. The computer automatically goes to the **Documents library**.
5. Click **PNG children in sex work** to select the file and click **Open**.

6. The **PNG children in sex work** document is now open. Let us open another document.
7. Click the **File Menu** tab and select **Open**. The dialogue box appears. **Click** and drag the **Scroll bar** to locate your flash drive.
8. Click your flash drive icon. The content of your flash drive will be displayed on the right side of your screen.

9. Select the file named **Child Exploitation** document.
10. Click **Open**. The document should now be displayed on your screen.
11. Close all your documents. Click **Don't Save** if the computer asks you to save changes to your document.
12. Close MS Word.

## B. Opening document Using Window

The second way on how to retrieve and open a file is using Window. This is perhaps the easiest of all.

1. Click **Start** button
2. Select **Computer**. The Computer window appears on your screen.

3. **Insert** your flash drive. Notice that a new icon will appear at the right side of your window. Close the AutoPlay dialogue box if it appears on your screen now.

4. Open Child Exploitation document saved inside your flashdrive. This will open your document.

5. The Child Exploitation document should be displayed on your screen now.
6. Close your document.
7. Click **Don't Save** if the computer asks you to save changes to your document.

**Activity 1: Follow the given instructions to open a saved document**

The file “PNG children in sex work” located in your computer, is an incomplete copy of your article.

1. Open the **Child Exploitation** document saved on your flashdrive.
2. Open **PNG children in sex work** document saved in the Documents Library. Notice that the article is not finished.
3. Make Child Exploitation document the active document. You can do this by clicking the document icon in the taskbar.

4. Click File and select Save As.
5. Open Documents Library and click PNG children in sex work.
6. Click Save. A dialogue box appears on your screen with a reminder that the document is still open.

7. Click **OK** and close the Save As dialogue box.
8. Close the PNG children in sex work document.
9. Repeat steps 4 to 6. A dialogue box will appear.
10. Click **Replace existing file**.

11. Click **OK**. This will replace the incomplete document in with the complete work saved on your flash drive.
12. Close MS Word.

---

Thank you for completing this activity. You have learned to retrieve a saved document, edit and save changes to it. Mastering this technique will save you the trouble of typing a document everytime you need it.

---

### Summary

You have come to the end of Lesson 4. In this lesson, you have learned different ways of opening a document and applying the steps in retrieving saved documents. Always remember that Save command is different from Open command. Many first time learners have often mistaken these two commands. They may share some similarities but this are two different MS Word commands.

---

|                                                    |
|----------------------------------------------------|
| <b>NOW DO PRACTICE EXERCISE 4 ON THE NEXT PAGE</b> |
|----------------------------------------------------|

## Practice Exercise 4

**A. Using a computer, try to complete the following exercise without using your course book. The exercise is quite simple and should be easy to follow.**

1. Open MS Word.
2. Click File Menu tab and Choose Open.
3. Open your file PNG children in sex work saved inside the Documents Library.
4. Change your title “PNG children in sex work” and replace it with **CHILD EXPLOITATION: A growing concern in PNG**
5. Save the changes you just made to your document.
6. Save a copy of the document in your flashdrive. Change the filename of the document. Use any filename you want to use.
7. Close MS Word.

**B. Complete the following task below. Fill in the correct steps. Use the given images in the next page as guide. The first two steps are done for you.**

1. Open Quotation document saved inside the flash drive.  
2      5      \_\_\_\_\_
2. Open Child Exploitation document saved in Documents.  
2      5      \_\_\_\_\_
3. Open Quotation document saved in Documents.  
2      5      \_\_\_\_\_
4. Open Child Exploitation document saved inside the flash drive.  
2      5      \_\_\_\_\_
5. Open Child Exploitation document in flash drive after opening Quotation document saved in Documents library.  
2      5      \_\_\_\_\_

**CHECK YOUR ANSWERS AT THE END OF TOPIC 1.**

## Answer to Activity 1

---

1. Open Child Exploitation document saved in your flashdrive.
2. Open PNG children in sex work document saved in the Documents Library.
3. Look closely at the content of the two documents. Both should contain the same written text.

4. Go through the instruction again and perform the task if the two documents are different from each other.

## Lesson 5: Using Print Preview

---

Welcome to Lesson 5 of Unit 2. In Lesson 4 you were asked to open your saved document, make changes to it and saved your work again. This lesson will teach you how to view your work before printing it.

### Your Aims:

- defines the meaning and importance of print preview
- identifies the process on how to use the print preview
- uses the print preview

---

### Common Mistakes People Make When Printing

Sometimes, while working, you overlook mistakes especially if you are reading the document on the computer screen. It is best to print your work so you can revise and make changes and apply these changes to your saved document.

There are common mistakes that can be made when printing. It is proper for you to identify these mistakes and avoid these in the future. Some of the most common mistakes are:

- Printing unnecessary pages.
- Printing the wrong pages.
- Printing blank pages in the document.
- Printing multiple copies of the same document.
- And others that you may discover as you start printing your document.

Such problems can be avoided if you learn how to **Preview** your work before printing. Some of the benefits of using print preview are:

- Saves paper.
- Saves toner or ink.
- Mistakes are immediately sighted and corrected before printing.
- Saves time printing your work again after corrections are made.

### Printing Documents

The following steps will help you to correctly print your documents.

1. Open **Child Exploitation** document saved in Documents Library.
2. Click the **File** menu tab. This opens the Backstage View
3. Choose **Print**. Your screen now displays your **Print Pane**.

4. The image below shows the **Print Pane** divided into two sections. The **Print Setting** on the left and **Preview** on the right.

5. Let us discuss the Preview section first. The bottom of the preview section contains the number of page your document has. Right now it displays **1 of 1** which means you are viewing page 1 of a one page document.

6. Click, hold and drag the (+) and (-) sign to zoom in and zoom out the preview of the document. You could also drag the zoom bar to increase or decrease the size of preview of the document.
7. The **Scroll bar** on the right side of the screen can be used to move from page to page. You will notice that it is gray in colour because your document is a single page only.
8. We will not be printing yet so click the close button (**X**) to close the Print dialogue window.

**Activity 1: Follow the given instructions on how to practice using the Print Preview**

Before you practice how to use print preview, let us go through your keyboarding skills then proceed to using Print Preview.

1. Open MS Word and create a blank document.
2. Type your Name on the first line of the document.
3. Press Enter to go to the next paragraph.
4. Type the following quotations. Press the Enter key on the keyboard at the end of each line to type the next line of quotation.

Never give up on anybody. Miracles happen every day  
Be brave. Even if you're not, pretend to be. No one can tell the difference  
Think big thoughts, but relish small pleasures  
Learn to listen. Opportunity sometimes knocks very softly.  
Become the most positive and enthusiastic person you know.

5. Position cursor before the word "Never" in the first line of your quotation.
6. Press Enter to move the quotation down to the next line.
7. Continually press Enter until there is a noticeable distance between your name and the first quotation.
8. Do the same thing for the other quotations.
9. Click the **File** Menu tab and choose **Print**.
10. In the Preview area check the distance of your quotations if its evenly distributed. Press **Esc** from your keyboard to go back to your document.
11. Spread the quotation evenly over the entire page. Use Enter, backspace and/or delete key to adjust space between each sentences.
12. Preview your work again and see if the distances are even.
13. Do steps 9-12 until your work looks like the example on the next page.

14. When your work is finished, click the **File** Menu tab and choose **Save As**.
15. Save your work inside the **Documents library**.
16. Use the filename **Quotations**.

Thank you for completing this activity. On your own you should be able to create a new document, open and save and preview your work before saving. Always make it a habit to try the activities without the aid of your handbook.

## Summary

You have come to the end of Lesson 5. In this lesson, you have learned to use Preview to check your work before printing. Previewing your work saves you from printing your work again after correcting your document. It also saves paper and ink used in printing your document

**NOW DO PRACTICE EXERCISE 5 ON THE NEXT PAGE**

## Practice Exercise 5

---

### A. Read and follow the given set of instructions to complete the exercise.

The following article was taken from The National newspaper dated April 18, 2012.

#### **7.0 magnitude quake hits off Lae**

A 7.0 MAGNITUDE earthquake struck off the the northeast of PNG yesterday, the US Geogological Survey said, but there was no stusnami warning issued.

The quake hit at 5:13pm 141km north of Lae and 443km from Port Moresby at a depth of 201 km, it said. "A destructive stunamin was not generated based on earthquake and historical tsunami data," the Pacific Tsunami Warning Centre said in a statement.

Geoscience Australia measured the quake at 6.8 magnitude and at a depth of 215km but agreed it was unlikely to generate dangerous waves.

"It is pretty deep so it is not a tsunami threat we believe, even though it is slightly offshore," Geoscience Australia seismologist Clive Collins said.

Quakes of such magnitude are common in PNG, which sits on the "Pacific Ring of Fire," a hotspot for seismic activity due to friction between tectonic plates.

1. Begin typing the article in a new blank document.
2. Start by typing the title of the article **7.0 Magnitude quake hits off Lae.**
3. Type continuously, your cursor will automatically go to the next line once it reaches the end of your line. Press Enter only when you are starting a new paragraph.
4. Save your work in the Documents library.
5. Use the filename **Earthquake.**
6. Keep your work open for the next part of the exercise.

---

### B. Previewing a multiple page document.

1. Position your cursor before the first word in the first paragraph.
2. Press Enter to move the paragraph to the next line.
3. Keep pressing the Enter key until you move the paragraphs to page 2 leaving only the title of the article on page 1.
4. On page 2, make sure that the rest of the article is positioned at the centre of your second page. Use the Enter key if necessary.
5. Click File and choose Print to preview your document. Check that your paragraph is at the centre of page 2.
6. Press Esc from your keyboard do close the Print menu and go back to your document.

7. Use Backspace and Delete key to adjust your paragraphs. Do steps 5 and 6 to preview your work again.
8. Save the changes to your work and close MS Word.

**C. Discuss the good things that previewing your work before printing have on the following.**

1. Environment

---

---

---

---

2. Money and Finance

---

---

---

---

**D. Refer to the illustration below to answer the questions on the next page.**

**Write the number that best describes the result indicated by the numbered arrows in the diagram in the previous page. Some answers could be used more than once.**

1. To know what page is currently displayed. \_\_\_\_\_
2. Uses the click, hold and drag to move from page to page \_\_\_\_\_
3. To increase the view to 80%. \_\_\_\_\_
4. To display the next page. \_\_\_\_\_
5. To zoom out the display of the document. \_\_\_\_\_
6. You will click here to display the previous page \_\_\_\_\_
7. Displays the total number of pages the document has. \_\_\_\_\_
8. How many pages does this document have? \_\_\_\_\_
9. What page is currently displayed? \_\_\_\_\_

**CHECK YOUR ANSWERS AT THE END OF TOPIC 1**

### Answers to Activity 1

1. Use print preview to display how your sentences are evenly distributed across the page.
2. Press Esc from your keyboard to close print preview.
3. Open and close Print Preview to adjust your distances between paragraphs.
4. Your work should look like the example below.
5. Close and Save changes to your work.

## Lesson 6: Printing Selected Parts

Welcome to Lesson 6 of Unit 2. In Lesson 5 you learned to use the Print Preview before printing your document. This lesson will focus on printing entire document and printing selected pages of the document as the the final stage of your work.

### Your Aims:

- identify the process on how to print a document
- print whole document or selected parts of a document

### Things To Consider Before You Print

Usually the printed output of your work is referred to as the **hard copy** and the saved file on the computer is called the **soft copy**.

Everytime before you print, there are certain things you must take into account. These include:

- The number of copies to be printed
- Printer to be used to print your work
- Settings of the printer

Remember that your **Print panel** is divided into sections. In the previous lesson we discussed the Preview section. Now let us get into detail with the different printer settings and what they are for.

The screenshot shows the 'Print' dialog box with several sections and settings. Annotations with arrows point to specific parts:

- Print button:** A box labeled "Sends your work to the printer for printing." points to the printer icon and the word "Print".
- Copies:** A box labeled "Click up or down arrow to increase or decrease the number of copies you want to print." points to the "Copies: 1" field.
- Printer selection:** A box labeled "To change the name of the printer attached to your computer." points to the dropdown menu showing "Send To OneNote 2010 Ready".
- Settings section:** A box labeled "Printer settings applied by the users to the document before printing." points to the "Settings" section, which includes:
  - Print All Pages:** "Print the entire document"
  - Pages:** A text input field.
  - Print One Sided:** "Only print on one side of the page"
  - Collated:** "1,2,3 1,2,3 1,2,3"
  - Portrait Orientation**
  - A4:** "21 cm x 29.7 cm"
  - Normal Margins:** "Left: 2.54 cm Right: 2.54 cm"
  - 1 Page Per Sheet**

At the bottom right of the dialog box, there is a link for "Printer Properties" and a "Page Setup" link.

1. Open MS Word.
  2. Open the document **Earthquake** you saved in your last lesson inside the Documents Library.
  3. Click the **File** Menu tab.
  4. Select Print. The print panel will appear.
  5. **Preview** your work.
  6. In the copies area the default number is 1 if you want to print more than one copy of your document, then adjust this accordingly.
  7. Click the down arrow in the printer window if the printer name displayed is not the same as the printer attached to your computer. **Click** to select your printer.
  8. Leave the Pages area blank if your document is a single page only.
  9. Page 1 and Page 2 of your document will be printed.
  10. Click the **Print** icon to start printing your document.
  11. Keep your document open for the next activity.
- 

### Activity 1: Printing Multiple Page Document

1. Make sure that the Earthquake document is still open.
2. Make sure to include your name on your choice location on both pages.
3. Click the **File Menu** tab.
4. Choose **Print**. The Print panel appears.
5. Preview your work before printing. Revise on Lesson 5 of this unit on how to use Print Preview. Make sure everything is ready for printing.
6. In the copies window, click the arrow up or down to increase or decrease the number of copies you want to print. Print 2 copies of our document.
7. In the **Pages** window, type 1. This will print only Page 1 of your document.
8. Click the arrow in the printer window to check if the printer name displayed is the same as the printer attached to your computer. Click to select your printer.
9. Click the Print icon to start printing your document.
10. Open Print Preview. This time print 1 copy of Page 2..

Thank you for completing this activity. Now, you may go to the end of this lesson to check your answer. Make sure you do the necessary corrections before moving on to the next part of this lesson.

## Summary

You have come to the end of Lesson 6. In this lesson, you learned the skills on how to print documents and how to print specific pages of documents.

**NOW DO PRACTICE EXERCISE 6 ON THE NEXT PAGE**

## Practice Exercise 6

### A. Write T if the answer is TRUE and F if the answer is FALSE

1. Documents can be printed without using Print Preview \_\_\_\_\_
2. You can print selected pages of a document. \_\_\_\_\_
3. Only a two page document can be printed \_\_\_\_\_
4. You can print multiple copies of your document. \_\_\_\_\_
5. Preview is on the right side of your print panel. \_\_\_\_\_
6. You can change the printer to another one. \_\_\_\_\_
7. You can have a hardcopy of your document without a softcopy. \_\_\_\_\_
8. You can print many copies of the same page. \_\_\_\_\_
9. You can increase or decrease the Preview size of your document. \_\_\_\_\_
10. Soft copy refers to your saved document. \_\_\_\_\_

### B. Identify the steps you will perform to complete the given task. Use the figure below as your guide.

1. Print 2 copies of your document (2 marks)  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
2. Change printer to another printer (2 marks)  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
3. To make a printed copy of the document (1 mark)  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

---

**C. Follow the given instructions.**

1. Open a new document. Use the CV template available in MS Word and replace the template information with your own.
2. If your computer does not have a template, you can use the example below to type your CV. Replace the text with your personal information, wwhen necessary.
3. Do not worry about the appearance of your text. We will edit the document later in the course of the lesson.
4. You can add more than one information under each section as needed.

Your Name

Street Address

City, State, Zip Code

Phone Number

Email address

Education

High School Name – School City, State

Dates of attendance

Work Experience

Company Name, Dates of Employment

Job Title, description, responsibilities

Company Name, Dates of Employment

Job Title, description, responsibilities

Achievements

List academic and other achievements

**Activities**

List volunteer experience, sports, clubs, etc. as well as dates of involvement

List volunteer experience, sports, clubs, etc. as well as dates of involvement

**Skills**

List computer, language or other personal skills here

List computer, language or other personal skills here

3. Save your work. Use the filename **My CV**
4. Your document may or may be more than a single page.
5. Preview your work and Print all the pages of your document.

---

|                                                 |
|-------------------------------------------------|
| <b>CHECK YOUR ANSWERS AT THE END OF TOPIC 1</b> |
|-------------------------------------------------|

---

**Answers To Activity 1**

---

1. Two copies of Page 1 will be printed.
2. One copy of Page 2 will be printed.
3. Check if the printer you are using is the same printer attached to your computer if your computer does not print.

## Answers to Practice Exercises in Topic 1

---

### Practice Exercise 1

#### A.

1. Start button
2. Close button
3. Blank document
4. Word icon
5. More options

#### B.

1. Ruler
2. Minimize, Maximize/Restore, and Close button
3. Cursor
4. Tab
5. Ribbon

#### C.

1. False
  2. False
  3. False
  4. True
  5. True
- 

### Practice Exercise 2

#### A.

1. True
2. False
3. True
4. False
5. True
6. True
7. True
8. False
9. False
10. False

**B.**

The document you created will be different from the others. You may find that some common problems you will encounter includes:

1. Hard to correct mistakes once you made it.
2. You have to decide the general layout it advance. You have to do everything if you decide you do not like the appearance of your work.
3. Colours are limited to the available materials that you have.
4. Pictures and objects are limited to what you can draw or paste.

---

**Practice Exercise 3****A.**

1. Save as
2. Save as
3. Save as
4. Save
5. Save as
6. Save as

**B.**

1. Shift + S
2. Caps Lock
3. Back Space
4. Enter
5. Space Bar

**C.**

1. False
2. True
3. True
4. False

**D.**

The essay you created will be different from the others. The important thing to check is to make sure that you have saved your work properly. To check whether your work was saved.

1. Click the Start button and click Documents.

- The Documents dialogue box will appear. **Draft** and **Final Draft** document should be saved in the Documents Library.

- On the left side of your window, click Computer. This will display the content.
- Insert your flash drive. Close the AutoPlay dialogue box that will appear on your screen.
- Double-click the flashdrive icon. A copy of the Final Draft document must be saved inside.

---

## Practice Exercise 4

### A.

- Open the **PNG children in sex work** document saved in the documents library. The title of your document should now display "Child Exploitation: a growing concern in PNG"

2. Open the document you saved in your flashdrive. Both documents should look exactly the same but with a different name.
3. Close your documents.

#### B.

1. 2                      5                      1                      8                      11  
or  
2                      5                      4                      8                      11
2. 2                      5                      7                      6                      12
3. 2                      5                      7                      9                      12
4. 2                      5                      1                      10                      11  
or  
2                      5                      4                      10                      11
5. 2                      5                      1                      10                      11

### Practice Exercise 5

#### A.

1. Save your work as Earthquake inside the Documents Library.
2. Your work should look like the example below.

**B.**

1. Press Enter to move the paragraphs of to page 2 of your document.
2. Use Print Preview to check if the paragraphs are centered across your document.
3. Zoom Out the preview to display both document in the Print Preview.

**C.**

**Environment :** There are many possible answers. You may site more if you can.

1. Allows you to correct your mistake before printing. This saves paper which will help in the conservation of trees.
2. Reduces waste and clutter.
3. Reduces the use of toner and inc which contain chemicals harmful to the environment.

**Money and Finance:** There are many possible answers. You may site more if you can.

1. Save on cost by printing only when you thoroughly checked your work.
2. Printer toner and inks are expensive.

**D.**

1. B
2. C
3. E
4. A
5. G
6. D
7. F
8. 2
9. 2

## Practice Exercise 6

### A.

1. T
2. T
3. F
4. T
5. T
6. T
7. F
8. T
9. T
10. T

### B. Use the illustration below to answer the following questions.

1. Print 2 copies of your document (2 marks)

Click the increase icon in the copies window to print two copies of the document. You may also type "2" in the copies window to print two copies.

2. Change printer to another printer (2 marks)

Click the arrow in the Printer option. Use the scroll bar/button to locate the name of the printer you are going to use. Click the printer and it will now be displayed in the window.

3. To make a printed copy of the document (1 mark)

Click the Print icon to make a hardcopy of your document.

**C.**

1. Make sure to print a copy of your CV.
  2. Your document may have more than one page.
  3. Print all the pages of your CV.
- 

**End of Topic 1**

**Now Do Exercise 1 in Assignment Book 1 Then Go to Topic 2**

## TOPIC 2

### FORMATTING DOCUMENTS

|                   |                                                          |
|-------------------|----------------------------------------------------------|
| <b>Lesson 7:</b>  | <b>Selecting Font Style and Size</b>                     |
| <b>Lesson 8:</b>  | <b>Word Spacing and Indenting</b>                        |
| <b>Lesson 9:</b>  | <b>Margins and Line Spacing</b>                          |
| <b>Lesson 10:</b> | <b>Changing Case and Justifying Text</b>                 |
| <b>Lesson 11:</b> | <b>Selecting Page Orientation</b>                        |
| <b>Lesson 12:</b> | <b>Setting Tabs, Headers, Footers and<br/>Pagination</b> |

## TOPIC 2: FORMATTING DOCUMENTS

---

In this topic you will learn about the different ways of formatting your documents. The Topic is designed to familiarise you with changing appearance of text and applying styles to paragraphs.

In this topic, you will study about the following:

**Lesson 7** focuses on selecting font style and size which you apply to text of your document.

**Lesson 8** centres on applying word spacing and indentions to your paragraphs.

**Lesson 9** discusses on the use of margins and line space which changes the appearance of your document.

**Lesson 10** discusses how you could change case and apply alignments to your paragraph.

**Lesson 11** explains how selecting Page Orientation changes the physical layout of your document.

**Lesson 12** setting tabs, headers, footers and pagination emphasizes on the process of printing a Word document.

By the end of Topic 2, you should be able to use a word processing applications for specific tasks, design, produce and evaluate appropriate word processing solutions to a range of problems and use ethical practices when dealing with information and computer technology.

## Lesson 7: Selecting Font Style & Size

Welcome to Lesson 7 of Unit 2. In Lesson 6 you learned how to preview your work before printing it. In this lesson you shall learn how to format your document to enhance its overall appearance.

### Your Aims:

- identify font styles and sizes
- use appropriate font styles and sizes
- recognize the importance of using appropriate font styles and sizes

## Font

Font refers to physical characteristics of the text you are using as it appears on your document. It is located in the Font option of the Home ribbon.

The effectiveness of a document is often judged by the way it looks. After you have typed your document, saved and printed it, you will notice that it is quite plain and boring. These problems can be solved by formatting your documents. You can use formatting to emphasize important parts of the document.

Changing font allows you to change the type face, size colour and style of your text. The illustration below can be found in the Home Ribbon. It contains icons and shortcuts to format your text.

1. **Font Type** – refers to the type face of the characters in your document. Calibri, Arial, Times New Roman are some examples.
2. **Font Style** – are the additional style added to your text. Bold, Italic, Underline are some examples.
3. **Font Size** – the physical size of your text and is measured in points (pt.). 9 pt., 12 pt., 14 pt. are some examples.
4. **Font Color** – a palette of colors applied to your characters. Red, Blue, Green are some examples.

### Font Dialogue Box

You can also access the following options in the Font dialogue box. Every option available in the ribbon can also be found here.

Click the Font dialogue box icon located in the lower right corner of the font option. The font dialogue box appears.

### Changing Font Type

We will be using documents we have typed from Lesson 3 in this lesson. Try to recall your lesson by using the “Open” command which you previously learned in Lesson 4. Follow the steps below to change the Font type.

1. Open the **Child Exploitation** document saved on your flash drive.
2. Using the mouse, select the title “PNG children in sex work”.

3. Move your mouse pointer to the selection bar where the title is located. Click the mouse when the Insertion point changes into an arrow. This will select the title.
4. Find the Font group in the **Home Menu** tab.
5. Click the down arrow in the **Font type** window.
6. Click hold and drag the scroll bar downwards to view all the font types available.
7. Choose the font named **Comic Sans MS**.

8. Notice how this affects the appearance of the title.

---

### Changing the Font Size

Knowing how to change the font size will determine the correct size of the chosen font style. Follow the steps below to change Font size.

1. Move and click your mouse in the **Font size** window. Notice that the number displayed there will be highlighted. Change this by typing **20** and then press Enter.
2. You may also change the font size by clicking the down arrow in the font size window.

### Changing Font Styles

Aside from the different font styles, you can also apply the following to change your font as either Bold, Italic or Underline. Follow the steps on changing other font styles.

1. Click **B** (Bold) **I** (Italic) and **U** (Underline) as your Font Style. You may use one or all of the font styles at the same time.

2. By default, clicking **U** will put a single underline style to your text. Let us change this by clicking the down arrow.
3. Click the scroll button to display the different underline styles available.
4. Choose the double ruled lines.

### Changing Font Colour

Adding a splash of colour to your document will capture your readers' attention. Font colour makes your text stand out and give visual appeal to your document.

1. Click the down arrow in the Font colour option.
2. Select and choose any colour you want. Make sure that the text is still highlighted. Any formatting will not be applied to your text if it is not highlighted.

3. Your work should look like the example below.

4. Save changes to your work! Use the skills you have learned in Lesson 3.

### Using the Format Painter

It is time consuming to make the sub-headings the same. You can make this easy by using the **Format Painter**. Format Painter allow you to apply the same format you used for your text to another text, word or paragraphs within your document.

1. Select the word “PNG children in sex work”.
2. While the text is still selected, double click the **Format Painter icon** in the **Home** ribbon.

3. Notice how your mouse pointer changes when you move your mouse to any part of your paragraph.

4. Select the paragraph 1. Notice that the text changes its format like that of the title.
5. Click **Undo** to remove the changes you just made to the paragraph.
6. You can use **Format painter** when you are trying to copy any formats you used and apply it to another text, word or paragraphs.

---

## The Font Dialogue Box

Changes are automatically applied to the text when you are using the Font groups. You might want to preview your work, change and make changes again before immediately applying the changes. Use Font dialogue box if this is your aim. Plus the dialogue box contains other options that are not available if you use the Font group.

1. Select paragraphs 1 to 4.
2. Click the Open dialogue box icon.

3. The Font dialogue box appears. This contains Font, font style, size, font colour, underline style, underline colour and effects. These options are also available in the ribbon

4. Use the Font dialogue box to apply the following formatting styles:
 

Font : Arial Black

Font Style : Underline (use the wavy type of underline)

Font Size : 10 pts.

Font Colour : Red
5. The Preview window displays what the highlighted text will look like. Changes will not be applied to your text until you click OK.
6. Click OK. Your work should look like the example below.

7. Save changes to your document.
8. Keep your work open for the next exercise.

## Using the mouse

The mouse can also be used to format the text. Using the Right-click mouse function will display options on formatting fonts.

1. Select paragraph 5 – 8.
2. Position your mouse pointer over any part of the selected text and Right-click the mouse.

3. Use the mouse to change the formats of the paragraphs:

Font : Cooper Black

Font Style : Italic

Font Size : 12 pts.

Font Colour : Blue

**Activity 1: Change Font, Size, Style, Colour Of Your Text**

1. Make sure that the document “PNG children in sex work is still” open.
2. Select Paragraph 9-14 in the document.
3. Use the Font dialogue box to apply the following formatting styles:

Font : Brush Script MT

Font Style : **Bold**, *Italic*, Underline

Font Size : 16 pts.

Font Colour : Green
4. Click OK to apply changes to your text.
5. Select the title of the document. Use Format painter to apply the same formats to the last paragraph.
6. Your work should look like the example on the next page.
7. Create a copy of your document in the Documents library.
8. Use the filename **Format font exercise**.
9. Print your work.

---

Thank you for completing this activity. In this activity you have learned how to apply different font formats to your text using the ribbon and dialogue box. Try to do the task again without opening your handbook. Compare your work with the output provided at the end of this lesson.

## Summary

You have come to the end of Lesson 7. In this lesson, you learned to apply different formatting techniques to your documents to enhance its appearance by changing the font type, style, size and colour of your text.

---

**NOW DO PRACTICE EXERCISE 7 ON THE NEXT PAGE**

## Practice Exercise 7

---

### A. Circle the letter of the correct answer

1. Times New Roman, Arial and Comic Sans are called Font \_\_\_\_\_.
  - a. Type
  - b. Size
  - c. Colour
2. You can choose font and font sizes using the \_\_\_\_\_ menu.
  - a. File
  - b. Home
  - c. Page view
3. What will you use to make your text appear like **THESE**.
  - a. Italic
  - b. Underline
  - c. Bold
4. \_\_\_\_\_ is the additional style added to your text.
  - a. Font type
  - b. Font size
  - c. Font colour
  - d. Font style
5. What will you use to make your text appear like THESE.
  - a. Italic
  - b. Underline
  - c. Bold
6. The physical size of your text and is measured in point are called Font \_\_\_\_\_.
  - a. Type
  - b. Size
  - c. Colour
  - d. Style
7. Pallete of colours applied to your characters is called Font \_\_\_\_\_.
  - a. Type
  - b. Size
  - c. Colour
  - d. Style
8. What will you use to make your text appear like ~~THESE~~.
  - a. Italic
  - b. Underline
  - c. Bold
  - d. Strikethrough
9. The type face of the characters in your document is called Font \_\_\_\_\_.
  - a. Type
  - b. Size
  - c. Colour
  - d. Style

10. To select a word you first position the cursor next to the word and then \_\_\_\_\_.
- roll mouse around
  - click the mouse three times (triple click in rapid succession)
  - drag the mouse while holding the left mouse button
11. You can only apply one font style to your text
- True
  - False
12. As you type a paragraph, press ENTER to move from one line to the next.
- True
  - False
13. You cannot use Font size 15 when you are formatting text
- True
  - False
14. You can use various underline styles in your text.
- True
  - False
15. Bold, Italic, Underline can be used at the same time in your text.
- True
  - False

**B. Complete the following exercise.**

1. Type the following text:

What kind of dreamer are you?

Are you dreaming your life away or are you using your dreams to get the most out of life? Our dreams tell us what is needed to restore a balance in our lives; to become whole, not perfect. Dreaming itself can slowly change our attitudes. Over a long period of time, a personal pattern becomes clearer and these dream-patterns can give us insight into the neglected parts of ourselves.

Every dream has a purpose and is entirely honest. While we are awake we may pretend, but while we are asleep there are no deceptions. Dreams are part of our inner lives, akin to intuition, fantasy imagination and those inner urges, desires and needs of which we may only vaguely aware.

It is said that, on average, everybody dreams four times each night. Researchers have discovered that people who normally cannot remember dreaming are able to recall dreams if they are woken during those periods of sleep that are accompanied by rapid eye movement (called REM sleep).

Almost anything can stimulate dreaming, especially unusual events that take place during the evening – but remember that a regular intake of alcohol depresses REM sleep and may deprive you of essential dream periods.

2. Save your work as **REM sleep**. Refer to Lesson 3: Using Save and Save As to save your work for the first time.
3. Use Format Painter for this activity.

4. Every time you see the word “**dream**” or “**dreams**” change the:  
Font type to : Impact  
Font style to : Underline  
Font size to : 13 pts.  
Font colour to : Red
5. Every time you see the word “*dreaming*” change the:  
Font type to : Comic Sans MS  
Font style to : Bold and Italic  
Font size to : 16 pts.  
Font colour to : Blue
6. Make it a habit of constantly save changes to your work while working. Use Save command to do this.
7. Save a copy of your final work into your flash drive. Refer to Lesson 3: Using Save and Save As to save your work for the first time.
8. Print your work.

**C. Why is it appropriate to use font style and sizes.**

---

---

---

**CHECK YOUR WORK. ANSWERS ARE AT THE END OF TOPIC 2.**

**Answers to Activity 1**

1. Open documents library to make sure that your File was saved properly.
2. Your work should look like the example on the next page after you finished this activity.
3. Go through Lesson 7 to revise on formatting font type, size, style and colour if you are unsure on how to proceed with the exercise.
4. Repeat the exercise again and save your work in a different filename. You may use your own filename.
5. Later when you have mastered the skills of formatting font, you may use your own style by using your own font type, style, size and colour to your document.

6. Some paragraphs will appear dark when printed because of the use of the type of font and colour. Darkness of print will depend on the colour you used when printing in black print.

### **PNG children in sex work**

**CHILDREN** are being driven into sex work in Papua New Guinea because of poverty, a damning report by the International Labour Organisation (ILO) said.

The report, released in the capital yesterday, says there is child trafficking involving parents and guardians who sell their children to clients.

It classifies children forced into sex work as the worst form of child labour.

The report was based on findings by a joint committee comprising members of the PNG Trade Union Congress, Young Women's Christian Association and other stakeholders.

The researchers interviewed about 400 children living in Port Moresby. Pacific ILO director David Lamotte said sex work by children aged below 18 was caused by poverty.

In a statement, Labour and Industrial Relations Minister Martin Aini said the government was not left with the challenge to prevent child labour especially with the economic boom in the country.

He said the statistics of child labour "makes it crucial to plan a way forward to address the issue".

The report states that about 175 sex workers interviewed were all females and two were transgender sex workers – boys who were paid by men for sex.

It said about 47% of children interviewed on the street had never been to school.

Lamotte said that the ILO was working closely with trade unions, YMCA, education department and police to draft a child labour national policy to stop child labour.

He said children often looked for work because their parents could not afford their needs and wants or because they come from broken homes.

He said once a child started working at the early ages of 13, 14 and 15, he or she would remain poor for the rest of his or her life.

He said there were also other means of earning money by school-aged children who were not at school because they just had to earn money to make a living.

Lamotte said the research was conducted in Port Moresby because of the accessibility and the fact that child labour was a issue that arose in urban areas.

**He said if urban areas in the city revealed serious abuse of children through child labour, "it can be said that such is**

## Lesson 8: Word Spacing and Indenting

---

Welcome to Lesson 8 of Unit 2. In Lesson 7 you were introduced to different formatting techniques. In this lesson you shall learn how to change the distance between paragraph lines of your document.

### Your Aims:

- differentiate word spacing from indenting
- identify appropriate word spacing and indention

---

### Word Spacing and Indenting

Word Spacing and Indentions gives your documents more legible. Both are ways in which you can improve the appearance of your documents.

#### Before we start applying indentions and indents, do the following:

1. Type the text in the box below. Just type continuously. Your text will move to the next line once it reaches the end of the line.

New gecko species found in PNG

A new species of gecko was discovered in Papua New Guinea, the US Geological Survey announced this week. The gecko is adorned like a bumblebee, researchers say, with black-and-gold bands that help it to camouflage itself on the tropical forest floor.

It measures about 13 cm from head to tail, according to USGS herpetologist Robert Fisher, “We have officially name it Nactus Kunan from its striking colour pattern – kunan means bumblebee in the local Nali language,” Fisher said.

“It belongs to a genus of slender-toed geckos, which means these guys do not have the padded, wall- climbing toes like the common house gecko.” Fisher found two of the bumblebee geckos in 2010 and analysed their genetics to show that the lizard were indeed new and distinctive species.

The research was done in consent with scientists at the Papua New Guinea National Museum. It has been an exciting year for the lizards and amphibians in Papua New Guinea.

Earlier this year, researchers discovered a tiny frog in Papua New Guinea, which is the smallest known vertebrate species on Earth.

2. Save your work as **Nactus Kunan** inside your Documents Library.
3. Keep your file open for the next exercise.

## Indention

Indention puts emphasis on documents and sets them off apart from the rest of the document. It allows readers to find information quickly from the rest of the paragraphs in a document.

There are four basic types of indents you can use in your document.

1. **Left** – indents the entire paragraph from the left margin. To extend the paragraph into the left margin, use a negative value for the left indent.
2. **Right** – indents the entire paragraph from the right margin. To extend the paragraph into the right margin, use a negative value for the right indent.
3. **First line** – indents, the first line of the paragraph. All following lines are aligned with the left margin.
4. **Hanging** – indents all lines after the first line of the paragraph. The first line is aligned with the left margin. A hanging indent typically is used for bulleted and numbered list.

## Applying Indents

There are many ways of applying indentions to your document. We will learn all of it and later you may choose any style you are most comfortable with. Before your continue, make sure that the Nactus Kunan document is still open.

### A. Applying Indents Using The Tab Key

Using the Tab Key is the easiest way of changing your paragraph indention. It involves using the Tab and Backspace key to apply indent and remove indention from your text.

1. Position your insertion point at the beginning of the first paragraph.
2. Press the **Tab key tab** located on your keyboard. This will indent the first line of your paragraph  $\frac{1}{2}$  from the left margin.
3. Notice on the horizontal ruler that the **First line indent marker** moved to the right by  $\frac{1}{2}$  inch.
4. Press the Tab key again. Notice that the indention moved again. This time the rest of the document followed.
5. Press the Backspace key from the keyboard. This will remove the left indention and return the paragraph to where it was before.

6. Keep your work open for the next exercise.

## B. Applying Indents Using The Indent Marker

Sometimes, when you are indenting paragraph, your text does not move the way you want it to. You can control how the paragraphs are indented by using the **Indent Marker**. However this requires you to have good control of your mouse. So be sure to practice your click, hold and drag.

The indent marker on the horizontal ruler will show you the following Tabs: first line indent, hanging indent and the left indent as shown below.

1. Select paragraphs 2 and 3 of your document. Note that the selections done must be active at all times while performing all the next steps below.
2. Click, hold and drag the First line indent marker to 2 in your ruler. Notice how the first lines of paragraphs 2 and 3 were moved when you release the mouse button.

3. Drag the First line indent marker to the left. The first line of your paragraph is now located in the margins area.

4. Return your first line marker to its original location on the horizontal ruler.
5. Now, click and drag the Left indent marker 1 ½ inch or use 3 cm. from the left margins. The selected paragraph will now be left indented.

### C. Applying Indents Using the Paragraph dialogue box

1. Select paragraphs 4 and 5.
2. Click the display Paragraph dialogue box icon.
3. Type 2.54 cm in the Right indentation.
4. In the Special indentation, choose **Hanging**.
5. Type **2.54** cm in the By: window.

6. Click OK to apply changes to your paragraphs.
7. Observe how the the Hanging indent marker appears in the horizontal ruler.

8. Look at how the right indent marker is positioned on the ruler.

9. Save your work as **Nactus Kunan Indention**.
10. Print your work.
11. Your work should look like the example below.

#### New gecko species found in PNG

A new species of gecko was discovered in Papua New Guinea, the US Geological Survey announced this week. The gecko is adorned like a bumblebee, researchers say, with black-and-gold bands that help it to camouflage itself on the tropical forest floor

It measures about 13 cm from head to tail, according to USGS herpetologist Robert Fisher, “We have officially name it Nactus Kunan from its striking colour pattern – kunan means bumblebee in the local Nali language,” Fisher said

“It belong to a genus of slender –toed-geckos, which means these guys do not have the padded, wall- climbing toes like the common house gecko.” Fisher found two of the bumblebee geckos in 2010 and analysed their genetics to show that the lizard were indeed new and distinctive species.

The research was done in concert with scientists at the Papua New Guinea National Museum. It has been an exciting year for the lizards and amphibians in Papua New Guinea.

Earlier this year, researchers discovered a tiny frog in Papua New Guinea, which is the smallest known vertebrate species on Earth.

12. Your work might look slightly different from the illustration here.

Note: Your ruler settings are set to inch or centimetres. Do not worry! Just estimate the measurement. The important thing is you can apply indentions to your document.

### Activity 1: Apply Indention To Improve Appearance Of A Document

1. Open My CV document.
2. Save your work as My CV v2 using Save As command.
3. Apply formatting styles to your CV. You can change the font type, style, size and color of the text. Make it a habit of saving changes to your work every couple of minutes.
4. Apply indentions to your CV. Try to use the different ways of applying indention to your document.
5. If you are still unsure how to proceed use the example at the end of this lesson as a guide when editing your CV.
6. Print a copy when you are satisfied with your final CV.

Congratulations! You have successfully completed this activity. I hope that you have applied all the skills you have learned from your previous lessons. Compare your work with the output provided at the end of this lesson.

## Word Spacing

Word spacing refers to the distance between one word to the next word in the paragraphs. These spaces are automatically placed when you type your documents. You can increase or decrease the distance between words depending on its use.

### Changing Word or Character Spacing

Before we start, make sure that The Nactus Kunan Indention document is still open.

1. Select Paragraph 1.
2. In the Home ribbon click the Font dialogue box icon. The font dialogue box appears.
3. Click the Advanced tab in the Font dialogue box.
4. Click the drop down arrow in the Scale box. Select 80% and click OK. Observe how the spaces between the characters reduce in size while the font size remains unchanged.

5. Select Paragraphs 2 and 3.
6. Click the down arrow next to the Spacing option box and choose Expanded.
7. Type 5 pt in the **By:** input box and click OK. Observe how your words become spread while the Font size remain unchanged.

8. Select Paragraphs 4 and 5.
9. Click the down arrow in the Spacing option and choose Condensed .
10. Type 5 pt in the By: window and click OK. Observe how your words are compressed together.

11. Your work should look like the example below.
12. Save your work as Nactus Kunan word spacing.

## New gecko species found in PNG

A new species of gecko was discovered in Papua New Guinea, the US Geological Survey announced this week. The gecko is adorned like a bumblebee, researchers say, with black-and-gold bands that help it to camouflage itself on the tropical forest floor.

It measures about 13 cm from head to tail, according to USGS herpetologist Robert Fisher, "We have officially name it Nactus Kunan from its striking colour pattern – kunan means bumblebee in the local Nali language," Fisher said

"It belongs to a genus of slender-toed-geckos, which means these guys do not have the padded, wall-climbing toes like the common house gecko." Fisher found two of the bumblebee geckos in 2010 and analysed their genetics to show that the lizard were indeed new and distinctive species.

Testes: 100% (100/100) OK

~~Phosphatidylserine (PS) is a membrane phospholipid~~

**Activity :**      **Apply Word spacing to improve appearance of a document.**

1. Open a new Word document and type in the text in the box below:

I Love  
Papua New Guinea

2. Use the following formatting to change the appearance of your text:  
Font : Broadway  
Font size : 48 pts.
3. Without changing the font size, adjust the word spacing to the first and second line so that your work will look like the one below.
4. Save your work as PNG Poster.

## Summary

You have come to the end of Lesson 8. In this lesson, you learned to apply different paragraph alignment and changed indentions using the tab selector and the dialogue box. You have also learned to use Word spacing to make changes to the appearance of your document.

**NOW DO PRACTICE EXERCISE 8 ON THE NEXT PAGE**

## Practice Exercise 8

A. Identify and name the icons numbered 1-8 in the spaces provided below.

- |          |          |
|----------|----------|
| 1. _____ | 5. _____ |
| 2. _____ | 6. _____ |
| 3. _____ | 7. _____ |
| 4. _____ | 8. _____ |

B. Using the sample text file below and by observation, identify what type of indentation/indents are applied to the following paragraphs.

- Paragraph 1: (1) \_\_\_\_\_
- Paragraph 2: (2) \_\_\_\_\_ (b) \_\_\_\_\_
- Paragraph 3: (3) \_\_\_\_\_
- Paragraph 4: (4) \_\_\_\_\_
- Paragraph 5: (5) \_\_\_\_\_
- Paragraph 6: (6) \_\_\_\_\_

**C. Perform the following.**

1. Type the following text and perform the given task. The following stories are excerpts from Steve Jobs speech. Let us apply what we learned in this lesson and get a little inspiration from his story. Just type continuously. Press the Enter key only when you are starting a new paragraph.

**CONNECTING THE DOTS**

Steve Jobs dropped out of college. He was not interested in the formal classes of the expensive university his parents had sent him to. He didn't want to continue spending all the money his parents had saved their entire life.

So he took optional courses. When he was in university he studied the beautiful calligraphy posters on his campus, he joined and studied calligraphy class. He learned about serif and sans serif typefaces, about varying the amount of space between different letter combinations, about what makes great typography great.

Ten years later, when he was designing the first Macintosh computer, Steve's calligraphy lessons came back to him. Had he never taken that single course in college, then the Mac would not be what it is today.

He said: "You cannot connect the dots looking forward: you can only connect them looking backwards. So you have to trust that the dots will somehow connect in your future. You have to trust in something – you gut, destiny, life, karma. This approach has never let me down, and it has made all the difference in my life."

2. Change the indentation. Use the **Tab Selector** to change the indentation of the paragraphs. The negative alignment means going on the opposite direction of the margins. It might be a problem changing the alignment using the mouse. Do not worry about it. Just do your best when changing the indentation.

|             | Indentation                                                         |
|-------------|---------------------------------------------------------------------|
| Paragraph 1 | Left: 0 inch<br>Right: 0.5 inch<br>Special: 0.5 inch (First line)   |
| Paragraph 2 | Left: 0 inch<br>Right: 0 inch<br>Special: 1 inch (Hanging)          |
| Paragraph 3 | Left: 1 inch<br>Right: 1 inch                                       |
| Paragraph 4 | Left: -0.5 inch<br>Right: -0.5 inch<br>Special: 1 inch (First line) |

3. Type your name.
4. Save your work as **Steve Job Story 1**
5. Print your work.

**CHECK YOUR WORK. ANSWERS ARE AT THE END OF TOPIC 2.**

### Answers to Activity 1

1. The example provided below is just a suggestion on how you can format your work. Use this as a guide only. Apply your own distinct style to your CV.
2. Observe how indentions are used to improve the appearance of the CV below.

### Answers to Activity 2

1. Look in the Documents Library to see if the PNG Poster document is saved.
2. The font size of the document must not change when doing the activity.
3. Adjust the Scaling and Spacing to the text to produce the required effect.

## Lesson 9: Margins and Line Spacing

---

Welcome to Lesson 9 of Unit 2. In Lesson 8 you learned how to use word spacing and indentation. In this lesson you will learn to change the default Page setup and Line space setting.

### Your Aims:

- identify the differences between margins and line spacing
  - use the appropriate margins and line spacing
  - identify the importance of using margins and line spacing
- 

### Page Layout and Page Set Up

All documents created in MS-Word have default setting for Page Setup and Line space. But sometimes these settings are not suitable for the type of document you want to produce.

**Page layout** refers to changes directly applied to the document page. Page layout involves changing the:

1. **Page orientation** – to specify whether you want to print vertically on the paper or horizontally.
  2. **Paper size** – different paper sizes are available depending on use. A4 is the paper size used here in PNG.
  3. **Page margins** – determine where the words will appear on a page, the space between text and four edges of the paper.
- 

#### A. Changing Page Setup using Page Layout tab

Page setup and page layout offers you several options to change the presentations of your text, margin, orientation, size format and other options of your document. Document pages can be formatted by using the Page setup and Page layout options.

Follow the instructions given to change the Page Setup of your document.

1. Open **Nactus Kunan** document.
2. Select the **Page Layout Menu** tab.
3. Click **Orientation** in the Page Layout option.
4. Choose **Landscape** from the drop down menu.

5. Click the **Size** option and choose **A4** in the drop down menu.

6. Click **Margins** in the Page Layout option and choose **Moderate** from the drop down menu.

## 7. Your work should look like the example below.

**B. Changing Page Setup using Page Layout tab**

1. Click the Page Setup dialogue box icon.

The Page Setup dialogue box will appear.

2. Click the mouse pointer inside the Top margin input box and type 1.5" (the " represents inch). You could also use the up or down arrows to increase or decrease the margins.
3. Change the top, bottom, left and right Margins to 1.5".

4. If your computer measures in **cm** (centimeters) your computer will convert the inch value to centimeters.

5. Change the Orientation to **Portrait** by clicking on Portrait.

6. Locate and click the **Paper tab**. Here you will find the paper size.
7. To change the paper size, click the down arrow to reveal the different paper sizes and change paper size to A4.

8. Click OK to apply changes to your document.
9. Save your work as **Nactus Kunan Page Setup**.
10. Print your work. Your work should look like the example below.

### Activity 1: Changing the Page Layout of the Document

1. Open Child Exploitation document saved inside your flashdrive.
2. Change the Page Layout of your document as follows:
 

|             |   |           |
|-------------|---|-----------|
| Margins     | : | Wide      |
| Orientation | : | Landscape |

Paper Size : Letter

3. Save your work as **Page Layout Activity** inside the Documents Library.
4. Print your document.

Thank you for completing this activity. Now, you may go to the end of this lesson to check your answer. Make sure you do the necessary corrections before moving on to the next part of this lesson

---

### Paragraph and Line Spacing

By default each line space is 1.5 lines. Line and paragraph spacing change the spacing between lines of text. It could be measured by **lines** (single, 1.5, double) or **points** (exact measurement). Line spacing affects the distance between lines of text *within* a paragraph while paragraph spacing affects the distance like the white space *between* paragraphs. Line spacing refers to the distance between each of the line of text of the paragraph.

#### A. Line Spacing

To change the line spacing between paragraphs:

1. Open Page Layout Activity document.
2. Select Paragraphs 1–4. Find the Paragraph group located in the Home ribbon.
3. Click the Line and Paragraph Spacing icon.

4. Click the down arrow in the Line and Paragraph spacing option. Choose 1.5 pts from the drop down menu.
5. Select paragraphs 5 – 8. Change the line spacing to 2.0
6. Select paragraphs 9 – 14.
7. Click the Paragraph dialogue box icon to display the Paragraph dialogue box.
8. In the Line Spacing option, choose Multiple and type 2.5 in the At: window.

9. Preview your work. Observe the distance between lines of text in a paragraph.
10. Save your work as **Line Space Activity** inside the Documents Library.
11. Print your work. Your work should look like the example below.

## B. Paragraph Spacing

Paragraph spacing on the other hand, refers to the distance between paragraphs and is measured by points (**pts.**) before and after each paragraph.

1. Open REM sleep document.

2. Remove the spaces between paragraphs. This will make it easier to immediately see the effect of the exercise.

What kind of dreamer are you?

Are you *dreaming* your life away or are you using your **dreams** to get the most out of life? Our **dreams** tell us what is needed to restore a balance in our lives; to become whole, not perfect. *Dreaming* itself can slowly change our attitudes. Over a long period of time, a personal pattern becomes clearer and these **dream**-patterns can give us insight into the neglected parts of ourselves.

Every **dream** has a purpose and is entirely honest. While we are awake we may pretend, but while we are asleep there are no deceptions. **Dreams** are part of our inner lives, akin to intuition, fantasy imagination and those inner urges, desires and needs of which we may only vaguely aware.

It is said that, on average, everybody **dreams** four times each night. Researchers have discovered that people who normally cannot remember *dreaming* are able to recall **dreams** if they are woken during those periods of sleep that are accompanied by rapid eye movement (called REM sleep).

Almost anything can stimulate *dreaming*, especially unusual events that take place during the evening – but remember that a regular intake of alcohol depresses REM sleep and may deprive you of essential **dream** periods.

3. Select the entire Paragraph.
4. Click the Line and Paragraph Spacing icon.
5. Move your mouse pointer to Add Space Before Paragraph or Add Space After Paragraph. Note that the spaces between paragraphs have been added.
6. Open the Paragraph dialogue box. In the Spacing option type 12 pt Before and 24 pt After.
7. Click Ok to apply changes to your paragraph.
8. Save your work as Paragraph Spacing Activity. Your work should look like the example on the next page.

What kind of dreamer are you?

Are you *dreaming* your life away or are you using your **dreams** to get the most out of life? Our **dreams** tell us what is needed to restore a balance in our lives; to become whole, not perfect. *Dreaming* itself can slowly change our attitudes. Over a long period of time, a personal pattern becomes clearer and these **dream**-patterns can give us insight into the neglected parts of ourselves.

Almost anything can stimulate *dreaming*, especially unusual events that take place during the evening – but remember that a regular intake of alcohol depresses REM sleep and may deprive you of essential **dream** periods.

## Activity 2: Change the Line and Paragraph Spacing in a Document

1. Open your CV document. This is the last CV you formatted and saved.
2. Click the Show/Hide icon. This symbol located at the end of the text means it is the end of the paragraph. However this creates unnecessary spaces between paragraphs. Let us remove the paragraph spaces.

3. Select all the paragraphs.
4. Click the Paragraph dialogue box icon. The paragraph dialogue box will appear.
5. In the line spacing window, choose **Single** and click **OK**. Notice that nothing changed. This is because line spacing is used for changing the distance between lines of text within a paragraph.

6. Open the paragraph dialogue box and locate the **Spacing** option.

7. In the **Before** window, click the up arrow until the value on the Before box comes to zero (0). Notice that this did not change your paragraph spacing.
8. Do the same thing in the **After** window. Change the value in the After box to zero (0).

9. Continue editing your CV. Remove the paragraph Line spacing and Spacing as you like to improve the appearance of your CV.
  10. Save your work on your flashdrive. Use any filename you want.
  11. Print your work.
- 

Thank you for completing this activity. Now, you may go to the end of this lesson to check your answers. Make sure you do the necessary corrections before moving on to the next part of this lesson.

---

### Summary

You have come to the end of Lesson 9. In this lesson you have learned to adjust margins, changed paper size and orientation. You have also applied line spacing to your paragraphs.

---

**NOW DO PRACTICE EXERCISE 9 ON THE NEXT PAGE**

## Practice Exercise 9

**A. Identify and name the icons numbered 1-7 in the spaces provided below.**

- |          |          |
|----------|----------|
| 1. _____ | 5. _____ |
| 2. _____ | 6. _____ |
| 3. _____ | 7. _____ |
| 4. _____ |          |

**B. List what is asked for in the following items.**

1. Name the different types of Line spacing available in MS-Word.
 

|          |          |
|----------|----------|
| a. _____ | d. _____ |
| b. _____ | e. _____ |
| c. _____ | f. _____ |
2. Name the two types of paragraph spacing available in MS-Word.
 

|          |          |
|----------|----------|
| a. _____ | b. _____ |
|----------|----------|

**C. Create this month's calendar. Replace and use the current month as your pattern when creating your calendar.**

1. Create your calendar. Choose your font, font size and style.
2. Use tab stops to centre the tab stops so that the text will be at the center of each day.
3. Type your Name on the document.
4. Save your work as 2012 Calendar on your flashdrive and print.

**CHECK YOUR WORK. ANSWERS ARE AT THE END OF TOPIC 2.**

**Answers to Activity 1**

---

Before you begin this activity make sure that the CV draft 3 document is open.

1. Open Page Setup dialogue box. Use the illustrations below to set your:
  - A. Margins
  - B. Orientation
  - C. Paper size

**Answers to Activity 2**

---

1. Use the example on the next page as a guide. Your work will look different from the example given.
2. The illustration below displays a CV after spacing between paragraphs were removed.

|                                                                                                                                   |                         |

| Babaroko Primary School<br>P.O. Box 9684 Boroko NCD                                                                               | SY 2003 - 2014          |
| <b>Work Experience</b>                                                                                                            |                         |
| Boroko Food<br>Cashier                                                                                                            | December – January 2012 |
| <b>Achievements</b>                                                                                                               |                         |
| List academic and other achievements<br>Activities                                                                                |                         |

3. Look at your document and see where you could apply the skills you learned in Lesson 9.
4. Try to use all the skills in formatting your document page that you have learned from the previous lessons and apply these to your document.

## Lesson 10: Changing Case and Justifying Text

---

Welcome to Lesson 10 of Unit 2. In Lesson 9 you learned how to adjust margins, change paper size, orientation. You have also applied line spacing to your paragraphs. In this lesson you shall learn how to change text case and justify text.

### Your Aims:

- differentiate between changing case to justifying text
  - demonstrate how to change case
  - demonstrate how to justify text
  - identifies the importance of changing case and justifying text
- 

### Paragraph Alignment

Once you begin typing, observe how your text always begins from the left side of your screen. This is the default Alignment of paragraphs. Different alignments can be used for a different purpose.

You can also use the keyboard to change paragraph alignments. Pressing and holding the CTRL key plus the letter equivalent will align the paragraphs.

Let us create our paragraphs and apply different alignment to suit its intended use.

### There are four types of paragraph alignment:

1. **Left (Ctrl + L)** – aligns text against the left margin of the page, leaving the right uneven. This is the most commonly used paragraph alignment type and therefore the default setting in MS Word.
2. **Centre (Ctrl + E)** – centres each line of text between left and right margins. Center alignment is used mostly for headings or centering graphics on a page.
3. **Right (Ctrl + R)** – aligns text against right margin, leaving left margin uneven. Use right alignment when you want text to line up on the outside of a page, such as a chapter title or a header.
4. **Justified (Ctrl + J)** – aligns text against the right and left margins and evenly spaces out the letters. Newspapers commonly use justified alignment so the columns of text are even.

### Setting Paragraph Alignment

Paragraph alignment defines how text is positioned in a document. This can be used together with indentions.

1. Open the Nactus Kunan document.
2. Select the title **New gecko species found in PNG**.
3. Click the Align centre icon.
4. Apply the following alignment to the paragraphs as shown in the table below.

| Paragraph       | Alignment |
|-----------------|-----------|
| Paragraph 1 - 3 | Center    |
| Paragraph 4 - 6 | Justify   |
| Paragraph 7 - 9 | Right     |

5. Use the example below as a guide.

**New gecko species found in PNG**

A new species of gecko was discovered in Papua New Guinea, the US Geological Survey announced this week.

The gecko is adorned like a bumblebee, researchers say, with black-and-gold bands that help it to camouflage itself on the tropical forest floor

It measures about 13 cm from head to tail, according to USGS herpetologist Robert Fisher,

"We have officially name it Nactus Kunan from its striking colour pattern – kunan means bumblebee in the local Nali language," Fisher said

"It belong to a genus of slender –toed-geckos, which means these guys do not have the padded, wall-climbing toes like the common house gecko."

Fisher found two of the bumblebee geckos in 2010 and analysed their genetics to show that the lizard were indeed new and distinctive species.

The research was done in concert with scientists at the Papua New Guinea National Museum.

It has been an exciting year for the lizards and amphibians in Papua New Guinea.

Earlier this year, researchers discovered a tiny frog in Papua New Guinea, which is the smallest known vertebrate species on Earth.

6. Do not forget to type your Name on the document.
7. Save on your flashdrive the document as **Nactus Kunan Alignment**.

8. Print your work.

### Activity 1: Changing Paragraph Alignment of Text

1. Open your CV document. This is the last document you edited in Lesson 9.
2. Apply Formatting styles to your document. Use the table below to format your document.

|           | FONT TYPE    | FONT SIZE | FONT STYLE      | FONT COLOR |
|-----------|--------------|-----------|-----------------|------------|
| Name      | Book Antigua | 20        | Bold            | Blue       |
| Address   | Book Antigua | 16 pts.   | Bold            | Blue       |
| Sub-title | Arial        | 14 pts.   | Bold, Underline | Red        |
| Body      | Arial Narrow | 12 pts.   | Regular         | Black      |

3. Select your name and address.
4. Click the Paragraph Dialogue box icon. The dialogue box appears.

5. In the Alignment option, click the down arrow.
6. Choose **Centered** and click **OK**.

7. Your text will move to the center of your document.

8. Select the rest of the document.
9. Repeat steps 4 and 5.
10. In the Alignment option, choose **Justified**.
11. Click **OK**.
12. Position your cursor on any part of the word Education.
13. Choose **Center** from the Paragraph dialogue box.
14. Do the same thing for Work Experience, Activities, and Skills.
15. Save changes to your work on your flashdrive. You can also save a different copy of your CV document.
16. Print your work.

Thank you for completing this activity. Now, you may go to the end of this lesson to check your answers. Make sure you do the necessary corrections before moving on to the next part of this lesson.

---

### Change Case

Text written using a word processing program uses specific case or the arrangement of capital and small letters within words. There are five types of text used in Microsoft Word.

1. Sentence case – refers to the first letter of the word or paragraph as capital letter and the rest of the text are small letters.
2. Lowercase – refers to all letters of the word or paragraph as small letters.
3. Uppercase – means all letters of the word or paragraph is all in capital letters.
4. Capitalize Each Word – means the first letter of every word within a sentence is capitalised while the rest of the text in the word are small letters.
5. Toggle case – is the opposite of Capitalize Each Word. It makes the first letter of the word small letters while the rest of the word are capital letter. This allows you to switch between or alternate the case of text.

## Changing case of word text

1. Open MS word.
2. Create a blank document, type “papua new guinea”. Observe how the first letter of the word “papua” automatically changes to capital letter as soon as you press the space bar. This is because the default setting of MS Word is set to **Sentence Case**.

Papua new guinea

3. Select the phrase “Papua new guinea”.
4. Click the Change Case icon located in the Home ribbon. Select **lowercase**. Observe how the capital letter in “Papua” became small letter or lowercase.

papua new guinea

5. Make sure that the phrase is still selected. This time choose **UPPERCASE**. This will change the text to capital letters or uppercase.

PAPUA NEW GUINEA

6. This time choose **Capitalize Each Word** and observe how the first letter of each word is in capital letters while the remaining letters of each word are in small letter or lowercase.

Papua New Guinea

7. Now choose **TOGGLE cASE**. this will make the first letter of each word in small letter or lowercase and the rest of the text are in capital letters or uppercase.

pAPUA nEW gUINEA|

## Activity 2: Changing Case of Word Text

1. Open the CV document you saved in activity 1 of this lesson.
2. Check your work and try to apply Changing Case to your document. The instructions below are only some suggestions to what you can change in your document.

|                                  |                                |                         |
|----------------------------------|--------------------------------|-------------------------|
|                                  | <u>Micheal Smith</u>           | ← Uppercase             |
|                                  | 1234 Boroko                    |                         |
|                                  | National Capital District, PNG |                         |
|                                  | 323-5687                       |                         |
| lowercase →                      | <u>Micheal.smith@yahoo.com</u> |                         |
| <u>Education</u>                 |                                |                         |
| <u>Kilakila</u> Secondary School |                                | SY 2012 - 2015          |
| P.O. Box 3990 <u>Boroko</u> NCD  |                                |                         |
| <u>Babaroko</u> Primary School   |                                | SY 2003 - 2014          |
| P.O. Box 9684 <u>Boroko</u> NCD  |                                |                         |
|                                  | <u>Work Experience</u>         | ← Sentence case         |
| <u>Boroko Food</u>               |                                | December – January 2012 |

3. Save your work as **Final CV** on your flashdrive.

## Summary

You have come to the end of Lesson 10. In this lesson you have changed your paragraph alignment in a variety of ways to suit its intended purpose.

**NOW DO PRACTICE EXERCISE 10 ON THE NEXT PAGE**

## Practice Exercise 10

- A. Identify the keyboard shortcut keys used for the different paragraph alignment and the icons used for each alignment type.

| ALIGNMENT | SHORTCUT  | ICONS     |
|-----------|-----------|-----------|
| Justify   | (1) _____ | (5) _____ |
| Centre    | (2) _____ | (6) _____ |
| Left      | (3) _____ | (7) _____ |
| Right     | (4) _____ | (8) _____ |

- B. Identify what type of Alignment was used for the document below by writing it next to the number on the next page.

- |          |          |
|----------|----------|
| 1. _____ | 5. _____ |
| 2. _____ | 6. _____ |
| 3. _____ | 7. _____ |
| 4. _____ |          |

---

**C. Perform the following task**

1. Open the MS Word, create a new document and type the text in the box below.

**FUNDRAISING ACTIVITIES**

The SAIVIM PIKININI ORGANIZATION aims to help under privileged children by conducting a weekly feeding program. As part of its program you are cordially requested to participate in the upcoming event

WHAT: Charity Fundraising

WHY: To raise funds for the feeding program

WHEN: September 17, 2012 12 pm onwards

WHERE: Ella Beach

You may help by donating cash or bring any of the following:

**PERISHABLE NON-PERISHABLE MEDICINES**

Rice Clothes Antibiotics

Canned Goods Mattresses Paracetamol

Flour Old Books Vitamins

Sugar Soap

Coffee & Tea Blankets

Vegetables Mosquito net

Bread

Any contribution, big or small, will be highly appreciated.

Respectfully yours,

Ms. Lyn James

Director

2. For each section, use the specification indicated inside the box to format the font, font size, font style, line spacing and indentation of each paragraph.

## FUNDRAISING ACTIVITIES

**Font:** Book Antigua, Bold, 20 pts.  
**Alignment:** Centre

|------------------------------------------------------------|
| <b>CHECK YOUR WORK. ANSWERS ARE AT THE END OF TOPIC 2.</b> |
|------------------------------------------------------------|

## Answers to Activity 1

---

1. Formatting your CV using indentions and alignment helps improve the appearance of your document.
2. You may use the example here as guide when formatting and applying alignment to your document.

|                                                                                                                                                                              |                                |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|
| <p><b><u>Micheal Smith</u></b><br/> <b><u>1234 Boroko</u></b><br/> <b>National Capital District, PNG</b><br/> <b>323-5687</b><br/> <b><u>Micheal.smith@yahoo.com</u></b></p> |                                |
| <p><b><u>Education</u></b></p>                                                                                                                                               |                                |
| <p><u>Kilakila</u> Secondary School<br/> P.O. Box 3990 <u>Boroko</u> NCD</p>                                                                                                 | <p>SY 2012 - 2015</p>          |
| <p><u>Babaroko</u> Primary School<br/> P.O. Box 9684 <u>Boroko</u> NCD</p>                                                                                                   | <p>SY 2003 - 2014</p>          |
| <p><b><u>Work Experience</u></b></p>                                                                                                                                         |                                |
| <p><u>Boroko</u> Food<br/> <u>Cooking</u></p>                                                                                                                                | <p>December – January 2012</p> |

## Answers to Activity 2

---

1. The ideas presented below are just suggestions. You can change the Case of your text to create your own style and change the appearance of your document.

|                                                                                                                                                                       |                                |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|
| <p><b>MICHEAL SMITH</b><br/> <b>1234 <u>Boroko</u></b><br/> <b>National Capital District, NCD</b><br/> <b>323-5687</b><br/> <b><u>micheal.smith@yahoo.com</u></b></p> |                                |
| <p><b><u>Education</u></b></p>                                                                                                                                        |                                |
| <p><u>Kila Kila</u> Secondary School<br/> P.O. Box 3990 <u>Boroko</u> NCD</p>                                                                                         | <p>SY 2012 – 2015</p>          |
| <p><u>Bavaroko</u> Primary School<br/> P.O. Box 9684 <u>Boroko</u> NCD</p>                                                                                            | <p>SY 2013 - 2014</p>          |
| <p><b><u>Work experience</u></b></p>                                                                                                                                  |                                |
| <p><u>Boroko</u> Food</p>                                                                                                                                             | <p>December – January 2012</p> |

## Lesson 11: Selecting Page Orientation

Welcome to Lesson 11 of Topic 2. In Lesson 10 you have how to change your paragraph alignment in a variety of ways to suit your purpose. In this lesson, you will learn how to change the Page setup options of an existing document and see how it affects the appearance of your document.

### Your Aims:

- define and determine page orientation
- use appropriate page orientation
- identify the importance of using the appropriate page orientation

### Page Orientation

Orientation refers to the appearance of the page. There are two types of page orientations are called portrait and landscape. Portrait means the paper is vertically oriented and Landscape means the paper is on its horizontal side.

Some documents may require more space to fully display its content than others. Let us change the page layout of a document. Follow the steps on how to change the page layout of a document.

1. Open the Calendar document.
2. Change the Margins to **Wide**. Pay close attention to the vertical and horizontal ruler. Notice how your document changes appearance. Observe how the margins were set on the ruler. The left and right margins are wider than the top and bottom margins.

3. Change the Orientation to **Landscape**. Observe how the left and right margins are wider than the top and bottom.

As you set the margins to an existing document, the top, bottom, left and right margins retained their original margins. Don't worry if your margin changed. You can always change the margins again.

4. Close the document. Do not save changes to your document.

### Activity 1: Change the Page Set-up of a Document

1. Draw a margin in an **A4** size paper.
2. Make sure that the orientation is **Portrait**.
3. Make the Top and Bottom margin 2 inches and the Left and Right margin to 1 inch.
4. Hold the paper up and rotate the paper to Landscape. Observe how the margins are set the same although the Orientation was changed. This is what happens to the margins of your document when you changed its **Orientation**.

Thank you for completing this activity. Now, you may go to the end of this lesson to check your answers. So next time you change the Orientation, make sure to check your Margins as well.

---

### Summary

You have come to the end of Lesson 11. In this lesson you have learned about the different types of page orientation and what page margins are. You also have learned that margins are set differently once the orientation is changed.

---

**NOW DO PRACTICE EXERCISE 11 ON THE NEXT PAGE**

**Practice Exercise 11**

---

**A. Answer the following questions.**

1. Explain the importance of changing Margins of your document. (5 pts).

---

---

---

---

---

2. When is the best time to use a Landscape over Portrait orientation?

(5 pts)

---

---

---

---

---

3. Does changing the Paper Size have any effect on the appearance of your document? Explain your answer. (5 pts)

---

---

---

---

---

---

**B. Let us create a simple birthday card. Make sure to change the Page Setup of your document before you type your text.**

1. Open a new word document.
2. Change the Page Layout of your document as follows:

Margins : .5 inch top and bottom and 1 inch left and right

Orientation : Landscape

Size : A4

July 25, 2012

*On your very special day let  
me express my appreciation for  
all the love and care you have  
given me.*

*And for the best Mom in the world.*

*A thousand  
|“Hugs and Kisses”  
Especially for you!!!*

Your loving child,  
[Write your name]

10. Save your work as **Birthday Card** in your flashdrive.
11. Print your document. Make sure to use the back of your paper when printing the second page.

## Lesson 12: Setting Tabs, Headers, Footers & Pagination

Welcome to Lesson 12 of Unit 2. In Lesson 11 you have learned about the different types of orientations and page margins. In this lesson you will learn all about Tabs, Headers, Footers and Pagination.

### Your Aims:

- identify and define tabs, headers, footers and pagination.
- set tabs, headers, footers and pagination.
- recognize the importance of setting tabs, headers, footers and pagination

### Tabular Stops

A **Tabular Stop** or **Tab** is used as guide where the placement of text within the document. Tabs can be set using the Tab selector.

To better understand on how to set tabs, try out this short exercise.

1. Open an new Word document and type the following information:

EDUCATIONAL BACKGROUND

University of Papua New Guinea 2011- Present

Kila Kila Secondary School 2007 – 2010

Bavaroko Primary School 1999 – 2006

2. Locate the Tab selector located at the left side of the vertical ruler.
3. Move your mouse pointer to the tab selector and see which tab is active. By default the tab selector is always set to left. 

4. Click the tab selector repeatedly and watch how the symbol on the selector changes. Continue clicking until it returns to the default selector. 

5. In the paragraph ribbon, click the **Show/Hide** icon. Take note of the symbols that appear on your document. The symbols that appear on your screen will not appear on your document when it is printed.

6. Position the cursor at the beginning of the line University of Papua New Guinea.
7. Press the Tab key located on the keyboard. Notice that your text moved inside your document. Do the same thing for the rest of the schools.
8. Select all three schools. Make sure that the tab selector is set to **Left Tab**.

9. Point your mouse to ruler and locate 2 inches or 2.54 cm (you can also estimate). Click the mouse. Look at your ruler and note that the **Left tab** symbol is placed where you clicked your mouse.
10. Press the tab key for each school. Notice that the text line moves to where the Left tab symbol is placed.

11. To remove the tab, click, hold and drag the Left tab symbol (L) toward your document.

12. Change your tab selector symbol to **Right tab** by clicking on the tab selection control until you see the symbol .

13. Select the three schools. Click the mouse 1 cm before the end of the margin. Observe how the date is moved where you position the tabular stop.
14. If your text does not move, position your cursor before 2011 and press the tab key from the keyboard. Notice that the word was aligned at the tab stop that you set. Do the same for the rest of the dates. Your work should look like the example below.

15. Click the tab selector until the symbol turns to the Center Tab.

16. Position your cursor to the beginning of the word **Education**. Press the tab key. The phrase Education background was divided left and right from where the tab selector was placed.

17. Your work should look like the example below.

18. Keep your work open for the next section.

### Removing Tab Selector

Sometimes you may accidentally place a tab selector on the ruler. To remove such Tabs, follow these steps:

1. Position the mouse over the Center tab selector symbol on the horizontal ruler.
2. Click and hold down the mouse button and drag the mouse button downward where your work is then release the mouse button.
3. The tab selector is now removed. You will note that Educational Background has aligned itself to the left.
4. Click the Undo button to reverse the changes you made above.
5. Save your work as Tab Practice.

### Activity 1: Apply tabs to document using paragraph dialogue box.

1. Type the following text.

#### TOP 10 REASONS WHY TREES ARE VALUABLE AND IMPORTANT

Trees are important, valuable and necessary for our very existence. It's not too hard to believe that, without trees we humans can not exist on this beautiful planet.

TREES PRODUCE OXYGEN

Let's face it; we would not exist as we do if there were no trees. A mature leafy tree produces as much oxygen in a season as 10 people inhale a year. What many people don't realise is forests also act as giant filters that clean the air we breathe, every second.

#### TREES CLEAN THE SOIL

The term phytoremediation is a fancy word for the absorption of dangerous chemical and other pollutants that have entered the soil. Trees can either store harmful pollutants or actually change the pollutant into less harmful forms. Trees filter sewage and farm chemicals, reduce the effects of animal wastes, clean roadside spills and clean water runoff into streams.

#### TREES CONTROL NOISE POLLUTION

Trees muffle urban noise almost as effectively as stone walls. Trees planted at selected points in a neighbourhood or around your house, can prevent major noises from freeways and airports.

#### TREES SLOW STORM WATER RUNOFF

Flash flooding can be dramatically reduced by a forest or by planting trees. One Colorado blue spruce, either planted or growing wild, can intercept more than 1000 gallons of water annually when fully grown. Underground water-holding aquifers are recharged with this slowing down of water runoff.

#### TREES ARE CARBON SINKS

To produce its food, a tree absorbs and locks away carbon dioxide in the wood, roots and leaves. Carbon dioxide is a global warming suspect. A forest is a carbon storage area or a "sink" that can lock up as much carbon as it produces. This locking-up process "stores" carbon as wood and not as an available "greenhouse" gas.

#### TREES CLEAN THE AIR

Trees help cleanse the air by intercepting airborne particles, reducing heat, and absorbing such pollutants as carbon monoxide, sulphur dioxide and nitrogen dioxide. Trees remove this air pollution by lowering air temperature, through respirations, and by retaining particles.

#### TREES SHADE AND COOL

Shade resulting in cooling is what a tree is best known for. Shade from trees reduces the need for air conditioning in summer. In winter, trees break the force of winter winds, lowering heating costs. Studies have shown that parts of cities without cooling shade from trees can literally be "heat islands" with temperatures as much as 12 degrees Fahrenheit higher than surrounding areas.

#### TREES ACT AS WINDBREAKS

During windy and cold seasons, trees located on the windward side act as windbreaks. A windbreak can lower home heating bills up to 30% and have a significant effect on reducing snow drifts. A reduction in wind can also reduce the drying effects on soil and vegetation behind the windbreak and help keep precious topsoil in place.

### TREES FIGHT SOIL EROSION

Erosion control has always started with tree and grass planting projects. Tree roots bind the soil and their leaves break the force of wind and rain on soil. Trees fight soil erosion, conserve rainwater and reduce water runoff and sediment deposit after storms.

### TREES INCREASE PROPERTY VALUES

Real estate values increases when trees beautify a property or neighbourhood. Trees can increase the property value of your home by 15% or more.

2. Save your work as **Tree**.
3. From the Ribbon, click **View** and **Zoom**. The Zoom dialogue box will appear.
4. Click 200%. You can now see your text clearly.

5. Position your cursor anywhere in your document.
6. Press and hold down the **Ctrl** icon on your keyboard and press the letter **A**. This will highlight the entire paragraph.
7. While the paragraphs remain highlighted, format your paragraph as follows:

Font size: 6 pts

Alignment: Center (Title to Paragraph 7, 9 & 10)

Justified (Paragraph 8)

Line Spacing: Single

Spacing: 0 (Before and After)

Indentation: Use the table below to apply indentions.

8. Select the paragraphs indicated in the table below and apply the indentation indicated.

| Paragraphs                        |    | Left | Right |
|-----------------------------------|----|------|-------|
| Title                             |    | 2.8" | 2.8"  |
| Introduction                      |    | 2.4" | 2.4"  |
| Paragraph 1 (Header & Paragraph)  |    | 2.3" | 2.3"  |
| Paragraph 2 (Header & Paragraph)  |    | 2"   | 2"    |
| Paragraph 3 (Header & Paragraph)  |    | 2"   | 2"    |
| Paragraph 4 (Paragraph only)      |    | .5"  | 1.5"  |
| Paragraph 5 (Paragraph only)      |    | 1.5" | 5"    |
| Paragraph 6 (Paragraph only)      |    | 1"   | 1"    |
| Paragraph 7 (Paragraph only)      |    | 1.5" | 1.5"  |
| Paragraph 8 (Paragraph only)      | 3" | 3"   |       |
| Paragraph 9 (Header & Paragraph)  | 0  | 0    |       |
| Paragraph 10 (Header & Paragraph) | 0  | 0    |       |

9. Write your Name on the document.
10. Click View and choose Zoom.
11. In the Percent option, click the down arrow until it becomes **60%**.
12. Can you see that your text looks like a shape of a tree?
13. Save your edited work as **Word Tree**.

### Using the Header, Footer And Pagination

When creating a document with more than one page, it is best to add a header and/or footer. The title of document, author, time and page numbers are the most commonly used headers and footers. The content of the header and footer can be used interchangeably. Text located on top of the page are referred to as **Header** and information located at the bottom of the page is called a **Footer**.

If you look at your document, you will notice that the white area in your ruler represents the area where you can type in your document. Headers and footers are located in the gray area of your document.

### Insert Header, Footer and Pagination

Adding header and/or footer to documents with multiple pages makes it easier to identify the type of document and page numbers. Headers and footers are located in

the margin's area. Header is located in the top margin and Footer can be found in the bottom margin. Follow the steps on how to apply header and footer.

1. Open your **Word Tree** document. Return your document view to 100% if need be.
2. Click the Insert tab and locate the Header and Footer group in the ribbon.

There are many available formats for Header and Footer. For this exercise we will make it simple.

3. Click Header and choose Blank. Observe how Design tab was added containing Header and Footer formats.
4. Observe how the Header appears in the margins area. Type your name inside the Type Text box.

5. Scroll down to the bottom part of your document. Observe how the Footer is also displayed.
6. Click your mouse in the Footer area to place the cursor inside. Type the name of the Document. You can also change the format of the text you place inside the Header or Footer.
7. Insert a Right tab stop at the right side of your footer.
8. Click Page number and choose, Current position > Plain number.

9. Click Close Header and Footer or click anywhere in the document area.

10. Position your cursor to the last part of the paragraph. Press enter until you create a two page document.
11. Observe how the header and footer you placed on the first page is also present in the the second page. Notice also that the page number automatically changes from page 1 to page 2.

12. Save your work as **Tree Header**.

### Deleting Header, Footer and/or Pagination

There are instances where we need to remove or replace the header and the footer placed in our document. Follow the steps on how to remove the header and/or footer.

1. Double click the **Footer** of your document.
2. Highlight the page number and press **Delete**.
3. Insert the Page number again. Go the the Header section.
4. Click the **Pages Number** and choose **Top of Page**.
5. Scroll down to display the other page options. Choose the **Accent Bar 2**.

Note how the Header previously placed there was removed.

- Click anywhere outside of your footer or chose **Close Header and Footer** from the toolbar.

## Activity 2: Insert Header, Footer and Pagination in a Document

- Open Tree document you previously saved.
- Use the table below as guide to format your document.

|              | Fonts              | Alignment        | Line and Paragraph Spacing |
|--------------|--------------------|------------------|----------------------------|
| Title        | Use your own style | Centre alignment | 1.5pt Line Spacing         |
| Introduction |                    | Justified        |                            |
| Sub-topic    |                    |                  |                            |
| Paragraphs   |                    |                  |                            |

- You may use the example below as a guide.

- Select the first sub-topic and apply font, font size, style, as given in the table.
- While the text is still highlighted **double click** the Format Painter in the Home ribbon. Double-clicking format painter will allow you to use the same format for all the sub-topics in your document.

6. Highlight the second sub-topic. Notice that the text changes its format like that of the first sub-topic.
7. Repeat Step 6 and apply to the rest of the sub-topics in your document

### Applying the Header and Footer

1. Position your mouse pointer anywhere on the Top Margin and double-click your mouse. Notice that a broken line separates the body of your document from the Header area, allowing you to type the Header section.
2. Your cursor will be present in the Header area. Type “Top 10 Reasons Why Trees Are Valuable and Important”.

3. Close the Header by clicking your cursor anywhere in your **text area**. The broken lines separating the header from the text area is gone and the text area is ready and active.

If you **Scroll down** to the next page, you will note that the text you typed appears in the header section of the next page.

4. You may also click the **View** Menu tab and select **Two Pages** to display both pages of the document in one window.

5. Click 100% to return to Normal view.
6. Scroll down to Page 2 until you reach the end of that page.
7. Double click on the margin at the bottom of your document. The Header and Footer toolbar will appear.

8. Click **Page Number** and select **Bottom of Page**.
9. Choose Plain Number 1. Note how the number **2** automatically appears on your footer. Page numbers are automatically placed in Page 1 even if you place your footer in Page 2.

10. On the Header and Footer toolbar, click **Close Header and Footer**.

11. Print your work then save your work as **Reasons Why Trees Are Importance**.

Thank you for completing this activity. Do the task again without opening your handbook. Compare your work with the output provided at the end of this lesson.

## SUMMARY

You have come to the end of Lesson 12. In this lesson you have learned different other ways of setting the tabs, headers and indentions. You may also refer to Lesson 8 for other ways of setting up indentions.

---

|                                                     |
|-----------------------------------------------------|
| <b>NOW DO PRACTICE EXERCISE 12 ON THE NEXT PAGE</b> |
|-----------------------------------------------------|

**Practice Exercise 12****A. Write TRUE if the answer is True and FALSE if the answer is False.**

1. Header and Footer can be found in the Insert option. \_\_\_\_\_
2. Changing indentions using the Paragraph dialogue box is more accurate than using the tab stops. \_\_\_\_\_
3. You have to close the Header before you could add your Footer. \_\_\_\_\_.
4. Indentions can only be adjusted from the left side of the margin. \_\_\_\_\_.
5. Page numbers can be placed only on the Footer. \_\_\_\_\_
6. Double-clicking the Top margin allows you to add your Header. \_\_\_\_\_.
7. You can use special indents even if you already changed the left indents. \_\_\_\_\_.
8. Page numbers are automatically placed in sequence in your documents. \_\_\_\_\_.
9. You can choose the Header and Footer style from the View option. \_\_\_\_\_
10. Indentions with negative values moves the indentions to the margins. \_\_\_\_\_

**B. Name icons 1-5**

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_

**C. Apply indentions to the document.**

1. Open Steve Job Story 1 and add the following text.

**THE STORY OF DEATH**

Steve said that he asks himself daily: “If today were the last day of my life, would I want to do what I am about to do today?” Whenever the answer has been “No” for too many days in a row, Steve would act to change something. The thought that he would die soon helped him make big choices in his life.

All external expectation, all pride, all fear of embarrassment or failure – these things just fall away in the face of death, leaving only what is truly important. Remembering that you are going to die is the best way to avoid the trap of thinking you have something to lose. You are already naked. There is no reason not to follow your heart,” he said.

About a year ago, Steve was diagnosed with an incurable cancer of the pancreas and was told he would live no longer than three to six months. He has a biopsy, and it turned out that he had a very rare form of pancreatic cancer that is curable with surgery, which he had. Steve says: “No one wants to die. Even people who want to go to heaven don’t want to die to get there. And yet death is the destination we all share. No one has even escaped it... Death is Life’s change agent. It clears out the old to make way for the new.

“Right now the new is you, but someday not too long from now, you will gradually become the old and be cleared away. Your time is limited, so don’t waste it living someone else’s life. Don’t let the noise of other’s opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They say somehow, you already know what you truly want to become.”

2. Use the tabular stops to change the indentions of the paragraph. Be sure to use the ruler as guide when changing the indentions.
3. You may also change indentions using the paragraph dialogue box. Use the table below to change your indentions.

|                                                                                         |                                                           |
|-----------------------------------------------------------------------------------------|-----------------------------------------------------------|
| <b>Paragraph 1</b><br>Left: 0 inch<br>Right: 0.5 inch<br>Special: 0.5 inch (First line) | <b>Paragraph 3</b><br>Left: 1 inch<br>Right: 1 inch       |
| <b>Paragraph 2</b><br>Left: 0 inch<br>Right: 0 inch                                     | <b>Paragraph 4</b><br>Left: -0.5 inch<br>Right: -0.5 inch |

Special: 1 inch (Hanging)

Special: 1 inch (First line)

4. Click **Insert** from the ribbon and choose **Header**.
5. Scroll down and click **Titles**.
6. Click **[Type the document title]**. Notice that it is highlighted and selected.
7. Type **S** and notice that entire word was replaced by that letter. Continue and type **“teve Job Story”** as your Header.
8. Click **[Year]** and choose Today.

9. Scroll down to the bottom of your document. Notice that the Footer is also active and ready for typing.
10. You could start typing or you may choose a different Footer. Let's choose a style for our footer.
11. Click **Footer** from the Ribbon scroll to find **Newsprint**.
12. Some text might immediately appear on you footer. Click and delete the text and replace with your own Name.
13. Save your work as **Steve Job Story 2**.
14. Print your work.

**CHECK YOUR WORK. ANSWERS ARE AT THE END OF TOPIC 2.**

## Answer to Activity 1

1. Your work should look like the example below.

## Answer to Activity 2

1. Your document will look different from the illustration given in the exercise.
2. All the pages of your document will have the same Header.
3. All the pages of your document will have Page Number as footer.

## Answers to Practice Exercises in Topic 2

### Practice Exercise 7

#### A.

- |      |       |
|------|-------|
| 1. a | 9. a  |
| 2. b | 10. c |
| 3. c | 11. b |
| 4. d | 12. a |
| 5. b | 13. b |
| 6. b | 14. a |
| 7. c | 15. a |
| 8. a |       |

#### B.

1. A document called REM sleep must be saved inside the Documents library.
2. A copy of REM sleep document must be saved inside your flashdrive.
3. Your printed work should look like the example below.

- C. Changing the font style and size of the fonts changes the appearance and give character to your document. It also adds physical appeal to your work.

### Practice Exercise 8

A.

1. Left tab
2. Decimal tab
3. Show/Hide
4. Right tab
5. Center tab
6. First line indent
7. Bar tab
8. Hanging indent

B.

1. First line indent
2. a. Left indent      b. Right indent
3. Hanging indent
4. Negative hanging indent
5. Right indent
6. No indents or zero (0) indent

**C.**

1. Your work should look like the example below.

2. Observe how the indentions were placed to the paragraphs by looking at the placement of the tabular stops.

### Practice Exercise 9

A.

1. Add space before paragraph
2. Orientation
3. Size
4. Landscape
5. Line and Paragraph Spacing
6. Margins
7. Portrait

B. Enumeration:

1. Different types of Line spacing
  - a. Single
  - b. 1.5 lines
  - c. Double
  - d. At least
  - e. Exactly
  - f. Multiple
2. Types of Spacing
  - g. Before
  - h. After

**C.** Use the example here as guide when your creating your document.

1. Indentions were used to create a uniform column for the date.
2. Line and Paragraph spacing were used to create distance between rows of the week.
3. Apply formats to your text. Change the font, font size and style.

### Practice Exercise 10

**A.** Identify the keyboard shortcut used for the different alignment and the icons used for each alignment.

- |             |      |
|-------------|------|
| 1. Ctrl + J | 5. D |
| 2. Ctrl + E | 6. B |
| 3. Ctrl + L | 7. A |
| 4. Ctrl + R | 8. C |

**B.**

1. Centre
2. Left
3. Right
4. Centre
5. Justified

6. Justified
  7. Left
- C. Your work should look like the example below.

| <b>FUNDRAISING ACTIVITIES</b>                                                                                                                                                                                         |                                          |                    |

| Rice                                                                                                                                                                                                                  | Clothes                                  | Antibiotics        |
| Canned goods                                                                                                                                                                                                          | Mattresses                               | <u>Paracetamol</u> |
| Flour                                                                                                                                                                                                                 | Old Books                                | Vitamins           |
| Sugar                                                                                                                                                                                                                 | Soap                                     |                    |
| Coffee & Tea                                                                                                                                                                                                          | Blankets                                 |                    |
| Vegetables                                                                                                                                                                                                            | Mosquito net                             |                    |
| Bread                                                                                                                                                                                                                 |                                          |                    |
| <p><i>Any contribution, bit or small, will be highly appreciated.</i></p>                                                                                                                                             |                                          |                    |
| <p>Respectfully yours,</p>                                                                                                                                                                                            |                                          |                    |
| <p>Ms. Lyn James<br/>Director</p>                                                                                                                                                                                     |                                          |                    |

## Practice Exercise 11

### A.

1. Explain the importance of changing Margins of your document. (5 pts)

Changing margins improves the appearance of your document. Some documents require specific margins which is sometimes required by the teacher for different purpose.

2. When will be the best time to use a Landscape over Portrait orientation. (5 pts)

Portrait orientation is best used when writing documents that require written text. Landcape on the other hand is used for documents containg tables that require large space for display.

3. Does changing the Paper Size have any effect on the appearance of your document. Explain your answer. (5 pts)

Yes. The size of the paper directly affects the appearance of text. The bigger the paper used, the more text it could contain.

**B.**

1. Observe how your document looks like after you completed your exercise. Make sure that your fonts will not go beyond the middle of your paper.
2. Change font size if your text goes beyond the other half of your paper.
3. Your work will not look exactly like the example here but you could use the example below as guide when creating your document.

|                                                                                         |                                                                                                                                                                                                                                                                                  |

|                 |      |
|-----------------|------|
| Steve Job Story | 2013 |
|-----------------|------|

**CONNECTING THE DOTS**

*Steve Jobs dropped out of college. He was not interested in the formal classes of the expensive university his parents had sent him to. He didn't want to continue spending all the money his parents had saved their entire life.*

*So he took optional courses. When he was the beautiful calligraphy posters on his campus, he joined a calligraphy class. He learned about serif and sans serif typefaces, about varying the amount of space between different letter combinations, about what makes great typography great.*

*Ten years later, when he was designing the first Macintosh computer, Steve's calligraphy lessons came back to him. Had he never taken that single course in college, then Mac would not be what it is today.*

*He said: "You can't connect the dots looking forward; you can only connect them looking backwards. So you have to trust that the dots will somehow connect in your future. You have to trust in something – your gut, destiny, life, karma. This approach has never let me down, and it has made all the difference in my life."*

**THE STORY OF DEATH**

*Steve said that he asks himself daily: "If today were the last day of my life, would I want to do what I am about to do today?" Whenever the answer has been "No" for too many days in a row, Steve would act to change something. The thought that he would die soon helped him make big choices in his life.*

*All external expectation, all pride, all fear of embarrassment or failure – these things just fall away in the face of death, leaving only what is truly important. Remembering that you are going to die is the best way to avoid the trap of thinking you have something to lose. You are already naked. There is no reason not to follow your heart," he said.*

*About a year ago, Steve was diagnosed with an incurable cancer of the pancreas and was told he would live no longer than three to six months. He has a biopsy, and it turned out that he had a very rare form of pancreatic cancer that is curable with surgery, which he had. Steve says: "No one wants to die. Even people who want to go to heaven don't want to die to get there. And yet death is the destination we all share. No one has even escaped it... Death is Life's change agent. It clears out the old to make way for the new.*

*"Right now the new is you, but someday not too long from now, you will gradually become the old and be cleared away. Your time is limited, so don't waste it living someone else's life. Don't let the noise of other's opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They say somehow, you already know what you truly want to become."*

1

End of Topic 2

Now Do Exercise 2 in Assignment Book 2 Then Go to Topic 3.

## **TOPIC 3**

### **EDITING TEXT AND DESKTOP PUBLISHING**

|                   |                                                    |
|-------------------|----------------------------------------------------|
| <b>Lesson 13:</b> | <b>Changing Font Style and Size</b>                |
| <b>Lesson 14:</b> | <b>Cutting, Copying, Pasting and Deleting Text</b> |
| <b>Lesson 15:</b> | <b>Using Spell Check and Thesaurus</b>             |
| <b>Lesson 16:</b> | <b>Using Find and Replace Feature</b>              |
| <b>Lesson 17:</b> | <b>Inserting and Sizing/Resizing Graphics</b>      |
| <b>Lesson 18:</b> | <b>Inserting Columns and Tables</b>                |

## TOPIC 3: EDITING TEXT AND DESKTOP PUBLISHING

---

In this topic you will learn about the different ways of applying formats to your documents. The Topic is designed to familiarise you with changing appearance of text and applying styles to paragraphs.

In this topic, you will study about the following:

**Lesson 13** change the appearance of text by applying font style to text.

**Lesson 14** apply cutting, copying and pasting to text to simplify document editing.

**Lesson 15** perform spell check and thesaurus to detect and correct common mistakes in typing.

**Lesson 16** use find and replace to easily locate and change words in the document.

**Lesson 17** insert graphics to documents and change its physical appearance.

**Lesson 18** create and edit table in documents.

By the end of Topic 3, you should be able to use word processing applications for specific tasks, design, produce and evaluate appropriate word processing solutions to a range of problems and use ethical practices when dealing with information and computer technology

## Lesson 13: Changing Font Style and Size

Welcome to Lesson 13 of Unit 2. In the previous lessons of this unit you have typed, saved and printed your documents. However you might find that it still needs more changes. Lesson 13 teaches you how to apply font effects which will make your documents stand out and look better.

### Your Aims:

- identify the steps to change font style and size
- change font style and size appropriately

### Font Style

We have learned to change font type, font style and size to our text in Lesson 7. The illustration below shows the other Font features available on the menu. Move your mouse pointer to the option and read the description in the screen tip for each option.

The following are additional font styles you can use to format your text:

- Grow font
- Shrink font
- Change case
- Clear formatting
- Strikethrough
- Subscript
- Superscript
- Text effect
- Text highlight colour

Type the following text and let us put these effects to practical use!

### Save H2O

Water is one of the things we have that we always take for granted. Yet when we think about it we hardly take time to do anything to conserve these valuable resources. Using glass when brushing your teeth saves you hundreds almost K1,000 in a year. So next time you are using the faucet, close the tap and do your small share in saving the environment.

#### A. Grow and Shrink Font

The size of the fonts can increase or reduce using the **Grow and Shrink** font option. The computer will automatically increase or decrease the font size with a specific set of pattern. To change, use Grow and Shrink font.

1. Select the title of the document.
2. Select **Grow font** until your text reaches 48 points.

Grow font

3. The text is too big. Click **Shrink font** to reduce size to 28 points.

Shrink font

#### B. Text Effect

Sometimes, changing the font type and size of the text is not enough. There are additional formats available to improve the appearance of your text. To apply text effect to your text:

1. Make sure that the title is still highlighted.
2. Click the down arrow in the **Text Effects**. Choose any style to apply to your text.

3. Keep your work open for the next part.

**C. Superscript And Subscript**

Mathematical equations and formulae require special type of text format. Subscript and superscript solve the problem of writing formula and equations.

1. Highlight the number **2** from the symbol H2O.
2. Click **Superscript** and observe what it does to your number.
3. H<sub>2</sub>O is the correct symbol for water so you have to use **Subscript**

**D. Clear Formatting**

After putting formats to your text, you might decide to change the formats you have used. Sometimes it is easier to just start at the beginning rather than undoing all the changes you have applied one at a time. Clear formats solve this problem. Do the following to clear the formats:

1. Make sure that the title of your document is still selected.
2. Click **Clear Formatting**. This will remove any format styles you have applied to your text including font styles.

3. Click **Undo** button to return text to its original format.
4. Keep your work open for the next section.

**E. Strikethrough**

Using underline styles to text emphasises the word. Some words require a different type of line. A currency is usually represented by a letter and a line going through it. Let us represent Kina as a currency.

1. Highlight **K** of K1,000 and select **Strikethrough**.

- This will turn **K** into currency symbol.

- Some formats need 2 lines across the text. This is possible using **Double strikethrough**. Click the Font dialogue box icon. The dialogue box appears.
- Select **Double Strikethrough** and choose **OK**.

#### F. Text highlight colour

You use a highlighter or pen to mark a part of a document that catches your attention. The text highlight colour uses the same principle but you use the computer instead of using a highlighter. Follow the steps on how to text highlight text with a chosen colour.

- Highlight the last sentence of the paragraph.
- Click the down arrow in the **Text highlight colour** and choose any colour that you like.

Text highlight colour

- Let us remove the highlight by clicking **Clear formatting**. The highlight still remains because it only works with font formats.

4. Click the **Undo** button to return the text to its original format.
5. Make sure that the text is still selected.
6. Click the down arrow in the Text highlight colour and choose **No colour** to remove the highlight.
7. Type your Name.
8. Save your work as **Save Water**
9. Now print your work.

### Activity 1: Change font style and size.

1. Type the text in the box below. If you encounter any superscript in the paragraphs, just type the text as it is. You can edit your text later when you are ready to edit your work.

$$E = mc^2$$

This equation has become an icon, or a trade mark for science. It seems to be viewed in the same light as a company logo like Nike. Almost everyone recognises the formula  $E = mc^2$ . Some may know it having something to do with the famous scientist Albert Einstein, but have no idea what it actually means.

$E = mc^2$  is a mathematical formula that has something to do with mass and energy. It simply states that matter can be changed into energy.

E [energy] equals m [mass] times  $c^2$  [c stands for the speed of light.  $c^2$  means c times c, or the speed of light raised to the second power -- or c-squared.]

[Energy (in joules) = Mass (in kilograms) X the Speed of Light Squared (in meters squared per second squared)]

2. Highlight the title.
3. Click **Text Effects** and select any style you want. You can also change the font and size of the title according to your preference.
4. Highlight all four paragraphs and change the font, font size, and style of the text according to your preference. You may refer to Lesson 7 on how to format fonts.
5. Change the alignment of the title and the paragraphs. You may refer to Lesson 10 on how to change alignment.
6. Highlight “2” in the formula title and select “Superscript” to format it as a **Superscript**.

7. Highlight the formula title. Click **Text Highlight Colour** and select any colour to emphasize the  $E=mc^2$  formula.
8. Our formula does not look nice so let us clear our format using **Clear formatting**. This will remove any formatting styles you do not need. However this will erase only the format applied to your text and not the text highlight you have place.
9. Click **Undo** to return it to the previous format. Make sure that the title is still selected.
10. Click the Text Highlight Colour and choose **No Colour**.
11. Type your Name
12. Save your work as **Theory of Relativity**
13. Print your work.

---

Thank you for completing this activity. In this activity you have learned how to apply advance formatting to your text. Try to do the task again without opening your handbook. Compare your work with the output provided at the end of this lesson.

---

### Summary

You have come to the end of Lesson 13. In this lesson, you have learned to apply different formatting styles and techniques to your documents to enhance their appearances.

---

|-----------------------------------------------------|
| <b>NOW DO PRACTICE EXERCISE 13 ON THE NEXT PAGE</b> |
|-----------------------------------------------------|

## Practice Exercise 13

- A. Write the letter of the icons you will use to best perform the given activity.

1. Clear the formatting styles of the text. \_\_\_\_\_
2. Highlight parts of the text to make it look like it was marked with a highlighter pen. \_\_\_\_\_
3. Use this to make your text appear in Superscript. \_\_\_\_\_
4. Increase the font size. \_\_\_\_\_
5. Put a line across the text. \_\_\_\_\_
6. Change the text colour. \_\_\_\_\_
7. Adds visual effect to the text \_\_\_\_\_
8. Use these to make your text appear in Subscript. \_\_\_\_\_
9. Decrease the font size. \_\_\_\_\_
10. Change the case of your text to Upper or Lower case. \_\_\_\_\_

## B. Enumeration

Different types of Case (5 marks)

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_

- C. Complete the following exercise without using your course book as guide. The exercise is quite simple and should be easy to follow.

1. Type the following text as it is set.

**WORD PROBLEM**

Algebra word problems are very useful to solve real-life problems. When you take a real-world situation and translate it into math, you are actually 'expressing' it; hence the mathematical term 'expression'. Everything that is left of the equal sign is considered to be something you are expressing.

Everything to the right of the equal sign (or inequality) is yet another expression. Simply stated, an expression is a combination of numbers, variables (letters) and operations. Expressions have numerical value. Equations are sometimes confused with expressions. To keep these two terms separate, simply ask yourself if you can answer with a true/false. If so, you have an equation, not an expression which would have numerical value. When simplifying equations, one often drops expressions such as  $7-7$  that equal 0. Problem: If you multiply the square of a number  $n$  by 6 and then added 3 to the product, the sum is equal to 57. One of the expressions equals 57, which one is it?

Choices:     **a)**  $(6n)^2 3$      **b)**  $(n 3)^2$      **c)**  $6(n^2 3)$      **d)**  $6n^2 3$

Answer:     **d)**  $6n^2 3$

2. Increase or decrease the **font size** by typing the size directly in the font size window. This can also be achieved using the **Grow and Shrink** font icons
3. Change the font and font style of the text without using the default font of MS Word.
4. Change the alignment as needed.
5. Use **Indentions and Tabular stops** for the Choices
6. Emphasize the Problem, Choices and Answer by changing them to **UPPERCASE** using the **Change Case** icons.
7. Use **Superscript and Subscript** as needed.
8. Write your Name.
9. Save your work as **Problem Solving Skills**
10. Print your work.

---

**CHECK YOUR ANSWERS AT THE END OF TOPIC 3.**

**Answer to Activity 1**

---

1. Open documents library to make sure that your file is saved.
2. Below are suggestions to improve your document. Your work will look different from the example given below.
  - a. Apply text effect to the title.
  - b. Use Superscript or Subscript to your formulae.
  - c. Change the font, font size and style of your paragraphs.
  - d. Change the alignments of your text.
  - e. Change the line and paragraph spacing of your paragraphs.

$$E = mc^2$$

This equation has become an icon, or a trade mark for science, It seems to be viewed in the same light as a company logo like Nike. Almost everyone recognises the formula  $E = mc^2$ . Some may know it has something to do with the famous scientist Albert Einstein, but has no idea what it actually means.

$E = mc^2$  is a mathematical formula has something to do with mass and energy. It simply states that matter can be changed into energy.

E [energy] equals m [mass] times  $c^2$  [c stands for the speed of light.  $c^2$  means c times c, or the speed of light raised to the second power -- or c-squared.]

[Energy (in joules) = Mass (in kilograms) X The Speed of Light Squared (in meters squared per second squared)]

## Lesson 14: Cutting, Copying, Pasting and Deleting Text

Welcome to Lesson 14 of Unit 2. Lesson 13 taught you how to change font styles and size to enhance the appearance of your text. This lesson will introduce you the cut, copy, paste and delete text to edit the content of your document.

### Your Aims:

- define cut, copy, paste and delete.
- identify the steps on how to cut, copy, paste and delete text
- use cut, copy, paste and delete to edit text.
- identify the importance of cutting, copying, pasting & deleting text

### Cut, Copy and Paste

Text, files and other objects can be copied, cut and pasted to another document or directory. In this part of the lesson we will use cut, copy and paste to change the order and section of your document and move it within the same document and/or to another document.

You need to familiarise yourself with the following tools:

- Cut** - Allows you to physically move your selection (text, graphics and icons) from the original location and place it somewhere.
- Copy** - This command allows you to create another copy of your selection and create a copy in another place.
- Paste** – Paste the content of the the clipboard or the text you cut or copied.
- Clipboard** – Temporarily holds the text you cut or copied before it is pasted.

**A. Using the Cut command**

Follow the Steps on how to use **Cut** command.

1. Type the following text as it is set.

**The Water Cycle**

Nature is always moving water through the air and land, so that the water we use is constantly recycled. The water cycle includes these steps:

Collection or Percolation. Other water seeps down into the earth's natural underground reservoirs called aquifers.

Precipitation. Water falls from the clouds as rain, snow, sleet, or hail.

Runoff. Some water stays on the earth's surface and flows into rivers, lakes, reservoirs, etc.

Condensation. The vapour cools and turns into tiny water droplets that attach to each other and form clouds.

Evaporation. The sun heats water in rivers, lakes, and the ocean and turn it into vapour or steam, which then rises into the air.

Then the cycle begins again, as water from the earth's surface evaporates into the air.

2. Evaporation is the first step to Water cycle. Select the fifth paragraph.

~~Condensation. The vapor cools and turns into tiny water droplets that attach to each other and form clouds.~~

~~Evaporation. The sun heats water in rivers, lakes, and the ocean and turns it into vapor or steam, which then rises into the air.~~

Then the cycle begins again, as water from the earth's surface evaporates into the

3. In the Home ribbon click **Cut** icon. Your paragraph will be removed from your document to the clipboard.
4. Move your mouse pointer and place it in front of the second paragraph until the mouse pointer changes to insertion point (I).
5. Click on the left mouse button or the primary mouse button. The cursor will now appear in front of "C" of the second paragraph.

**The Water Cycle**

Nature is always moving water through the air and land, so that the water we use is constantly recycled. The water cycle includes these steps:

The cursor will be inserted in front of the second paragraph.

Collection or Percolation. Other water seeps down into the earth's natural underground reservoirs called aquifers.

6. Click the **Paste** icon in the Home ribbon. Your paragraph will now be located at the second paragraph.

~~constantly recycled. The water cycle includes these steps:~~

~~Evaporation. The sun heats water in rivers, lakes, and the ocean and turns it into vapor or steam, which then rises into the air.~~

~~Collection or Percolation. Other water seeps down into the earth's natural underground reservoirs called aquifers.~~

7. Adjust the space between the second and third paragraph. Do this by positioning the cursor at the end of the second paragraph or in front of the third paragraph and pressing the **Enter** key.
8. Your work should now look like the example below.

### The Water Cycle

Nature is always moving water through the air and land, so that the water we use is constantly recycled. The water cycle includes these steps:

Evaporation. The sun heats water in rivers, lakes, and the ocean and turns it into vapor or steam, which then rises into the air.

Collection or Percolation. Other water seeps down into the earth's natural underground reservoirs called aquifers.

9. Leave your work open for the next activities.

### Cutting and Pasting Using the Mouse

Follow the steps below to cut and paste using the mouse.

1. Highlight the fifth paragraph. While the text is still highlighted, move the mouse to any part of the selected text.
2. Click the right mouse button or the secondary mouse button. A context menu will appear on your screen.
3. Move the mouse and click **Cut**. Your paragraph is removed from your document to the clipboard.

Short cut menu displaying the cut and paste icons.

4. Position your mouse pointer in front of the third paragraph. Click the primary or left mouse button when the mouse pointer changes to insertion point.
5. Right click the mouse. The context menu will appear showing the three options to paste the text. You can use any of the three options given.

6. The paragraph is now inserted. Adjust the paragraph spacing between the second and third paragraph. Your work should look like the example below.

7. Leave your work open for the next exercise.

### Cutting and Pasting Using the Keyboard

Follow the steps below to cut and paste using the keyboard.

1. Locate the **Ctrl** key and the **X** key located on your keyboard.
2. Select the fourth paragraph.
3. Press the **Ctrl** key and do not release your finger from the keyboard until you have pressed the **X** key. Your paragraph will disappear if you did it correctly. Just try again until you successfully completed the task.

4. Position your cursor after the fourth paragraph.
5. Press the **Ctrl** key and do not release your finger from the keyboard until you have pressed the **V** key. Your paragraph will be inserted to its new location.

6. Write your Name on the document.
7. Save your work as **Water Cycle**

---

## B. Copy

The different steps you performed for Cutting and Pasting can also be used to Copy and Paste. But this time you will paste your copied text to another word document.

1. Open the **Water Cycle** document you created in the previous exercise.
2. Create a new document in MS Word. Use the steps you learned on creating new document in Lesson 1 of Topic 1. Notice that your task bar now contains two documents.

3. Click the **Water Cycle** document to make it the active document.
4. Highlight the title and click the **Copy** icon from Home ribbon.
5. From the task bar, click Document 1 to make it the active document.
6. Click the mouse in any part of the Document 1 and click **Paste** from the Home ribbon.
7. Do not close the document you are using as you will use it in the next exercise.

### Copying and pasting using the mouse

Follow the steps below to copy and paste using the mouse.

1. Highlight Paragraphs 1 - 3 of the Water Cycle document.
2. Right click mouse or the secondary mouse button. A context menu appears on your screen.
3. Move the mouse and click **Copy**.

4. Make Document 1 the active document and position the cursor on the next line after the title.
5. Right click the mouse. The context menu will appear showing the three options to paste the text. Use the last option to paste your text.

6. The paragraph is now pasted to your new document. Adjust the paragraph spacing between the second and third paragraph. Your work should look like the example below.

### The Water Cycle

Nature is always moving water through the air and land, so that the water we use is constantly recycled. The water cycle includes these steps:

Evaporation. The sun heats water in rivers, lakes, and the ocean and turns it into vapor or steam, which then rises into the air.

Condensation. The vapor cools and turns into tiny water droplets that attach to each other and form clouds.

#### Copying and pasting using the keyboard

Perform the steps below to copy and paste using the keyboard.

1. Highlight the remaining paragraphs from the Water Cycle document.
2. Press **Ctrl + C** from the keyboard.
3. Make Document 1 the active cell and position the cursor after the last paragraph.
4. Press **Ctrl + V** from the keyboard. The paragraphs are now inserted in the document.
5. Save Document 1 as **Water Cycle v2**.
6. Your work should look like the example below.

### The Water Cycle

Nature is always moving water through the air and land, so that the water we use is constantly recycled. The water cycle includes these steps:

Evaporation. The sun heats water in rivers, lakes, and the ocean and turns it into vapor or steam, which then rises into the air.

Condensation. The vapor cools and turns into tiny water droplets that attach to each other and form clouds.

Precipitation. Water falls from the clouds as rain, snow, sleet, or hail. Runoff. Some water stays on the earth's surface and flows into rivers, lakes, reservoirs, etc.

Collection or Percolation. Other water seeps down into the earth's natural underground reservoirs called aquifers.

Then the cycle begins again, as water from the earth's surface evaporates into the air.

7. Keep your work open for the next exercise.

## Deleting Text

Delete as the word suggests means to remove something from the document. Text, files and objects can be deleted using the **Delete key** from the keyboard. Be careful when using this command though as your work can be lost.

1. Select the entire paragraph.
2. Locate the **Delete** key from the keyboard.
3. Press the Delete key and observe how all the text disappeared from your document.
4. Click Undo button to bring back the deleted text.
5. Close **Water Cycle v2**. Click no if the computer asks to save changes to your work.

### Activity 1: Cut, copy, paste and delete text

1. Type the following text.

Ok now you must read over your story and make sure that there are no missed mistakes and everything is the way you like it.

This is the step to writing your first draft. You put all your ideas that you had into paragraph form.

Before you start your story you have to think about what you want to write. This is called Prewriting. Something you can do is to make a story web. That is when you think of ideas to make your story, like who is going to be in it, the setting, the plot, and the problem/solution and organize them graphically.

After you have written your rough draft of your story it is time to edit your story. You give it to a friend or a parent and let them read it through. They need to check if your spelling, punctuation, grammar, and capitals are in the right place and if everything is ready for a final copy.

Wow. It is already time for you to write your final copy. Take your rough draft and copy it on a computer or paper and then you are done!

2. All the paragraphs are jumbled. Rearrange Page 2 paragraphs using cut and paste. Use any of the methods you have learned.
3. Rearrange the paragraphs in sequence. Use the numbers as guide on how to arrange the sequence of the paragraphs.

4. Save your document as **Writing Exercise**.

---

Thank you for completing this activity. In this activity you have learned how cut, copy and paste text in a variety of ways. If you are still unsure of the lesson, you can still go back and revise. Compare your work with the output provided at the end of this lesson.

---

### Summary

You have come to the end of Lesson 14. In this lesson, you have learned to use cut command to move text to another document. You have learned to use copy to create another copy of the text. You have also learned to use paste together with cut and copy command.

---

**NOW DO PRACTICE EXERCISE 14 ON THE NEXT PAGE**

**Practice Exercise 14**

---

**A. Identify which commands should be used to complete the task below.****CUT****COPY****PASTE****DELETE**

- \_\_\_\_\_ 1. Creates the same text without typing the text again.
- \_\_\_\_\_ 2. Move your text in another part of the paragraph.
- \_\_\_\_\_ 3. Permanently remove the text from the document.
- \_\_\_\_\_ 4. Move your text in another document.
- \_\_\_\_\_ 5. Create the same text in another document typing the text again.
- \_\_\_\_\_ 6. Command that is used together with Cut and Copy.
- 

**B. Identify the icons used to perform the following task.**

- \_\_\_\_\_ 1. Cut
- \_\_\_\_\_ 2. Copy
- \_\_\_\_\_ 3. Paste

**A****B****C****D****C. Identify the keyboard shortcut (2 pts.)**

- \_\_\_\_\_ + \_\_\_\_\_ 1-2. Keyboard shortcut to Cut
- \_\_\_\_\_ + \_\_\_\_\_ 3-4. Keyboard shortcut to Copy
- \_\_\_\_\_ + \_\_\_\_\_ 5-6. Keyboard shortcut to Paste
- 

**D. Perform the following.**

1. Type the text on the next page in a New Blank Document.

### The 5 Step Writing Process

On this page you will learn about the 5 steps to writing a good story. It will show you how to pre-write, write, revise, proofread and publish. This will teach you how to write a better story. Now get on your horse and ride into the world of writing.

Step 1: Prewriting

Step 2: Writing

Step 3: Edit

Step 4: Proofreading

Step 5: Publishing

2. Save your work as **5 Steps**
  3. Open **Writing Exercise** document. This is the document you have previously done in Activity 1 of this lesson.
  4. **Copy** or **Cut** the paragraphs from **Writing Exercise** document and **Paste** it to the steps that correspond with each number.
  5. Apply formatting to your text. Change the font, font size and style.
  6. Change the alignment of the title and body of the text to improve its appearance.
  7. Use indentions to emphasize the steps.
  8. Write your Name in your document.
  9. Save your work as **5 Step Writing Process**.
- 

**CHECK YOUR ANSWERS AT THE END OF TOPIC 3.**

**Answer to Activity**

---

Your work should look like the example below

Before you start your story you have to think about what you want to write. This is called Prewriting. Something you can do is make a story web. That is when you think of ideas to make your story, like who is going to be in it, the setting, the plot, and the problem/solution and organize them graphically.

This is the step to writing your first draft. You put all your ideas that you had into paragraph form.

After you have written your rough draft of your story it is time to edit your story. You give it to a friend or a parent and let them read it through. They need to check if your spelling, punctuation, grammar, and capitals are in the right place and if everything is ready for a final copy.

Ok now you must read over your story and make sure that there are no missed mistakes and everything is the way you like it.

Wow. It is already time for you to write your final copy. Take your rough draft and copy it on a computer or paper and then you are done!

## Lesson 15: Using Spell Check and Thesaurus

---

Welcome to Lesson 15 of Unit 2. In Lesson 14 you have practiced your skills in editing document. Lesson 15 is all about the special feature of MS Word to check the spelling and replace words in your document.

### Your Aims:

- define spell check and thesaurus.
  - determine the use and importance of spell check and Thesaurus.
  - use spell check and thesaurus in improving the quality of a document.
- 

### Spell Check

One very useful tool in word processing is the Spell Check. This allows the user to check for any spelling error the writer made while working with the document. The Spell Check function in Word can help you find out quickly the spelling and grammar mistakes in your Word document.

The words written below contain spelling mistakes. Type the following words.

1. Gobbledegook
2. Supercalifragilistik
3. Pinnacle
4. Consort
5. Enunciate
6. Generalise
7. Color
8. Confirm
9. Pretext
10. Enrgage|

As you type, notice that a red wavy line or green wavy line appears on your text. The red wavy line means it is a spelling error and the green wavy line means it is a grammatical error. Disregard these lines while typing. You will learn to correct this errors in this lesson.

### Activating the Spell Check Setting

If no lines appeared on your text, your Spell Check function may be disabled. You can enable the Spell Check function by using the following steps.

1. Click the File Tab in the menu.
2. Choose **Options**. The dialogue box appears.

3. Select **Proofing**.
4. Tick and/or untick boxes for correcting spelling and grammar. Use the illustration below as guide.

5. Remove the tick in the Exceptions boxes (if it is selected).

6. Click OK. Once the spell check is enabled, it suggests the correct spelling of the word you have typed earlier on.

### Using the Spell Check

Follow the steps below on how to use the spell check feature of MS Word.

1. Click the Review tab
2. Locate the Proofing group
3. Choose Spelling and Grammar

4. The dialogue box will appear to check the first word with spelling error. If there is no spelling suggestion, the first word is not a word in the dictionary, so click **Ignore Once**. Clicking **Ignore All** will disregard the word if it sees it again during spell check.
5. The Next word with spelling error will appear. The **Suggestions window**, gives possible correct spelling for the word.

6. Choose the word **Enunciate** since it closely matches with Enounciate.
7. Click **Change**. Select **Change All** to change the spelling if the same word will appear in your document again. Sometimes the spelling of the word depends on the country using it. The word **Colour** is not an acceptable spelling because PNG uses **Colour as** the correct spelling.

8. Select the correct spelling then click **Change**, the next word will appear. Sometimes a word have can have many suggestions. You can scroll down to display all the words listed in the Suggestions window.

9. Replace the misspelled word **Enrgage** with **Enraged** and click Change.
  10. Write your name on your document.
  11. Save your work as **Spelling Error**.
  12. Print your work.
-

### Activity 1: Using Spelling and Grammar Check

1. Create your own Application Letter using the example below as a guide to write your letter.
2. Supply the necessary information required, with your own personal information.
3. Use Spell Check to correct any spelling mistakes in your document after you finished typing.
4. Do not forget to save your work as **Application Letter**.

#### **Contact Information**

Name

Address

City, State, Zip Code

Phone Number

Email Address

Date

#### **Employer Contact Information** *(if you have it)*

Name

Title

Company

Address

City, State, Zip Code

#### **Salutation**

Dear Mr./Ms. Last Name, *(leave out if you don't have a contact)*

#### **Body of Application Letter**

The body of your application letter lets the employer know what position you are applying for, why the employer should select you for an interview, and how you will follow-up.

#### **First Paragraph**

The first paragraph of your letter should include information on why you are writing. Mention the job you are applying for and where you found the job listing. Include the name of a mutual contact, if you have one.

#### **Middle Paragraph(s)**

The next section of your application letter should describe what you have to offer the employer. Mention specifically how your qualifications match the job you are applying for. Remember, you are interpreting your resume, not repeating it.

### Final Paragraph

Conclude your application letter by thanking the employer for considering you for the position. Include information on how you will follow-up.

### Complimentary Close

Sincerely,

Signature

---

Thank you for completing this activity. If you are still unsure of the lesson, you can still go back and revise. Compare your work with the output provided at the end of this lesson.

---

## Thesaurus

A thesaurus is a dictionary of synonyms or words and phrases that mean the same thing to a particular word or phrase. Microsoft Word come equipped with a thesaurus feature that enables you to look up both *synonyms* (words and phrases that has the same or similar meaning of a particular word or phrase) and *antonyms* (words and phrases that mean the opposite of a particular word or phrase).

Using MS Words' thesaurus feature can help you add more variety to your writing. It can suggest words and phrases that can be better understood.

### Looking For Words

Here is how to use MS Words thesaurus feature:

1. Open the **Spelling Error** document.
2. Highlight the first word “gobbledegook”
3. In the **Review** ribbon, click **Thesaurus**. The Research task pane will appear. The word does not exist. **No result** displayed in the window.

4. Highlight the second word “Supercalifragilistik”
5. In the Review ribbon, click **Thesaurus**. The same result appears as the first word.

6. Highlight the third word and repeat the same process.
7. The words in bold (**Highpoint** and **Summit**) are the synonyms of the word “Pinnacle”. Other synonyms are also given for the same word. Notice that the **antonym** is also displayed in bracket.

8. Replace the selected word with the synonym or antonym of your choice.
9. Point to the replacement word or phrase. A pop up menu appears.
10. Click the down arrow to its right, and click **Insert** from the popup menu that appears. The selected word replaces the text on your document.

11. Repeat the steps for the remaining words.
12. Write your Name.
13. Save your work as **Thesaurus Edited Work**.
14. Don't forget to print.

### Activity 2: Using the Thesaurus

1. Open Save Water document. This is the document you have previously done in Lesson 13 of Unit 3.

2. Using the Thesaurus, find the Synonym and Antonym of the words below. Make sure that the Synonym you choose has the same meaning as the original words. The Antonym words must be the exact opposite of the given word.

|                   | Synonym | Antonym |
|-------------------|---------|---------|
| Taken for granted |         |         |

|           |  |  |
|-----------|--|--|
| Conserve  |  |  |
| Valuable  |  |  |
| Resources |  |  |

---

Thank you for completing this activity. In this activity you have learned how cut, copy and paste text in a variety of ways. If you are still unsure of the lesson, you can still go back and revise. Compare your work with the output provided at the end of this lesson.

---

### Summary

You have come to the end of Lesson 15. In this lesson, you have learned to check and lookup words using Microsoft Word Spell Check to correct the spelling in your document and Thesaurus to look up the synonym and/or antonym of words used in the document.

---

|                                                     |
|-----------------------------------------------------|
| <b>NOW DO PRACTICE EXERCISE 15 ON THE NEXT PAGE</b> |
|-----------------------------------------------------|

**Practice Exercise 15**

---

**A. True or False. Write True if the statement is correct and False if it is incorrect.**

1. Spell check is used to look up the other meaning of a word. \_\_\_\_\_
  2. Both synonyms and antonyms are used in the spell check. \_\_\_\_\_
  3. Only words found in the dictionary are checked by the spell check. \_\_\_\_\_
  4. Red wavy lines are displayed if there is a spelling error. \_\_\_\_\_
  5. The computer automatically checks the spelling as you type. \_\_\_\_\_
- 

**B. Below are some commonly used words in writing. Using the MS Word Thesaurus, give one synonym and one antonym for each of the following:**

|            | Synonym | Antonym |
|------------|---------|---------|
| 1. Like    |         |         |
| 2. Urge    |         |         |
| 3. Love    |         |         |
| 4. Enter   |         |         |
| 5. Leave   |         |         |
| 6. Opinion |         |         |

---

**C. Use MS Word Spell check and MS Word Thesaurus to edit your Application Letter.**

1. Open the Application Letter that you have previously used in Lesson 15.
2. Use the Spell check to check your work. Do your corrections.

3. Read through the letter again.
4. Identify five words which are commonly used when writing your document.
5. Look up the words in the MS Word Thesaurus.
6. Choose and replace the words with suggested words given in the Research task pane.
7. Use text highlight colour to mark the words for easy identification.
8. Save your work as **Application Letter Edited**.
9. Print your work.

---

|                                                  |
|--------------------------------------------------|
| <b>CHECK YOUR ANSWERS AT THE END OF TOPIC 3.</b> |
|--------------------------------------------------|

---

### **Answer to Activity 1**

---

1. The example given is only an example of what an application letter looks like
2. Try to create your own letter by writing your first draft and editing your work.
3. You may write as many drafts as needed to polish your letter.
4. Finally, use Spelling and Grammar to check the words and phrases you used in your letter.
5. Do not forget to save your work.

(Miss) Mary Kelly  
P.O. Box 1234 Boroko NCD  
Papua New Guinea

17 September 20—

Mr. Micheal Mea  
Human Resource Management  
Lahara Marketers Ltd.  
P.O. Box 1955 Waigani

Dear Mr Mea,

I am applying for the part time sales position advertised on The National newspaper dated 15 September 20—. I have completed Grade 12 at Gordons Secondary School and awaiting my national exam results. My intention is to gain experience in sales while waiting for the result to arrive.

Although I do not have any experience in sales, I think I have what it takes to be a good sales person because of my people skills and willingness to learn.

I enclose my curriculum vitae, which covers my personal background.

On a personal level, I am self-motivated and very reliable.

I look forward to hearing from you about an interview. My telephone number is 7890-78564

Yours sincerely,

Mary Kila (Miss)

## Answer to Activity 2

|                   | Synonym | Antonym |
|-------------------|---------|---------|
| Taken for granted |         |         |
| Conserve          |         |         |
| Valuable          |         |         |
| Resources         |         |         |

## Lesson 16: Using “Find And Replace” Features

Welcome to Lesson 16 of Unit 2. Lesson 15 allows us to correct the spelling mistakes and look up words using the thesaurus. This lesson is all about **Find and Replace** which allows you to search through a document and replace searched text with a different word or phrase.

### Your Aims:

- define find and replace feature
- determine the use and importance of find and replace feature
- identify the steps on how to use the find and replace
- use find and replace feature

## Find

Microsoft Words’ **Find** feature lets you search through lengthy documents for a particular word or phrase. You can choose to selectively or automatically replace the searched text with a different word or phrase.

In this lesson, you will learn how to use the "Find" feature to quickly search words or phrases in your document.

1. Type the following text.

Love is the greatest gift we could ever hope to give and receive. Love is the one thing that can overcome so many of the difficult times that we are faced with in life. Love is so powerful – it can turn frowns into smiles. It can help mend the broken heart. It can even turn all of the ugliness in the world into the most beautiful portrait we could ever have the pleasure to behold.

Such a monumental task – of course...it could be. But only if we try to do it alone. Instead, if each of us, in our own small way contributed just a little, together – the task can become the reality we’re reaching for.

As potent as what love can be, it can only work its magic if we choose to allow it too. For that to come to pass we must let go of the other emotions that can get in love’s way. How is that you may wonder?

From: Friendship Connection.net

2. Highlight the entire paragraph.
3. In the **Home** ribbon find the **Editing** group.
4. Click **Find**. The find navigation pane opens.

5. In the Search Document box window, type **Love**.
6. The list of sentences containing the word **Love** will be displayed in the Navigation pane.
7. The words **Love** are highlighted in the document.

## Replace All

Having located the word you are looking for the next step is to perform some actions on the text typed in your document. The Replace option will do this without typing your text again.

Follow the steps on how to use the replace feature.

1. In the **Home** ribbon find the **Editing** group.
2. Select **Replace**. The find and replace dialogue box appears.

3. Click the Replace tab. In the Replace with window type, "**LOVE**" (all text are capital letters).
4. Choose **Replace**, this will change the text one word at a time.

- Click **Replace All** to change all the text at the same time.

- A dialogue box will appear. All the word **Love** was now replaced with **LOVE**.
- Save your work as **Love Connection**.

#### Replace One Word At A Time.

- Type the following text. Do not worry about the spelling as you type. You could do spell check after you finished typing.

Everybody likes going on online. Your friends, family and even your dog seemed to have a Facebook account. Imagine that! Going online seemed to be the norm these days. You are not IN if you don't go online.

There are advantages of course in going online. You do not have to wait for a long time to correspond with your family and friends. Information is just a click away when you go online. A twelve year old will give you more advantages but there certainly is a downside to going online.

We seemed to lose the physical connection brought about by communicating with your friend and hearing their voice over the line. Children are spending more time online than they do with friends and doing physical activity.

- Do a spell check for the entire document.
- Highlight the entire paragraph.
- Press the **Ctrl** key from the keyboard and do not release your finger until you have pressed **H** from the keyboard.
- The **Find and Replace** dialogue box appears.
- Click the **Find** tab.
- In the **Find what** window type "**online**"

8. Click **Reading Highlight** and choose **Highlight All**. All the words “online” in the document will be highlighted.

9. Click the **Replace** tab.
10. In the **Find what** window, type “online”
11. Type “internet” in the **Replace with** window.
12. Click Replace. The first highlighted word will be replaced.

Read through the text before you click Replace. Sometimes it is best to keep the existing word rather than changing all the words.

13. Click **Find Next** and another “online” word will be displayed. This word seemed suitable to our paragraph so let us keep this word.
14. Click **Find Next** again.
15. In the **Replace with** window type “**the internet**”.
16. Choose **Replace**. The word “online” is now changed to “the internet”

17. Click **Find Next**. Finish the rest of the document. As you go through it, you may change, keep or add the word you are replacing with another word.

18. Write your Name after the last paragraph.
19. Save your work as **Internet**.
20. Do not forget to print. Your work will look like the example below.

**Activity 1: Use the find and replace feature to change the text in your written document**

1. Open the **Essay Draft** document you have previously saved. This is the reaction paper that you did in Lesson 3 - Practice Exercise 3 of this unit.
2. Use **Spelling and Grammar** check to correct spelling and grammar in your document.
3. Read through your essay again. List down words that you frequently used in your essay.
4. Use the **Thesaurus** to find other meaning of the words you frequently used. Make sure to select the words that closely match the meaning of the words you are replacing.
5. Use **Find** command to look up the words you want to change in your document.
6. Replace the words you want to change using Replace command to replace text in the document.
7. Use the table below to write the words you want to change and the word you will substitute it. Add more space to the table as needed.

| Frequently used words | Substituted word |
|-----------------------|------------------|
|                       |                  |
|                       |                  |
|                       |                  |
|                       |                  |

8. Apply formats to your text, change the alignment and paragraph spacing in your document.
9. Save your work as **Find and Replace Exercise**.
10. Print your exercise.

---

Thank you for completing this activity. If you are still unsure of the lesson, you can still go back and revise. Compare your work with the output provided at the end of this lesson.

## Summary

You have come to the end of Lesson 16. In this lesson, you have learned to look up words using Find and replacing words using Replace option in MS Word.

---

**NOW DO PRACTICE EXERCISE 16 ON THE NEXT PAGE**

**Practice Exercise 16**

---

**A. Write TRUE if the statement is correct and FALSE if the statement is incorrect in the space provide.**

1. **Find** will locate any word in your flash drive. \_\_\_\_\_
2. Replace will change word one at a time. \_\_\_\_\_
3. **Ctrl** + **H** are the keyboard shortcut to open **Find and Replace**. \_\_\_\_\_
4. You cannot change the word to its original form once you used **Find and Replace**. \_\_\_\_\_
5. The Navigation pane shows all sentences containing the words you are looking for. \_\_\_\_\_
6. **Find and Replace** will highlight all the words you searched in the document. \_\_\_\_\_
7. You can replace words all at the same time. \_\_\_\_\_
8. The word that you choose to replace text must not change while you are using **Find and Replace**. \_\_\_\_\_
9. The navigation window and the **Find** what window performs a different function. \_\_\_\_\_
10. Clicking **Replace** in the Editing group opens up the **Find and Replace** dialogue box. \_\_\_\_\_

**B. Apply Find and Replace option to a document.**

1. Open your Application letter you have saved in Lesson 15.
  2. Read through it and check if there are any words that you keep on using within the document.
  3. Use the ribbon or the dialogue box to access **Find and Replace** feature.
  4. Use **Find and Replace** options to finalize and polish your application letter.
  5. You may go through previously saved documents and use **Find and Replace**.
  6. Do not forget to save the new version of your work with another filename to keep the original untouched.
- 

**CHECK YOUR ANSWERS AT THE END OF TOPIC 3.**

**Answer to Activity 1**

---

1. Your work must be checked for spelling and grammar error.
2. Use Find and Replace feature of MS Word to change text.

| Frequently used words | Substituted word |
|-----------------------|------------------|
|                       |                  |
|                       |                  |
|                       |                  |
|                       |                  |

3. Use the skills you have learned from Lesson 13 to enhance the appearance of your text.

## Lesson 17: Inserting and Sizing/Resizing Graphics

Welcome to Lesson 17 of Unit 2. Lesson 16 taught us how to look for words and replace words using the Find and Replace option. This lesson is all about inserting, sizing and resizing graphics.

### Your Aims:

- identify the steps on how to correctly insert and size/resize graphics
- insert and size/resize graphics
- identify the importance of inserting and sizing/resizing graphics

### Graphic

Graphics is term used to describe elements which are not text, such as drawings and pictures. A graphic object can be a simple drawing object consisting of shapes such as lines and boxes that can be created using the Drawing toolbar. A picture is an illustration created by combining lines, arcs, circles, and other shapes. It is often created using a graphic application such as Paint. Graphic can be used to enhance your document.

A graphic can be added to a document by copying it to the **clipboard** and then pasting a copy of it into the document. You can also add a graphic by it into the document. Once a graphic file is inserted into a document, it is saved as part of the Word document. Follow the steps on how to insert graphics into a document.

1. Open **Internet** document from Lesson 16.
2. Click **Insert tab** and choose **Clip Art**. The Clip Art task pane will appear at the left side of your screen displaying all the graphics stored inside your computer.

3. **Click** any graphics related to computers. If your computer does not have the graphics just choose any graphics available.

Scroll down the task pane to display other graphics available for use. Your clipart might be different from what is shown here. Do not worry! Just use any graphic available in your computer just for the purpose of this exercise.

4. Your graphic is now inserted in your document.

## Resizing Graphic

Changing the size of graphics is different from changing the size of a text in a document. Follow the steps below to resize your graphics.

1. After you have inserted the clip art and changed its default wrap text the notice that your graphic contains circles and squares all over your graphic. These are called handles.

2. Move your mouse pointer across the square handle located at the sides of your graphic. Observe how your mouse pointer changes shape into a double arrow pointing in opposite directions.
3. Click, hold and drag the mouse. This will resize your object depending on the direction where you drag your mouse. It may take some practice to get a hang of it.
4. Your graphic changes size, however it is stretched unevenly.

5. Click **Undo** to return the graphic to its original shape/size.
6. Move your mouse pointer across the circle handle located at the corner of your graphic. Observe how your mouse pointer changes shape into a double arrow pointing in opposite directions.

7. Your graphic changes size evenly without stretching the object.
8. Make sure that Internet document is still open for the next exercise.

---

## Deleting Graphics

Use the same techniques you have learned in Lesson 14 to delete graphics from your document. Follow the steps on how to delete graphics from your document.

1. Click the object (graphic) to make sure that it is selected. Your object is selected if the handles are visible.
2. Press the Delete key located on your keyboard. Your object is now deleted.

## Moving and Rotating Object

Your inserted graphic or object can be moved to any location in the document. It can also be rotated up to 360°.

Follow the steps below on how to move and rotate your object:

1. Make sure that the Internet document is still open.
2. Click **Undo** to return your object in your document.
3. Click the object to select it. Click, hold and drag the graphic. Release your mouse at the center of your text.
4. Move your mouse pointer to the green circle at the center of your object. Observe how your mouse changes shape

5. Click and hold the mouse. Rotate the object in any direction and release the mouse.
6. Save changes to your work.

### Activity 1: Insert, Move, resize and rotate object

1. Open the **Love Connection** document that you created in Lesson 16.
2. Open Clip Art and look for any object that can represent Love.
3. Insert the object anywhere in your document.
4. Resize your object to make it not too big or too small.
5. Rotate your object to about 45 degree.
6. Drag your object to the center of your document.
7. Save your work as Love Graphics into your flashdrive.

Thank you for completing this activity. You can insert other objects to resize and rotate them in different position. Compare your work with the output provided at the end of this lesson.

---

### Summary

You have come to the end of Lesson 17. In this lesson, you have learned how to insert, resize, move, rotate and delete graphics to your document.

---

**NOW DO PRACTICE EXERCISE 17 ON THE NEXT PAGE**

**Practice Exercise 17**

---

**A. Identify the term that best describes the given statement.**

1. Refers to objects or graphics stored in the computer. \_\_\_\_\_
2. Allows you to manipulate the size of your object. \_\_\_\_\_
3. Non-text element that is inserted to document. \_\_\_\_\_
4. To move an object from 0 to 360 degrees angle. \_\_\_\_\_
5. Keyboard command used to remove the object from the document. \_\_\_\_\_

**B. In a few words explain how you will perform the following task.**

1. Insert a Clip Art object in a document  
\_\_\_\_\_  
\_\_\_\_\_
2. Move the object to any part of the document.  
\_\_\_\_\_  
\_\_\_\_\_
3. Change the size of the object/graphic.  
\_\_\_\_\_  
\_\_\_\_\_
4. Rotate the object/graphic.  
\_\_\_\_\_  
\_\_\_\_\_

---

|                                                  |
|--------------------------------------------------|
| <b>CHECK YOUR ANSWERS AT THE END OF TOPIC 3.</b> |
|--------------------------------------------------|

**Answer to Activity 1**

---

1. Use the illustration below to check your work.
2. Take note of the following:
  - a. Choose any graphics that you want.
  - b. Your work may or will not look the same as the illustration below.
  - c. Resize your object to
  - d. Rotate the object in any angle you like.
3. Your work should look like the example given below.

## Lesson 18: Inserting Columns and Tables

Welcome to Lesson 18 of Unit 2. Lesson 17 taught us how to insert and resize graphics. This lesson will teach us how to manipulate another form of object called **Tables**. Here, you will use the skills you learned from the previous lessons and apply it to manipulate tables and columns.

### Your Aims:

- define the meaning and importance of columns and tables
- identify how to correctly insert columns and table.
- insert column and tables

## Table

Tables are a very effective way of presenting information in your document. The table organizes information for a reader and reduces long words to be read in order to interpret data. It provides you with alternatives to using tabs and makes it easier to present paragraphs of text side by side in documents such as resumes or curriculum vitae and brochures.

### Inserting a Table

A **table** displays information in rows which are horizontal and columns which are vertical. The intersection of a rows and columns creates a **cell** where you can enter data or texts. Follow the steps on how to insert a table in your documents.

1. Open MS Word.
2. In a blank document, click the **Insert** tab located in the ribbon.
3. Choose Table. The **Insert Table** menu appears.

Move your mouse across the table matrix located in the Insert Table. Observe how columns and rows are inserted in your document as you move your mouse across the table matrix.

4. Drag the mouse pointer across and down the table matrix until it reads 3 x 6.
5. Click the mouse and the table will be inserted in your document. Your work should look like the example on the next page.

6. Move your mouse pointer over the lines in the table. Observe how your mouse pointer changes shape when you do this.
7. Click, hold and drag the mouse. The direction where the arrow indicates the movement of the borders between cells. An arrow pointing left and right moves resizes the column and the arrow pointing up and down resizes the rows of your table.

---

## Entering Data

Position the cursor within the cell where you want to enter the data and then type as you would in a document. Word will immediately move the text to the next line inside the cell if the width is not enough for the data to fit on one line. Follow the steps on how to enter data in your table.

1. Position your cursor in the first cell of your table.
2. Type ANNUAL SALES then press the Tab key. Your cursor moved to the second column of the same row. You may also move your cursor by clicking the mouse in the cell you want to use.
3. Use the information below to fill your table.

|              |       |       |
|--------------|-------|-------|
| ANNUAL SALES |       |       |
|              | 1994  | 1996  |
| PORT MORESBY | 85960 | 95780 |
| LAE          | 53795 | 69679 |
| MADANG       | 64356 | 83590 |
| POPONDETA    | 22350 | 35783 |

## Inserting Columns and Rows

Follow the steps on how to insert columns and rows in your table.

1. Position your cursor at the last cell of your table.

|              |       |       |
|--------------|-------|-------|
| +            |       |       |
| ANNUAL SALES |       |       |
|              | 1994  | 1996  |
| PORT MORESBY | 85960 | 95780 |
| LAE          | 53795 | 69679 |
| MADANG       | 64356 | 83590 |
| POPONDETA    | 22350 | 35783 |

2. Press the tab key once. A new row is inserted at the bottom of your table. A new row is inserted in your table. Type the following text inside the new row.

|       |        |        |
|-------|--------|--------|
| TOTAL | 226461 | 284832 |
|-------|--------|--------|

3. Position your cursor in any part of the second column.
4. Right-click the mouse. A menu will appear on your screen.
5. Click **Insert**. A sub menu will appear.
6. Choose **Insert Columns to the Right**. A new column will be inserted between the two columns.

7. Type the following information into your new column:

|        |
|--------|
| 1995   |
| 88567  |
| 64905  |
| 75693  |
| 28650  |
| 257815 |

8. Choose **Insert Columns to the Left**. A new column will be inserted
9. Choose **Insert Rows Above**. A new row will be inserted between the two columns.
10. Leave your work open for the next exercise.

### Delete Columns, Rows and Table

Deleting Columns and Rows is different than deleting text and objects. Follow the steps below to perform the given task.

1. Position the cursor in any part of the column you inserted.
2. Right-click the mouse and choose Delete cells. A dialogue box will appear.

3. Select the radio button option **Delete** entire column and click **OK**. The column will be deleted
4. Place your cursor in the row you have inserted and right-click the mouse.
5. When the Delete row dialogue box appears, choose **Delete** entire row and click **OK**.
6. Move your mouse pointer to the handle located at the upper left hand corner of your table.
7. Click the handle to select the entire table.

|              |        |        |        |
|--------------|--------|--------|--------|
| ANNUAL SALES |        |        |        |
|              | 1994   | 1995   | 1996   |
| PORT MORESBY | 85960  | 88567  | 95780  |
| LAE          | 53795  | 64905  | 69679  |
| MADANG       | 64356  | 75693  | 83590  |
| POPONDETA    | 22350  | 28650  | 35783  |
| TOTAL        | 226461 | 257815 | 284832 |

8. Position the cursor over any part of the highlighted table.

9. Right-click the mouse and choose **Delete** table from the context menu. The table is now deleted.
10. Click **Undo** to bring back the table.
11. You can format your table. Try changing the font, font style, size, colour of the text in your table.
12. Change the alignment of your text within the table cells. Use the example below as guide.

|                         |               |               |               |
|-------------------------|---------------|---------------|---------------|
| <b>ANNUAL<br/>SALES</b> |               |               |               |
|                         | <b>1994</b>   | <b>1995</b>   | <b>1996</b>   |
| <b>PORT MORESBY</b>     | 85960         | 88567         | 95780         |
| <b>LAE</b>              | 53795         | 64905         | 69679         |
| <b>MADANG</b>           | 64356         | 75693         | 83590         |
| <b>POPONDETA</b>        | 22350         | 28650         | 35783         |
| <b>TOTAL</b>            | <b>226461</b> | <b>257815</b> | <b>284832</b> |

13. Save your work as **Annual Sales**.

### Activity 1: Insert Table in a Document

1. Create a table with 10 columns and 10 rows.
2. Create an Addition table and fill in the details and the answers inside.
3. Format your table. Apply the skills you have previously learned from previous lessons.
4. You can use Copy and Paste to fill up the columns. Just highlight and copy the numbers you want to type. Position the cursor and click Paste where you want to where you will paste your text.
5. Save your work as **Addition Table**.

Thank you for completing this activity. You have now inserted table and format text using the skills you learned in Lessons 7 and 10. Compare your work with the output provided at the end of this lesson.

## Summary

You have come to the end of Lesson 18. In this lesson create table, enter data and format text inside your table. You have also learned another way of producing information apart from those you have learned in the previous lessons.

---

**NOW DO PRACTICE EXERCISE 18 ON THE NEXT PAGE**

## Practice Exercise 18

### A. Identify each diagram correctly.

### B. Write True if the statement is correct and False if the statement is incorrect in the space provided.

1. The vertical part of the table is called a row. \_\_\_\_\_
2. The table matrix helps you insert rows and columns you choose for your table. \_\_\_\_\_
3. The cursor indicates where you can insert the text inside the cell of a table. \_\_\_\_\_
4. Only one row can be inserted to an existing table. \_\_\_\_\_
5. A Row could only be inserted at the end of the table. \_\_\_\_\_
6. Right clicking the table will display the table matrix. \_\_\_\_\_
7. The intersection of columns and rows is called the table matrix. \_\_\_\_\_

**C. Add the following additional information to your table.**

Open **Annual Sales Edited** document you did in this lesson

1. Change the **Orientation** of your document to **Landscape**
2. Insert two columns after the last year sales.
3. Insert two rows before Total row.
4. Choose any one of the option in the sub-menu. Click Undo if the rows or column are inserted in the wrong place.
5. Save your work as **New Annual Sales**

**CHECK YOUR ANSWERS AT THE END OF TOPIC 3.**

**Answer to Activity 1**

1. A sample table is given below. Your work will look different than the example given.

|    |    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|----|
|    | 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 | 11 |
| 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 | 11 | 12 |
| 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 | 11 | 12 | 13 |
| 4  | 5  | 6  | 7  | 8  | 9  | 10 | 11 | 12 | 13 | 14 |
| 5  | 6  | 7  | 8  | 9  | 10 | 11 | 12 | 13 | 14 | 15 |
| 6  | 7  | 8  | 9  | 10 | 11 | 12 | 13 | 14 | 15 | 16 |
| 7  | 8  | 9  | 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 |
| 8  | 9  | 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 |
| 9  | 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 |
| 10 | 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 |    |

## Answers to Practice Exercises in Topic 3

---

### Practice Exercise 13

#### A.

- |      |       |
|------|-------|
| 1. H | 6. F  |
| 2. J | 7. C  |
| 3. A | 8. G  |
| 4. D | 9. E  |
| 5. B | 10. I |

#### B.

1. Sentence case
2. Lowercase
3. Uppercase
4. Capitalize each word
5. Toggle case

#### C.

1. Your work may look different from the example below.
2. Your work will be checked based on the changes you made on the following criteria.
  - a. Use of font, font size, font style
  - b. Change the alignment of the paragraphs
  - c. Use of Superscript or Subscript to your document.
  - e. Use of Tabular stops to align the text.
  - f. Change case using without typing your text again.

### Practice Exercise 14

#### A.

- |         |          |
|---------|----------|
| 1. Copy | 4. Cut   |
| 2. Cut  | 5. Copy  |
| 3. Cut  | 6. Paste |

#### B.

1. C
2. B
3. A

#### C.

- |         |      |
|---------|------|
| 1. Ctrl | 2. X |
| 3. Ctrl | 4. C |
| 5. Ctrl | 6. V |

D.

1. Your paragraphs must be arranged exactly like the example below.
2. The formats you used will not look like the example below.
3. Show us your own style. Use the example below only as guide.

### **The 5 Step Writing Process**

On this page you will learn about the 5 steps to writing a good story. It will show you how to pre-write, write, revise, proofread and publish. This will teach you how to write a better story. Now get on your horse and ride into the world of writing.

**Step 1: Prewriting**  
Before you start your story you have to think about what you want to write. This is called Prewriting. Something you can do is make a story web. That is when you think of ideas to make your story, like who is going to be in it, the setting, the plot, and the problem/solution and organize them graphically.

**Step 2: Writing**  
This is the step to writing your first draft. You put all your ideas that you had into paragraph form.

**Step 3: Edit**  
After you have written your rough draft of your story it is time to edit your story. You give it to a friend or a parent and let them read it through. They need to check if your spelling, punctuation, grammar, and capitals are in the right place and if everything is ready for a final copy.

**Step 4: Proofreading**  
Ok now you must read over your story and make sure that there are no missed mistakes and everything is the way you like it.

**Step 5: Publishing**  
Wow. It is already time for you to write your final copy. Take your rough draft and copy it on a computer or paper and then you are done!

---

### **Practice Exercise 15**

A.

- |          |         |
|----------|---------|
| 1. False | 4. True |
| 2. False | 5. True |
| 3. False |         |

B.

Take note that your answer may be any of the following words and not all words in the thesaurus will be written below. Use the thesaurus to display other meaning of the words.

|         | <b>Synonym</b>               | <b>Antonym</b>           |
|---------|------------------------------|--------------------------|
| Like    | Similar, comparable, alike   | Unlike, dislike          |
| Urge    | Need, wish, impulse, desire  | Disinclination, dissuade |
| Love    | Affection, adoration, fancy  | Hatred                   |
| Enter   | Arrive, go in, come in       | Exit                     |
| Leave   | Vacation, depart, go         | Stay, remove             |
| Opinion | Remark, mention, observation | Omission, Neglect        |

**C.**

1. Use Spelling and Grammar to check the spelling in your document.
2. Look up words using the Thesaurus.
3. Change or replace words in your document. This will add validity to your document.
4. Apply formatting styles. Change the font type, style, size and alignment as needed.
5. Use tab to align text.

---

**Practice Exercise 16**
**A.**

- |          |          |
|----------|----------|
| 1. False | 6. True  |
| 2. True  | 7. True  |
| 3. True  | 8. False |
| 4. False | 9. False |
| 5. True  | 10. True |

**B.**

1. Use Find and Replace to look up words and change words according to use.
2. Words can be replaced one word at a time or all at once.

3. It is wise not to replace all words at the same time. Read through your document and see if the words you are trying to change are appropriate for your statement.
- 

### **Practice Exercise 17**

#### **A.**

1. Clip Art
2. Handles
3. Graphics
4. Rotate
5. Del or Delete

#### **B.**

1. Insert a Clip Art object in a document
    - a. Click Insert and choose Clip Art.
    - b. Type the word you are looking for in the Search window.
    - c. Click to insert the object in your document.
  2. Move the object to any part of the document.
    - a. Using the mouse, click and hold the object
    - b. Move the mouse and release the mouse to position the object in its new location.
  3. Change the size of the object.
    - a. Position mouse in any of the handles.
    - b. Click, hold and drag the mouse when it changes shape to a two directional arrow.
    - c. Release when you have achieved the desired size of your object.
  4. Rotate the object
    - a. Position your mouse in the rotate handles.
    - b. Click, hold and drag the mouse when it changes to a rotating symbol.
    - c. Release when you have achieved the desired orientation of your object.
-

**Practice Exercise 18****A.**

- |                          |                           |
|--------------------------|---------------------------|
| 1. Column                | 5. Insert column to right |
| 2. Insert column to left | 6. Insert rows above      |
| 3. Table                 | 7. Table matrix           |
| 4. Row                   | 8. Insert cells           |

**B.**

- |          |          |
|----------|----------|
| 1. False | 5. False |
| 2. True  | 6. False |
| 3. True  | 7. False |
| 4. False |          |

**C.** Use the example as guide to check your work.

- Two new column must be inserted after the last year.
- Two new rows must be inserted after the last city.

| ANNUAL SALES |        |        |        |  |  |
|--------------|--------|--------|--------|--|--|
|              | 1994   | 1995   | 1996   |  |  |
| PORT MORESBY | 85960  | 88567  | 95780  |  |  |
| LAKE         | 53795  | 64905  | 69679  |  |  |
| MADANG       | 64356  | 75693  | 83590  |  |  |
| POPONDETA    | 22350  | 28650  | 35783  |  |  |
|              |        |        |        |  |  |
|              |        |        |        |  |  |
| TOTAL        | 226461 | 257815 | 284832 |  |  |

---

**End of Topic 3**

**Now Do Exercise 3 in Assignment Book 2 Then Go to Topic 4.**

## **TOPIC 4**

### **EDITING TEXT AND DESKTOP PUBLISHING**

**Lesson 19: Using Word Processor in Writing Short Stories or Poems**

**Lesson 20: Using Word Processor in Typing Reports**

**Lesson 21: Using Word Processor in Writing Letters**

**Lesson 22: Using Word Processor in Creating a Resume**

**Lesson 23: Using Word Processor in Creating a Formal Report**

**Lesson 24: Using a Word Processor in Creating a Memo**

## TOPIC 4: USING WORD PROCESSOR IN THE REAL WORLD

---

In this topic you will apply what you learned in Topics 1 to 3 to a document used in real life. It aims to give you confidence in creating and editing your own document.

This topic has 6 lessons:

**Lesson 19** discusses the use of word processor to format a short story or poem.

**Lesson 20** explains the use of word processor to type or format a report.

**Lesson 21** explains the use of word processor to format letter.

**Lesson 22** discusses the use of word processor in creating and formatting a resume.

**Lesson 23** provides steps in word processing to insert and edit graphics to an existing document.

**Lesson 24** discusses the use of word processor to create and format a formal report.

By the end of Topic 4, you should be able to use word processing applications for specific tasks, design, produce and evaluate appropriate word processing solutions to a range of problems and observe ethical practices when dealing with information and computer technology.

## Lesson 19: Using Word Processor in Writing Short Stories or Poems

---

Welcome to Lesson 19 of Unit 4. In this lesson you will use word processor to write your short stories and poems. You will also apply different formatting skills you have learned from previous lesson to enhance the appearance of your text.

### Your Aims:

- define Word processing/ Word processor
- identify the benefits of using the word processor

---

### What Is Word Processing?

Word processing is the creation, editing, formatting, storing and printing of a text-based document. Examples of word processing documents are letters, report, essay, and other text materials that you created in a computer.

Before the invention of computers, people would type their documents using a normal typewriter. If you make a mistake you had to type everything again. Luckily white-out was invented to cover your mistake, and write over it to correct the mistake.

If you wanted to create copies of the same document, you either type the letter again or use carbon copy to create copies of this document. These methods are all out dated. Thanks to the computer and the Word processor. With a word processor, you can:

- create letters, fax, report, thesis or book.
- create flyers and newsletter.
- add clip art to a document
- use columns
- create tables and perform simple calculations
- draw graphics
- create indexes
- create table of contents
- create headers and footers
- add or delete text.
- move or copy text

- check and correct spelling and grammar

Perhaps the greatest advantage of using word processor is that you can go back to your document to change and edit it.

### Steps in Using Word Processing Program

There are many applications software on word processing that you can use for creating documents. But the most popular word processing application today is Microsoft Word. Below are the steps to create your word processing program.

Step 1: **Creating a document.** It involves composing and encoding text using a word processing program.

Step 2: **Editing.** To edit means making changes to your document to improve its content. You could add and delete text, copy and move paragraphs to different parts of the document.

Step 3: **Formatting.** It involves changing the appearance of your document to make it more attractive and to make it suitable for the documents purpose. This can be done from a simple changing of font type to inserting graphics to your documents.

Step 4: **Storing.** It involves saving your text inside your computer or creating a copy of your document in a storage device such as flash drive.

Step 5: **Printing.** It involves the production of the document on paper.

#### Activity 1: Format a short story

**Step 1: Encoding Text.** Type the text exactly as it is set. Notice that the source is mentioned. It is important to cite the source of our story to acknowledge the author.

My friend Joshua went hunting in the forest. At about 9pm he took his hunting spear gun and went looking for protein.

He speared a bandicoot, and went to the other side of the forest looking for some more protein.

He came to a little tree and saw a cuscus in it. He climbed the tree with the hunting gun in his arm.

While he was climbing, the cuscus jumped to another tree, and Joshua also wanted to climb to this other tree.

He threw his hunting gun down to the ground and the trigger moved. The rubber loosened and the spear went off and shot him in the leg.

He felt the spear shot in his leg and fell down to the ground.

His uncle heard him shouting in the forest and went and rescued him and took him to Boram Hospital.

He slept in the hospital for about a month and then they brought him home with crutches in his arms.

I was sorry for my friend and I thought he would not go to school anymore. But after a month he was ok. He started walking without the crutches and went to school again.

George Panna,

Mammumbo Primary School,

Wewak, ESP

Source: Young Life in the National, June 20, 2012.

**Step 2: Editing your document.** Use spell checker to edit text. Refer to Lesson 15 on how to perform this task. Observe that words with red wavy lines will be displayed. Do the correction depending on the spelling errors you made as you type. Some spelling errors have no correction. This is because some words do not exist in the computer dictionary. Choose Ignore if you encounter these words.

### Step 3: Formatting Text

1. Format your document. Use the skills you learned in Lesson 7 and 13.
2. Highlight the entire paragraph.
3. Use the suggestion below to change the text format of your document. You may also use your own style to format your work.

Font type: Batang

Font size: 12 pts.

Font Style: Bold and Italic for the Name and Address of the author.  
You have to unselect the entire paragraph and highlight the name and address of the author to do this

Font Colour: Apply colour to your text. Choose your own colour.

4. Position your text at the beginning of the first paragraph and press Enter. This will move the paragraphs a few line spaces below.
5. Click Text Effects and choose any style available there.
6. Type the word —Accidents Happen!".
7. Highlight the title and click Grow Fonts to increase size of your text to 18 pts.
8. Combine the paragraphs. Use the example below as guide.

## Accidents Happen!

My friend Joshua went hunting in the forest. At about 9pm he took his hunting spear gun and went looking for protein. He speared a bandicoot, and went to the other side of the forest looking for some more protein.

He came to a little tree and saw a cuscus in it. He climbed the tree with the hunting gun on his arm. While he was climbing, the cuscus jumped to another tree, and Joshua also wanted to climb to this other tree. He threw his hunting gun down to the ground and the trigger moved. The rubber loosened and the spear went off and shot him in the leg. He felt the spear shot in his leg and fell down to the ground.

His uncle heard him shouting in the forest and went and rescued him and took him to Boram Hospital. He slept in the hospital about a month and then they brought him home with two crutches in his arm.

I was sorry for my friend and I thought he would not go to school anymore. But after a month he was ok. He started walking without the crutches and went to school again.

*George Panna,*

*Mammumbo Primary School,*

*Wewak, ESP*

9. Highlight the entire paragraph and click the Paragraph dialogue box.
10. Change the indentation of the paragraphs. You learned how to do this in Lesson 8.
11. In the Special Indentation, choose First line and type 2 cm.

12. Make all the letters of the title capital. Highlight the title of the document and change case to Uppercase. You do not need to type the text again. You learned to do this in Lesson 10.
13. Highlight all the paragraphs.
14. Change the alignment to Justified. Refer to Lesson 10 to change paragraph alignment.
15. Position the cursor on any part of the title and change to **Centre** alignment.
16. Change to right alignment the name and address of the author.

**Step 4: Storing.** Follow the steps on how to save your document.

1. Save your document.
2. Click File and Save As to save your work.
3. Save your work as **Accidents** inside your documents library.
4. Create a copy of your document inside your flash drive. Refer to Lesson 3 to revise on how to save your document.

**Step 5: Printing**

1. Print your document.
2. Your work should look like the example below.

**ACCIDENTS HAPPEN**

My friend Joshua went hunting in the forest. At about 9pm he took his hunting spear gun and went looking for protein.

He speared a bandicoot, and went to the other side of the forest looking for some more protein.

He came to a little tree and saw a cuscus in it. He climbed the tree with the hunting gun in his arm.

While he was climbing, the cuscus jumped to another tree, and Joshua also wanted to climb to this other tree.

He threw his hunting gun down to the ground and the trigger moved. The rubber loosened and the spear went off and shot him in the leg.

He felt the spear shot in his leg and fell down to the ground.

His uncle heard him shouting in the forest and went and rescued him and took him to Boram Hospital.

He slept in the hospital about a month and then they brought him home with two crutches in his arm.

I was sorry for my friend and I thought he would not go to school anymore. But after a month he was ok. He started walking without the crutches and went to school again.

### Activity 2: Format a poem.

1. Type the following text taken from the 1999 English National Exam.

Piano  
Softly, in the dusk, a woman is singing to me;  
Taking me back down the vista of years, till I see  
A child sitting under the piano, in the boom of the tingling strings  
And presenting the small, poised feed of a mother who smiles as she sings.  
In spite of myself, the insidious mastery of song  
Betrays me back, till the heart of me sweeps to belong  
To the old Sunday evenings at home, with winter outside  
And hymns in the cosy parlour, the tinkling piano our guide.  
So now it is vain for the singer to burst into clamour  
With the great black piano appassionato. The glamour  
Of childish days is upon me, my manhood is cast  
Down in the flood of remembrance, I weep like a child of the past.

2. Use the steps on using word processing when editing the poem.
3. Choose any formatting techniques from the given guidelines.
4. You cannot use all of these in your document so put a tick across if you used it in your poem.

|  |                                                                        |
|--|------------------------------------------------------------------------|
|  | Change font type, style, and size. Apply colour, text effect           |
|  | Change the alignment of paragraphs: left, centre, right and justified. |
|  | Apply indentions to your paragraph.                                    |
|  | Change margins                                                         |
|  | Change page orientation                                                |
|  | Set tabs, headers, footers and pagination                              |
|  | Cut, copy and paste                                                    |
|  | Insert and resize graphics (any graphics that describes your poem)     |
|  | Insert columns and tables                                              |
|  | Use spell checker                                                      |
|  | Use find and replace feature                                           |

|  |                  |
|--|------------------|
|  | Save your work   |
|  | Print your work. |

5. Do not forget to save. Use any filename you want.
6. Print your work.

---

Thank you for completing this activity. In this activity you have learned how to apply different font formats to a document containing a story and poem. Try to do the task again without opening your handbook. Compare your work with the output provided at the end of this lesson.

---

### Summary

You have come to the end of Lesson 19. You have used word processing to format. In this lesson you are now using things that you have learned to an actual document like a short story or poem. Just remember —~~Less~~ is More” when it comes to editing your document. This means that if you try to use all of these features your document might end up looking messy.

|-----------------------------------------------------|

**Practice Exercise 19**

- A.** Write the steps you will perform to complete the task in your **Word Processing document**.

FLEXIBLE OPEN AND DISTANCE EDUCATION

1. To change the alignment to Centre

---

---

---

2. Change the font type to —Arial”

---

---

---

3. Make the text colour red.

---

---

---

4. Make the font size bigger.

---

---

---

5. Place a line under the text.

---

---

---

**B. Edit an existing document.**

1. Open **Accident** document.
2. Change the appearance of the Title of your document. Use the instruction below to edit your work. :  
  
Font type : Elephant  
  
Font size : 20 pts.  
  
Font style : Underline  
  
Font colour : Red  
  
Alignment : Right
3. Change the appearance of the paragraphs of your document. Use the instruction below to edit your work.  
Font type : Century Gothic  
  
Font size : 18 pts.  
  
Font style : Italic  
  
Indentation : Hanging, 2 cm
4. Change the appearance of Name and Address of the author. Use the instruction below to edit your work.  
Font type : Century Gothic  
  
Font size : 15 pts.  
  
Font style : Bold  
  
Alignment : Centre

*Mammumbo Primary School,*  
*Wewak, ESP*

## Answer to Activity 2

1. Your work may not look like the example below.

## Piano

SOFTLY, IN THE DUSK, A WOMAN IS SINGING TO ME;  
TAKING ME BACK DOWN THE VISTA OF YEARS, TILL I SEE  
A CHILD SITTING UNDER THE PIANO, IN THE BOOM OF THE TINGLING STRINGS  
AND PRESENTING THE SMALL, POISED FEED OF A MOTHER WHO SMILES AS SHE SINGS.

In Spite Of Myself, The Insidious Mastery Of Song  
Betrays Me Back, Till The Heart Of Me Sweeps To Belong  
To The Old Sunday Evenings At Home, With Winter Outside  
And Hymns In The Cozy Parlour, The Tinkling Piano Our Guide,

so now it is vain for the singer to burst into clamour  
with the great black piano appassionato. the glamour  
of childish days is upon me, my manhood is cast  
down in the flood of remembrance, i weep like a child of the past

2. The following formats were used in this document. These are samples only. You may use your own technique to format the poem.

|             | Title                           | Paragraph 1 | Paragraph 2          | Paragraph 3      |
|-------------|---------------------------------|-------------|----------------------|------------------|
| Font        | Arial (with text effect)        | NSimSun     | Century Gothic       | Freestyle script |
| Font size   | 24 pts.                         | 12 pts.     | 18 pts.              | 26 pts.          |
| Font style  | Bold, Underline                 |             | Italic               | Bold             |
| Alignment   | Left                            | Left        | Right                | Justified        |
| Margins     | Top, Bottom, Left & Right: 3 cm |             |                      |                  |
| Orientation | Portrait                        |             |                      |                  |
| Change case | Sentence case                   | Uppercase   | Capitalize Each Word | Lowercase        |

## Lesson 20: Using Word Processor in Typing Reports

---

Welcome to Lesson 20 of Unit 2. In Lesson you learned to use word processor to format a story and a poem. In this lesson you will use word processor to write reports. You will also apply different formatting skills you have learned from previous lesson to enhance the appearance of your text.

### Your Aims:

- type reports using word processor
- identify benefits of using word processor in writing reports
- identify importance of citing resources

---

### Write Your Report

As a student, you will be asked or may have already been asked to write a report on a particular topic. Using a word processing software makes it easier for you to write your report and save your work. You can also edit your work again before you finally print your work.

Use the steps in using word processing program you have learned in Lesson 19 to edit your document.

### Step 1: Create Your Report

Type the following text. This is a sample of a book review of *The Mission Song* written by John Le Carre taken from *New Age Woman* magazine.

The Mission Song  
(Buk Bilong Pikinini Children's Library Book Review)  
—“The Mission Song” *New Age Woman Magazine*, June 2012: 10

Language and identity are very tightly knit. Multiple languages can give rise to multiple perspectives, multiple approaches or even multiple personalities. This is what we find in the protagonist Bruno Salvo.

Working as an interpreter for the British secret service, Bruno, or rather Brian Sinclair; his alias for this job, is sent off to work for a mysterious client. At the last minute this linguist with a mixed background finds himself on a plane to a secret island in the North Sea. His task is to interpret for a conference of anonymous financiers and warlords set upon deciding the fate of his native Congo. Torn between his professional duties and his complex feelings for his country of birth, Bruno quickly comes to understand the full scope of the conference. He has influence as the interpreter but how will he choose to use it? In this conference, trust is difficult to come by and not everyone is who they seem to be.

Le Carre, shows us the international political and business machinations at play in the democratic birth of countries with many tribes like the Congo. The novel has excellent pace and is full of twists that play on Bruno's empathy and complicated loyalties. The characters here have real depth and sophistication and are brought to light with speed and clarity. The dialogue is rapid and maintains the tension of the thriller plot. The author knows all the right ingredients for engaging story-telling.

Bruno's identity becomes further blurred as his marriage fails and he encounters a Congolese nurse, Hannah, who listens to him and shows him the tenderness that is missing at home. Despite the severity of the situation at hand, and the complexities of the discussions in various East African languages, Bruno is constantly aware of the complications of his love life and his desire to explore what role Hannah should play in it. His conscience is often pricked by the reproachful way he knows Hannah would respond if she knew what he was doing. The reader is pushed to find out how Bruno, or rather Brian, will respond to the pressures of being linguist, spy, lover and patriot. He is certainly not a typical or easy hero but in a cynical world it is difficult to see who is.

Le Carre has clearly put a lot of work into the historical and political research of this book which only adds to the integrity of the plot. It also makes the reader ask where else in the world is this happening.

## Step 2: Formatting

1. Perform Spelling and Grammar check to your document.
2. Cut the reference and move it at the bottom of the document.

—“The Mission Song” *New Age Woman Magazine*, June 2012: 10

Perhaps one of the most commonly overlooked parts of a written report is the reference. These are the common things each reference has: the author, name of the book, publishing house and publication date. Plagiarism is a serious problem. Citing source of your information gives credit to the author.

## Step 3: Formatting

### A. Formatting Fonts

You have learned to change font type, style, and size in Lesson 13. You also learned how to change alignment in Lesson 10 and use Margins and Line Spacing in Lesson 9. Use the font formats below to edit your document.

**Edit the Title**

Font : ØCR Extended  
Font size : 20 pts.  
Font style : Bold  
Alignment : Centre

**Edit the Paragraphs**

Font : Book Antigua  
Font size : 12 pts.  
Font style : Regular  
Alignment : Justified  
Indention : 2.54 cm First line

**Edit the Reference**

Font : Book Antigua  
Font size : 10 pts.  
Font style : Bold and Underline  
Alignment : Right

**B. Paragraph and Line Spacing**

Observe that there is a noticeable distance between the lines of the paragraphs of your documents. Let us remove this space. You can use Lesson 9 to revise on changing paragraph spacing. Follow the steps below on how to change Paragraph and Line Spacing.

1. Highlight all the text in the document.
2. Display the Paragraph dialogue box.

3. In the Line spacing option, choose Single and click OK

4. Highlight the title and sub-title. The space between does not look nice. Let us remove this space.
5. Open the paragraph dialogue box and change to 0 pt. in the Spacing Before and After window.

6. Your work should look like the example on the next page. However, the distance between the sub-title and the first paragraph was also removed.

7. Highlight the sub-title and all the paragraphs.
8. Open the paragraph dialogue box. Change the Spacing After to 6 pt.

**C. Margins**

Margins are set to make your document stand on paper when you print it. You have learned to do this in Lesson 9. Review your previous lesson and change the margin of your document. Follow the steps on how to apply margins to your document.

1. Click the Margins icon in the Page Layout ribbon.

2. There are pre-set margins available. Choose **Normal** to automatically set your margins.

**Step 4: Storing**

1. Save your work as **Book Review**
2. Save a copy of your work to your flash drive.

**Step 5: Printing**

1. Print your work.

**Activity 1: Apply format to your report.**

1. In a new blank document, type the following text.

Once bitten, twice shy

The importance of preventing malaria in PNG

In tropical environments like Papua New Guinea, diseases carried by mosquitoes are rife and for foreigners with little to no immunity, just one bite can turn into a life-threatening illness.

We have responded to a number of fatalities and life threatening medical evacuations of foreign workers due to malaria and other vector-borne diseases.

Poor pre-travel advice, not taking anti-malarial medication, a lack of control programs on sites and inadequate diagnostic and treatment capabilities are contributing to these unwanted and avoidable events.

The cost to companies of proper preparation for employees travelling to areas where malaria is endemic, compared to expensive medical evacuations, is minimal. Workers have as much responsibility in protecting themselves from being bitten by mosquitoes as companies do in reducing risk exposure and the company's own liability.

Malaria is more common in rural areas than in cities; this is in contrast to dengue fever, where urban areas present the greater risk.

The planning for malaria control programs should begin during the feasibility stages of a project and be implemented during the site clearance and early mobilisation stages. The frequency of mosquito-borne diseases risk increases during a construction project because modification of the environment frequently changes the habitat in which the vector breeds. Under new favourable environmental conditions the populations of the mosquito vectors could increase in size very quickly. The influx of people into a construction area such as a new mine site may also play a role as it places an increased burden on limited services.

If companies want to make a real difference to the incidence of vector-borne illness on their projects, compliance policies should be in place and enforced to ensure appropriate bite prevention behaviours are followed and preventive medicines are used appropriately. Despite best efforts in vector control, bites may still occur and so early diagnostic and treatment facilities must be available on site because timing is crucial to successful outcomes. Emergency malaria survival treatment kits may need to be available to employees where medical staff may not be present.

Individuals need to be aware of how to protect themselves. While mosquitoes behave differently depending on where they are found, generic interventions such as covering up during biting periods, using insecticide-treated bed nets and residual spraying of buildings can make a big difference to disease transmission. Expatriate staff should also understand which anti-malarial medication options are available and ensure they take prescribed medicines as instructed.

Recognising the early symptoms and knowing how to seek treatment can be the difference between life and death for someone who has contracted malaria, dengue fever or another vector-borne illness.

The early symptoms of malaria mimic illnesses and include headache, fever, muscular pain, chills and sweats.

Other infectious diseases reduce worker productivity and need to be managed proactively through pre-employment screening, environmental management and early treatment programs. Amongst these is tuberculosis. Ensuring clean water and sanitation programs, proper pre-employment screening of employees and extended public health activities around the work site can mitigate many risks successfully.

Our experience is that many cases of medical evacuation relate to pre-existing conditions of expatriate staff. Many of these can be identified during pre-employment and pre-departure screening programs. Furthermore, proper preparation is a duty of care which is now an industry standard.

About the author

Dr. Dick Hooper is the regional medical director of medical services at International SOS, Australasia. He studied medicine at Cambridge University and has extensive experience in developing and managing complex health systems in multinational and multicultural environments across the governmental, NGO and oil sectors.

2. Do a Spelling and Grammar check.
3. Format your report. Use your own style to change the following: Font type, style, size and colour.
4. Use a different style for the title and subtitle. Make it stand out in your document.
5. Use a different style for the information about the author. Use different format to make it different from the rest of the document.
6. You may decrease or increase the spacing and line spacing between paragraphs.
7. Set 2 cm hanging indents tab for the first line of each paragraph.
8. Save your work as **Malaria Report**.
9. Print your work.

---

Thank you for completing this activity. In this activity you have learned how to apply different font formats to your text using the ribbon and dialogue box. Try to do the task again without opening your handbook. Compare your work with the output provided at the end of this lesson.

---

You have come to the end of Lesson 20. In this lesson you are now using things that you have learned to an actual document. You have also revised on previous lesson such as setting your Margins and changing your Paragraph Line Spacing.

---

**NOW DO PRACTICE EXERCISE 20 ON THE NEXT PAGE.**

**Practice Exercise 20**

- A. The word “Papua new guinea” was typed using a word processing program. Identify 5 changes done to Figure 1 to make it appear like Figure 2.

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_

B. Apply changes to a document.

1. Type the following text.

Piping Hot Goodness  
On a cold night, he pulled out all the stops for us.

Late one afternoon, I noticed a leak coming from our hot water system. I turned off the water and found the broken part. My partner and I took it to the local plumbing supplies shop, getting there just before it closed.

We hadn't been there before but the manager, John, was very helpful in finding the part for us. However, he did express some concern at the late hour, because if anything went wrong the shop would be closed. So he gave us his telephone number and said we could ring him if we had any problems with the parts.

—No worries,” I said confidently. —I'm sure we'll be OK. But thanks anyway.” And I took his proffered card.

Well sure enough, the part did not fit properly and we were faced with a cold night and early morning without any hot water.

Feeling a bit embarrassed at my previous cockiness, I called John and explained the situation. —No worries,” he said. (Now where had I heard that before?) —I'll meet you at the shop in five minutes.”

He showed no hint of being put out and found the right parts for me, saying I could call in tomorrow to pay for them.

John went above and beyond the call of duty for us. As far as he was concerned, his job was to show us the kindness he obviously shows to everyone he meets

## ONCE BITTEN, TWICE SHY

*The importance of preventing malaria in PNG*

By DR. DRICK HOGOMER

In tropical environments like Papua New Guinea, diseases carried by mosquitoes are rife and for foreigners with little to no immunity, just one bite can turn into a life-threatening illness.

We have responded to a number of fatalities and life threatening medical evacuations of foreign workers due to malaria and other vector-borne diseases. Poor pre-travel advice, not taking anti-malarial medication, a lack of control programs on sites and inadequate diagnostic and treatment capabilities are contributing to these unwanted and avoidable events.

The cost to companies of proper preparation for employees travelling to areas where malaria is endemic, compared to expensive medical evacuations, is minimal. Workers have as much responsibility in protecting themselves from being bitten by mosquitoes as companies do in reducing risk exposure and the company's own liability.

Malaria is more common in rural areas than in cities; this is in contrast to dengue fever, where urban areas present the greater risk.

The planning for malaria control programs should begin during the feasibility stages of a project and be implemented during the site clearance and early mobilisation stages. The frequency of mosquito-borne diseases risk increases during a construction project because modification of the environment frequently changes the habitat in which the vector breeds. Under new favourable environmental

conditions the populations of the mosquito vectors could increase in size very quickly. The influx of people into a construction area such as a new mine site may also play a role as it places an increased burden on limited services.

If companies want to make a real difference to the incidence of vector-borne illness on their projects, compliance policies should be in place and enforced to ensure appropriate bite prevention behaviours are followed and preventive medicines are used appropriately. Despite best efforts in vector control, bites may still occur and so early diagnostic and treatment facilities must be available on site because timing is crucial to successful outcomes. Emergency malaria survival treatment kits may need to be available to employees where medical staff may not be present.

Individuals need to be aware of how to protect themselves. While mosquitoes behave differently depending on where they are found, generic interventions such as covering up during biting periods, using insecticide-treated bed nets and residual spraying of buildings can make a big difference to disease transmission. Expatriate staff should also understand which anti-malarial medication options are available and ensure they take prescribed medicines as instructed.

Recognising the early symptoms and knowing how to seek treatment can be the difference between life and death for someone who has contracted malaria, dengue fever or another vector-borne illness.

The early symptoms of malaria mimic illnesses and include headache, fever, muscular pain, chills and sweats.

Other infectious diseases reduce worker productivity and need to be managed proactively through pre-employment screening, environmental

management and early treatment programs. Amongst these are tuberculosis. Ensuring clean water and sanitation programs, proper pre-employment screening of employees and extended public health activities around the work site can mitigate many risks successfully.

Our experience is that many cases of medical evacuation relate to pre-existing conditions of expatriate staff. Many of these can be identified during pre-employment and pre-departure screening programs. Furthermore, proper preparation is a duty of care which is now an industry standard.

He studied medicine at Cambridge University and has extensive experience in developing and managing complex health systems in multinational and multicultural environments across the governmental, NGO and oil sectors.

## Lesson 21: Using Word Processor in Writing Letters

---

Welcome to Lesson 21 of Unit 2. In Lesson 20 you have learned to use word processing to format a written report. In this lesson you will use a word processor to write and format letters. You will also apply different formatting skills you have learned from previous lesson to enhance the appearance of your text.

### Your Aims:

- generate letters using word processing
- identify the importance of citing resources

---

### The Components of a Written Letter

There are different types of letters that you could write depending on the purpose. Some write letters to correspond, express their opinion, to look for a job, or for a number of different reasons.

When writing a job application letter, your letter should contain particular details about you in your application letter. Each paragraph has a purpose and will contain specific information. The following are some of the needed information.

- A. Your name and address
- B. The date line
- C. The inside address and attention line, if you use one
- D. The salutation
- E. The opening
- F. The body of information
- G. The close

### Step 1: Create a document.

Type the following letter taken from Post Courier You Tok section on March 28, 2013. It is a written by K. Koya of Ialibu, SHP expressing his/her opinion about the poor condition of the roads in Port Moresby.

#### **Re: Poor City Road Give a Bad Impression**

Port Moresby, our capital, is not a city by all facets. In fact, it is a small town by international standards.

It is a puny town that, in my view, should have been easily developed into a vibrant and modern capital city of PNG in less than ten years given there was focused and innovative planning, designing and development. PNG is a powerfully rich nation given its very rich natural resources base and therefore its capital city must be built to reflect and showcase what is worth.

The first and most fundamental infrastructure development priority that the city planners and authorities should focus on is the development of quality and compatible road network system. There is virtually nothing to showcase at present.

Year after year, Port Moresby's road conditions are amongst the worse in the world. It is sickening to see pothole after pothole in almost all sections of the city roads.

Can the national government intervene and assist the NCDC address the road issue or simply do away with this quasi city government- the NCDC and give the function of city road management to the PNGDF Engineering Battalion?

Where is the common sense or national pride? You can't conduct business in Port Moresby when roads are a headache.

And the government should stop inviting all foreign Heads of State and important dignitaries to Port Moresby and PNG when the ugly condition of the nation's capital road and all other road in the country give a very negative and ugly message about the type of leadership culture in this country.

If the roads in a small town like Port Moresby cannot be managed efficiently with the focus on quality, it speaks great volumes of a much deeper national problem. That is, we have a very serious leadership problem that will seriously haunt meaning development in PNG. This is a sad fact.

When leaders dine and wine in a palace of complacency despite human and economic threats surrounding them and the nation, then one must know that the sense of responsibility and national development vision at the leadership level is as good as dead.

The nation's only hope is our Prime Minister. He has so far demonstrated decisive and exemplary leadership and I urge him to look into this particular issue.

K. Koya  
Ialibu, SHP

### Step 2: Editing document

The letter you typed is incomplete. Let us pretend that you are the writer of the letter. Complete the letter by adding its missing features. Follow the steps on how to edit your document.

1. Insert the following text at the beginning of the letter.

K. Koya  
P.O. Box 1234  
Southern Highlands Province  
Papua New Guinea  
28 March, 2013  
Letter to the Editor  
P.O. Box 85  
National Capital District Port Moresby  
RE: Poor city road give a bad impression

2. Your work should look like the example below.

|                                          |
|------------------------------------------|
| K. Koya                                  |
| P.O. Box 1234                            |
| Southern Highlands Province              |
| Papua New Guinea                         |
| 28 March, 2013                           |
| Letter to the Editor                     |
| P.O. Box 85                              |
| National Capital District Port Moresby   |
| RE: Poor city road give a bad impression |

3. Save changes to your work.

### Step 3: Formatting document

Use the table below to edit your document. You may also use the example at the next page as guide when editing your work. Follow the steps on how to format your document.

|                                                                                                                           |                                                                                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Font<br>Type<br>Style<br>Size                                                                                             | Use default<br>Use example as guide<br>Use default                                                                                                     |
| Alignment<br>Title<br>Paragraph<br>Date                                                                                   | Centre<br>Justified<br>Right                                                                                                                           |
| Setting Tabs<br>Address of the Writer<br>Address of the receiver                                                          | 10 cm<br>None                                                                                                                                          |
| Indentions to your paragraphs                                                                                             | First line                                                                                                                                             |
| Line spacing<br>Name and address of writer<br>Name and address of receiver<br>Paragraphs<br>Name of writer and salutation | Single, 0 pts. before and after<br>Single, 0 pts. before and after<br>Single, 0 pts. before and 6 pts. after<br>Single, 0 pts. before and 6 pts. after |
| Change margins                                                                                                            | Normal                                                                                                                                                 |
| Use spell checker                                                                                                         | As needed                                                                                                                                              |

### Step 4: Storing

1. Save your work as **City Road**

**Step 5: Printing**

1. Print a copy of your work. Your work should look like the example at the next page.

Box 85<br>National Capital District Port Moresby<br>Papua New Guinea                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                             |
| <u>RE: Poor city road give a bad impression</u>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                             |
| <p>Port Moresby, our capital, is not a city by all facets. In fact, it is a small town by international standards.</p> <p>It is a puny town that, in my view, should have been easily developed into a vibrant and modern capital city of PNG in less than ten years given there was focused and innovative planning, designing and development. PNG is a powerfully rich nation given its very rich natural resources base and therefore its capital city must be built to reflect and showcase what is worth. The first and most fundamental infrastructure development priority that the city planners and authorities should focus on is the development of quality and compatible road network system. There is virtually nothing to showcase at present.</p> <p>Year after year, Port Moresby's road conditions are amongst the worse in the world. It is sickening to see pothole after pothole in almost all sections of the city roads.</p> <p>Can the national government intervene and assist the NCDC address the road issue or simply do away with this quasi city government- the NCDC and give the function of city road management to the PNGDF Engineering Battalion?</p> <p>Where is the common sense or national pride? You can't conduct business in Port Moresby when roads are a headache.</p> <p>And the government should stop inviting all foreign Heads of State and important dignitaries to Port Moresby and PNG when the ugly condition of the nation's capital road and all other road in the country give a very negative and ugly message about the type of leadership culture in this country.</p> <p>If the roads in a small town like Port Moresby cannot be managed efficiently with the focus on quality, it speaks great volumes of a much deeper national problem. That is, we have a very serious leadership problem that will seriously haunt meaning development in PNG. This is a sad fact.</p> <p>When leaders dine and wine in a palace of complacency despite human and economic threats surrounding them and the nation, then one must know that the sense of responsibility and national development vision at the leadership level is as good as dead.</p> <p>The nation's only hope is our Prime Minister. He has so far demonstrated decisive and exemplary leadership and I urge him to look into this particular issue.</p> <p>Concerned citizen,</p> <p>K. Koya<br/>Jalibu, SHP</p> |                                                                             |

**Activity 1: Write a business letter.**

1. Type the application letter as it is set. This letter was taken from the book Job Applications: The Winning Edge

3 September 20--

Mr. Michael Wright

Manager

Beaut Motors

2 Dirranbandi Road

IPSWICH QLD 4305

Dear Mr Wright

Assistant Mechanic. I am applying for the Assistant Mechanic position with Beaut Motors, advertised in the Western Contact on 2 September 20--. I believe I have the necessary qualifications and experience to meet your requirements. As my resume shows, I have a Certificate in Motor Maintenance from Dunhill Technical College and I am currently completing a Diploma in Motor Mechanisms. I look forward to hearing from you regarding an interview. My afterhours telephone number is 10 1234. At present, I am working as a mechanic for Daily Car Usage, specialising in Mitsubishi cars. I have a thorough knowledge of motor mechanics and desire to diversify into Executive cars.

Yours sincerely, Philip Cross

Philip Cross

23 Kangaroo Street

ROSEWOOD QLD 4340

2. Save your work as **Application letter draft 1**. If you are Mr. Wright, would you consider hiring someone who wrote this type of letter? Edit your letter. Use the skills you learned in Lesson 14 to Cut and Paste your text and paragraphs. Use example below as guide.

Dear Mr Wright

**ASSISTANT MECHANIC**

I am applying for the Assistant Mechanic position with Beaut Motors, advertised in the Western Contact on 2 September 20—.

I believe I have the necessary qualifications and experience to meet your requirements.

As my resume shows, I have a Certificate in Motor Maintenance from Dunhill Technical College and I am currently completing a Diploma in Motor Mechanisms.

At present, I am working as a mechanic for Daily Car Usage, specialising in Mitsubishi cars. I have a thorough knowledge of motor mechanics and desire to diversify into Executive cars.

I look forward to hearing from you regarding an interview. My after hours telephone number is 10 1234.

Yours sincerely,

Philip Cross

3. Do not forget to use Spelling Check in your document.
4. There are many styles you can use to write your letter. Use the table below as guide. Write the type of formats you used for document. You may use all or some of the suggested changes to your letter.

|                                                                                                                           |  |
|---------------------------------------------------------------------------------------------------------------------------|--|
| Font (Type, Style, Size )                                                                                                 |  |
| Alignment (Title, Paragraph, Date)                                                                                        |  |
| Setting Tabs<br>Address of the Writer<br>Address of the receiver                                                          |  |
| Indentions of your paragraphs                                                                                             |  |
| Line spacing<br>Name and address of writer<br>Name and address of receiver<br>Paragraphs<br>Name of writer and salutation |  |
| Margins                                                                                                                   |  |
| Use spell checker                                                                                                         |  |

5. Save your work and print.

---

Thank you for completing this activity. In this activity you have learned how to apply different font format to your text using the ribbon and dialogue box. Try to do the task again without opening your handbook. Compare your work with the output provided at the end of this lesson.

---

You have come to the end of Lesson 21. You have applied skills you learned from previous lesson to compose, edit, save and print your letter.

---

**NOW DO PRACTICE EXERCISE 21 ON THE NEXT PAGE**

## Practice Exercise 21

---

**A. A sample letter is given below. Label the parts according to the different components of a letter.**

- Your name and address
- The date line
- The inside address and attention line
- The salutation
- The opening
- The body of information
- The close

17 September 20—

Mr. Micheal Mea  
Human Resource Management  
Lahara Marketers Ltd.  
P.O. Box 1955 Waigani

Dear Mr Mea,

I am applying for the part time sales position advertised on The National newspaper dated 15 September 20—. I have completed Grade 12 at Gordons Secondary School and awaiting my national exam results. My intention is to gain experience in sales while waiting for the result to arrive.

Although I do not have any experience in sales, I think I have what it takes to be a good sales person because of my people skills and willingness to learn.

I enclose my curriculum vitae, which covers my personal background.

On a personal level, I am self-motivated and very reliable.

I look forward to hearing from you about an interview. My telephone number is 7890-78564

Yours sincerely,

Mary Kila (Miss)

**B. Using a blank document, type the sample letter written above. Use your own style to:**

1. Apply formats to your text.
2. Change alignment of paragraph.
3. Use indentions (as needed).
4. Save and print your work.

---

**CHECK YOUR ANSWERS AT THE END OF TOPIC 4**

---

**Answer to Activity 1**

1. The letter below is just a sample of how your edited letter could look like.
2. Your work may differ from the example below.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

## Lesson 22: Using Word Processor in Creating a Resume

---

Welcome to Lesson 22 of Unit 2. In Lesson 21 you have learned to format a formal letter. In this lesson you will use a word processor to write your curriculum vitae. You will also apply different formatting skills and insert graphics to your CV to improve the appearance of your document.

### Your Aims:

- create a resume using word processing
- identify the benefits of using word processor in creating a resume
- identify the importance of citing resources

---

### Presenting Your Resume

Your resume (also known as curriculum vitae) is a summary of your personal information, background, experiences, skills and qualification.

The word Resume is usually used by people in the academic, management or technical fields and it is used by anybody looking for a job.

Your resume is a document that will inform your potential employer of who you are therefore it should make a positive impact. It needs to be precise, clear and accurate. It contains main and optional sections.

#### A. Main Sections:

- Personal details
- Educational background
- Work history
- Interests
- Other information
- Names of referees

#### B. Optional Sections

- Marital status
- Number of children
- Special skills
- Memberships of groups, professional bodies and societies

**Step 1: Creating a document**

1. Type the example of a resume on the next page taken from the book Job Applications: The Winning Edge.

## Step 2: Editing your document

1. Use the spell check to correct any typing mistakes you have made.

**Step 3: Formatting Your Document**

A. Follow the steps below on how to change the **Page Setup** of your document.

1. Apply the following page setup to your document. Change the margins of your document to **Normal**. You have learned to change margins in Lesson 9.
2. Make sure that your paper size is A4. You can check this by clicking **Size** in the Page Layout ribbon and choosing **A4**. See the picture of setting paper size to A4 on the next page.

B. Follow the steps below to change the **Spacing and Line Spacing** of your paragraphs.

1. Press **Ctrl + A** in the keyboard to highlight the entire paragraph.
2. Change the Line spacing to **Single** and **0** for the Spacing Before and After. If you have forgotten how to do this, go back to Lesson 9.
3. Line spacing is now removed making the paragraphs close together. Use Enter from the keyboard to group the related information. Use the example on the next page to separate texts.

| <b>MARY KINK</b><br>November 20—                                                                                                                      |

E. Follow the steps below to **Change Case of** your text.

1. Change all the name of the referees to Upper Case. If you have forgotten to do this, go back to Lesson 10.

#### Step 4: Storing

1. Save your work as **Mary Kink Resume**

#### Step 5: Printing

1. Print your work.

### Activity 1: Create your own resume

1. Open Mary Kink Resume and save this document as **My Resume Draft**.
2. Replace the information of Mary Kink with your own personal data.
3. You may remove, replace or add any sections of the resume depending on your requirement.
4. Change any formats you have applied to this document to your own personal style.
5. Save your work.

---

## Inserting Graphics

We have created and format your own resume. We can still improve this by inserting graphics to your resume.

One thing that will make your resume stand out is by inserting your own photo in your resume. Before you could do this you must first have your photo taken using a digital camera or have your scanned photo saved in your computer. Follow the steps on how to insert graphics to your document.

1. In the Insert ribbon, click Picture. This will automatically go to the Pictures library. This is the place where photos are usually stored in your computer. If your photo is not saved here, you need to locate it using the picture dialogue box.

2. On the left side of your screen displays the different locations where your picture may be saved. Select the location of your picture.

3. Choose the name of image file and click Insert. Notice that the photo inserted contains not just a single face. Let us separate your photo from the rest of the people there.
4. Select your photo. The handles at the sides of your image will appear. Refer to Lesson 17 on using objects.

5. Upon clicking the object, observe how your ribbon changed the contents. The Picture tools ribbon will appear.
6. Click the Crop icon located at the right side of the ribbon.

Observe how the handle changed its appearance.

7. Move your mouse pointer at the middle handle. Observe how the mouse changes shape. Click, hold and drag the mouse to remove any excess photo.

8. Do the same thing for the next three sides until only your photo remains.
9. Click anywhere outside. This will display your cropped image.
10. Resize your object. Refer to Lesson 17 on how to resize graphics.
11. Click hold and drag your object to the Page 1 of your document. Observe how your object does not move so easily.
12. Position your mouse pointer in the graphics and right-click the mouse. The pop-up menu will appear.

13. Choose **Wrap Text** and click **Square**. Now try moving your object.
14. You have learned to cut and paste text. This time, we will use it in our object. Right click the object and choose **Cut**.
15. Position your cursor where your name is. Right click the mouse and choose **Paste**

16. Click, hold and drag the mouse to move your object at the right side of your screen. Then release the mouse button.
17. Resize the object as needed. You have learned to do this in Lesson 17.

|                                                       | History                                     |                                                                                     |
|                                                       | Geography                                   |                                                                                     |
|                                                       | Biology                                     |                                                                                     |
| <i>Please note that, to date I am waiting results</i> |                                             |                                                                                     |

18. If your picture does not need to be cropped, just follow steps 1-3

## Activity 2: Inserting Headers, Footers and Pagination

1. Make sure that **My Resume Draft** is open.
2. In the **Insert** ribbon, choose **Footer**. The different styles of footer will appear.

3. Scroll down and choose Alphabet. The footer will be inserted in your document.

4. In the **[Type text]** area, type Mary Kirk.

5. Scroll down to the second page of your document. Notice that your second page now contains the same name and Page 2.

6. Save your work as **My Resume Final**
7. Print your work.

Thank you for completing this activity. In this activity you have learned how to apply different font formats to your text using the ribbon and dialogue box. Try to do the task again without opening your handbook. Compare your work with the output provided at the end of this lesson.

---

## Summary

You have reached the end of Lesson 22. In this lesson you have successfully applied some of the skills you have learned from previous lesson. You have also learned how to insert object and crop the image to make it suitable for your document.

---

**NOW DO PRACTICE EXERCISE 22 ON THE NEXT PAGE**

## Practice Exercise 22

### A. Identify the parts of the resume.

1. Label the parts of the given resume

Name: **MARY KINE**

Address: 12 Lost Angeles Street  
HAWTHORN VIC 3122

Date of Birth: 22 June 20—

Telephone number: (03) 893 0101

### **Educational Background**

#### Secondary Education

Feb 20— Mount Evelyn College  
Dec 20— VCE (Victorian Certificate of Education)  
Subjects studied:  
English  
English Literature  
Mathematics A  
History  
Geography  
Biology

*Please note that, to date I am waiting results*

### **Work Experience**

#### Vacation and Temporary Employment

1993 Australian Fashions – Sales  
Part-time employment  
Duties  
Assisting customers  
Replenishing customers  
Store liaison

2009 – 2010 DB Promotions – Trainee Sales Promotion  
Vacation employment  
Duties  
Presentation of products to groups  
Customer contract  
Bookkeeping

#### **Extra-curricular activities**

Netball team member, Hawthorn Netballers

**Hobbies and Interests**

## Lesson 23: Using Word Processor in Creating a Formal Report

Welcome to Lesson 23. In Lesson 22 you have typed and format your own resume. In this lesson you will use a word processor to write a formal report. You will also apply different formatting skills you have learned from previous lesson to enhance the appearance of your text.

### Your Aims:

- create a formal report using word processing
- identify the benefits of using the word processor in creating a formal report
- identify the importance of citing resources

### Report

A report is a factual document that conveys information about a particular subject. It usually begins with a definition, followed by an ordered number of points. A report uses the present tense and sometimes uses technical language. The topic is referred to frequently in the course of the report. It is sometimes referred to as information reports because they provide information on a particular subject.

### Steps in Writing a Formal Report

In the course of your study, you will be asked to write reports based on researches in the subjects you are taking. Creating and writing it in an electronic format is what you will learn in this lesson. Some guidelines will be given to help you write your report. Follow the steps on how to write a report.

1. Narrow your topic. To begin writing your research paper, first think of a topic that you can explore thoroughly. The topic should not be too broad, that you cannot cover it by writing only generalities. It should not be so narrow that you cannot find adequate resources. If the topic is too narrow, first pick a general topic that interests you. Then select a sub-topic that will go under the general topic. Look at the illustration below to understand what we have discussed.

2. Survey your topic and formulate your controlling idea. Do some pre-reading to survey your library resources to determine whether you will be able to find adequate resources.
3. Evaluate your topic.
4. Take note of your resources.
5. Evaluate your sources. Be aware of the kinds of sources you are using. Ideally, your sources should have a combination of primary sources (or firsthand information) and secondary sources (books, encyclopaedias, magazine article).
6. Create an outline of your research paper.
7. Write your first draft.
8. Evaluate and Revise your draft.
9. Re-write and create your report paper. Your paper may go through a series of changes before you can create your final paper.

**Step 1: Write your document**

You can use the Steps in Writing a Formal Report to write your own document. But for the purpose of our exercise, a sample report is given to start our exercise.

1. Type the text. Do not worry about the spelling and format of the document. You can do that later.

**Colour Psychology Paper**

Research Question:  
How does colour affects one's mood?

**Review of Literature**

Colours may just seem simple and unimportant, but they affect our daily lives more than we may know. If someone is feeling angry, it could just be because they're angry or it could be perhaps that they are surrounded by or looking at the colour red. That's right! People's moods can change just because they are looking at different colours! There are many theories on how just a simple colour can change one's whole mood.

According to Johnson (2007), colour does affect mood by producing certain chemicals and stimulating different feelings such as hunger. For example, blue can make one feel calm just because it releases calming chemicals, and red can make one hungry because it is an appetite stimulant. Yellow can make one feel irritated, and it is a fact that people lose their temper most in yellow rooms. However, pink is tranquilizing and can make one feel weak. In conclusion, Johnson says that depending on the colour, one's body can do things (like producing chemicals) that cause a certain emotional reaction (mad, sad, etc.)

**Analysis:**

There are three ideas about colour psychology in these sources, and they all say that colour affects one's mood. They differ based on what factors influence the effects of colour, such as culture, opinion and what goes on inside one's body. One of the three ideas is that colour affects moods based on one's personal opinion.

**Methodology:**

In order to test ideas about how colour affects one's mood (colour psychology), this researcher will test sixty middle school students (30 boys and 30 girls) on how the colours green, blue, black, yellow, red, pink, and brown make them feel. The students will mark the feeling that each colour makes them feel, according to the choices shown on the example survey below.

**Example Survey:**

(The only thing that changes in each different survey is the colour being tested and the gender of the students responding):

Mad/Angry?  
Sad/Depressed/Cold?  
Secure/Safe  
Irritated/Annoyed?  
Calm?  
Relaxed?  
Fun/Exited?  
Happy/Cheery?  
Tired/Sleepy/Drowsy?  
Bored?  
Losing Energy/Weak?  
Neutral/Balanced?  
Love/Affection?  
Dislike/Hate?

**Survey results:**

Most female middle school students associated these feelings with these colours...

Source: [readwritethink.org](http://readwritethink.org)

---

**Insert table**

Notice that the information in the survey report is unorganized. Using a table makes the report to be easily understood. Follow the steps below on how to insert a table to a document.

1. In the Insert ribbon, click Table.

2. From the table grid, highlight and choose 7 x 2.

The rows and columns will be inserted in your document.

Survey results:

Most female middle school students associated these feelings with these colors...

|  |  |  |  |  |  |  |
|--|--|--|--|--|--|--|
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |

3. Type the following information inside your table

| Black                            | Green                         | Yellow                 | Pink                                                  | Brown          | Red                                               | Blue          |
|----------------------------------|-------------------------------|------------------------|-------------------------------------------------------|----------------|---------------------------------------------------|---------------|
| Sad/Cold/<br>Depressing<br>(43%) | Neutral/<br>Balanced<br>(27%) | Happy/Cheery?<br>(53%) | Happy/Cheery?<br>(27%) and<br>Love/Affection<br>(27%) | Bored<br>(43%) | Mad/Angry<br>(30%) and<br>Love/Affection<br>(30%) | Calm<br>(23%) |

4. At the next line under your table, type the following text.

Most male middle school students associated these feelings with these colors...

5. Move your mouse pointer to the upper left side of your table and click the symbol that appears. This will select the entire table

6. Copy the table using the skills that you have learned in Unit 2 Lesson 14 of Grade 9 Design and Technology – Computing lesson.

| Black                            | Green                         | Yellow                 | Pink                                                  | Brown          | Red                                               | Blue          |
|----------------------------------|-------------------------------|------------------------|-------------------------------------------------------|----------------|---------------------------------------------------|---------------|
| Sad/Cold/<br>Depressing<br>(43%) | Neutral/<br>Balanced<br>(27%) | Happy/Cheery?<br>(53%) | Happy/Cheery?<br>(27%) and<br>Love/Affection<br>(27%) | Bored<br>(43%) | Mad/Angry<br>(30%) and<br>Love/Affection<br>(30%) | Calm<br>(23%) |

7. Paste your table after the text you just typed. Your work should look like the example on the next page.

| Black                            | Green                         | Yellow                 | Pink                                                  | Brown          | Red                                               | Blue          |
|----------------------------------|-------------------------------|------------------------|-------------------------------------------------------|----------------|---------------------------------------------------|---------------|
| Sad/Cold/<br>Depressing<br>(43%) | Neutral/<br>Balanced<br>(27%) | Happy/Cheery?<br>(53%) | Happy/Cheery?<br>(27%) and<br>Love/Affection<br>(27%) | Bored<br>(43%) | Mad/Angry<br>(30%) and<br>Love/Affection<br>(30%) | Calm<br>(23%) |

Most male middle school students associated these feelings with these colors...

| Black                            | Green                         | Yellow                 | Pink                                                  | Brown          | Red                                               | Blue          |
|----------------------------------|-------------------------------|------------------------|-------------------------------------------------------|----------------|---------------------------------------------------|---------------|
| Sad/Cold/<br>Depressing<br>(43%) | Neutral/<br>Balanced<br>(27%) | Happy/Cheery?<br>(53%) | Happy/Cheery?<br>(27%) and<br>Love/Affection<br>(27%) | Bored<br>(43%) | Mad/Angry<br>(30%) and<br>Love/Affection<br>(30%) | Calm<br>(23%) |

8. Change the text written inside the second table. Use the illustration below to fill up your table.

| Black                            | Green                    | Yellow                 | Pink                    | Brown          | Red                | Blue             |
|----------------------------------|--------------------------|------------------------|-------------------------|----------------|--------------------|------------------|
| Sad/Cold/<br>Depressing<br>(37%) | Secure/<br>Safe<br>(27%) | Happy/Cheery?<br>(17%) | Love/Affection<br>(33%) | Bored<br>(20%) | Mad/Angry<br>(27%) | Relaxed<br>(23%) |

9. Continue typing the rest of the document.

#### Conclusion:

Colour does affect one's mood, but it can affect boys and girls differently. For example, while most female middle school students found green neutral and balancing, most middle school students found it secure and safe. However, there are also some similarities between the female and male middle school students. For example, most female middle school students thought that brown made them feel bored, and so did the male middle school students! Also, both found that pink made them feel love and affection. However, some results in this study were different from the research cited. For example, the research stated that brown would make boys and girls feel secure and safe, but instead it made them feel bored.

Furthermore, the research said that yellow would make boys and girls feel irritated, but most boys and girls reported that it made them feel happy and cheery. Overall, most of the results were different from the research sources consulted. In any case, it is obvious that colours have a great effect on one's mood.

10. As you type your references, the Internet address of your reference will automatically change to blue and will be underlined. This is normal. Just continue typing.

Wollard, K. (2000). Orange you glad you're not blue? Retrieved October 19, 2007, from <http://wf2la6.webfeat.org>

## Step 2: Editing

1. Use Find and Replace to change spelling of the word "colour" to "color". If you forgot how to do this go back to Lesson 16.
2. Use spell check to correct spelling error.

## Step 3: Format the document

1. Change the Margins of the document
  - Top and Bottom : 2.5 cm
  - Left and Right : 2 cm
2. Format font to your own style. You might have to change the font size for the table to make it fit in your document.
3. Change the alignment as needed
4. Apply indentation to paragraphs. Use your own style to indent.
5. Use Double space for line spacing for the paragraphs, except the table and reference
6. Click the Header icon located in the Insert ribbon.

7. In the Header area type —**Colour Psychology Paper**”.
8. Tick the **Different First Page** in the Header and Footer tools. The word Colour Psychology will disappear from the header.

9. Scroll down to the second page. The header should be there.

10. Scroll down to the Footer area and click the Page Number.
11. Choose Bottom of Page and from the sub-menu choose Plain Number 2

12. The number will be displayed on your document.
13. Click anywhere outside the header and footer to return to normal view.

#### Step 4: Storing

1. Save your work as **Colour Psychology**

**Step 5: Printing**

1. Print all pages of your document. Your work should look like the example at the succeeding pages.
- 

**Activity 1: Follow instructions to format document.**

1. Make sure that Colour Psychology document is still open.
2. Take note of the following formats on Page 1
  - a. Text effects were used for the title of the formal paper.
  - b. Sub-topics were in Bold font style.
  - c. The first line of the paragraph is indented.
  - d. Double space was used for the line spacing.
  - e. No header or footer on the first page.
  - f. The alignment for the title is centre and the paragraphs are justified.
3. Take note of the following formats on Page 2
  - a. Sub-topics were in Bold font style.
  - b. The first line of the paragraph is indented.
  - c. Double space was used for the line spacing.
  - d. Header and footer are on the second page.
  - e. The alignment for the paragraph is justified.
4. Take note of the following formats on Page 3
  - a. Sub-topics were in Bold font style.
  - b. The first line of the paragraph is indented.
  - c. Double space was used for the line spacing.
  - d. Header and footer are on the third page.
  - e. The alignment for paragraph is justified.
  - f. The table should be adjusted to fit the width of the paper.
5. Take note of the following formats on Page 4
  - a. Sub-topics were in Bold font style.
  - b. Header and footer are on the fourth page.
  - c. The alignment for paragraph is left.
  - d. The line space is single.
  - e. The indention is special hanging.
  - f. The electronic source is in blue and underlined.

## Summary

You have come to the end of Lesson 23. In this lesson, you have learned to apply all the skills you have previously learned from previous lessons. In particular you have created table, inserted header, footer and pagination to your document.

---

**NOW DO PRACTICE EXERCISE 23 ON THE NEXT PAGE**

## Practice Exercise 23

- A. Answer the question using the illustration. Write your answers on the spaces provided.

- \_\_\_\_\_ 1. What is the font size used for the paragraph?
- \_\_\_\_\_ 2. What case was used for the title of the document?
- \_\_\_\_\_ 3. What font style was used in the paragraph?
- \_\_\_\_\_ 4. What alignment was used in the paragraph?
- \_\_\_\_\_ 5. What alignment was used in the title of the document?
- \_\_\_\_\_ 6. What type of indentation was used in the paragraph?

- B. True or False: Write True if the statement is correct and False if it is incorrect on the space provided.

- \_\_\_\_\_ 1. The page number is located in the footer.
- \_\_\_\_\_ 2. The word —BIRD OF PARADISE” used text effect.
- \_\_\_\_\_ 3. The paragraph used a hanging indentation.
- \_\_\_\_\_ 4. The paragraph is using the underline style.

- C. Format the given document according your own preference.

1. Type the following text as it is set.

The following is a short information report on the use of computers by students in schools. It is a result of a survey done by a Year 9 computer user group.

1. Students frequently use computers at school even if they do not have access to them at home
2. Most frequent use is during computer-designated lessons or casual use at lunchtime in computer labs.
3. Many students use computers for games but a growing number see them as a strong aid to their study and gathering of information from sources such as the Internet or email contacts.
4. A number of students have expanded their interests and friendships through on-line chat rooms, which they access while at school. A larger number have increased contact with overseas students through email, and students of foreign languages are finding this particularly useful.
5. With government investment in computers in school it is assumed that use will increase.
6. Many students are well ahead of their parents and grandparents in the understanding and use of computers.

The report found that computer use by students for both study and social activity is common and on the increase in high schools.

2. Write down details of the editing styles that you used to change your document. Use the space provided or add more as needed.

|                             |

## Answer to Activity 1

## COLOR PSYCHOLOGY PAPER

Research Question:

Sub-topics

Centre aligned

How does color affects one's mood?

Review of Literature:

Colors may just seem simple and unimportant, but they affect our daily lives more than we may know. If someone is feeling angry, it could just be because they're angry or it could be perhaps that they are surrounded by or looking at

Justified

That's right! People's moods can change just because they are looking at different colors! There are many theories on how just a simple color can change one's whole mood.

According to Johnson (2007), color does affect mood by producing certain chemicals and stimulating different feelings such as hunger. For example, blue can make one feel calm just because it releases calming chemicals, and red can make one hungry because it is an appetite stimulant. Yellow can make one feel irritated, and it is

Double space

a loose their temper most in yellow rooms. However, pink is tranquilizing and can make one feel weak. In conclusion, Johnson says that depending on the color, one's body can do things (like producing chemicals) that cause a certain emotional reaction (mad, sad, etc.)

**Analysis:**

There are three ideas about color psychology in these sources, and they all say that color affects one's mood. They differ based on what factors influence the effects of color, such as culture, opinion and what goes on inside one's body. One of the three ideas is that color affects moods based on one's personal opinion.

**Methodology:**

In order to test ideas about how color affects one's mood (color psychology), this researcher will test sixty middle school students (30 boys and 30 girls) on how the colors green, blue, black, yellow, red, pink, and brown make them feel. The students will mark the feeling that each color makes them feel, according to the choices shown on the example survey below.

**Example Survey:**

(The only thing that changes in each different survey is the color being tested and the gender of the students responding):

Indented

Mad/Angry?

Sad/Depressed/Cold?

Secure/Safe

Imitated/Annoyed?

Calm?

Relaxed?

Fun/Excited?

Happy/Cheery?

Tired/Sleepy/Drowsy?

Bored?

Losing Energy/Weak?

Neutral/Balanced?

Love/Affection?

Dislike/Hate?

### Color Psychology Paper

#### Survey results:

Most female middle school students associated these feelings with these colors...

| Black                            | Green                          | Yellow                    | Pink                                  | Brown          | Red                | Blue          |
|----------------------------------|--------------------------------|---------------------------|---------------------------------------|----------------|--------------------|---------------|
| Sad/Cold/<br>Depressing<br>(43%) | Neutral/<br>Balancing<br>(27%) | Happy/<br>Cheery<br>(17%) | Happy/<br>Love and Affection<br>(27%) | Bored<br>(20%) | Mad/Angry<br>(30%) | Calm<br>(23%) |

Most male middle school students associated these feelings with these colors...

| Black                            | Green                    | Yellow           | Pink                        | Brown          | Red            | Blue             |
|----------------------------------|--------------------------|------------------|-----------------------------|----------------|----------------|------------------|
| Sad/Cold/<br>Depressing<br>(37%) | Secure/<br>Safe<br>(27%) | Cheery/<br>(17%) | Love and Affection<br>(33%) | Bored<br>(20%) | Angry<br>(23%) | Relaxed<br>(23%) |

#### Conclusion:

Color does affect one's mood, but it can affect boys and girls differently. For example, while most female middle school students found green neutral and balancing, most middle school students found it secure and safe. However, there are also some similarities between the female and male middle school students. For example, most female middle school students thought that brown made them feel bored, and so did the male middle school students! Also, both found that pink made them feel love and affection. However, some results in this study were different from the research cited. For example, the research stated that brown would make boys and girls feel secure and safe, but instead it made them feel bored. Furthermore, the research said that yellow would make boys and girls feel irritated, but most boys and girls reported that it made them feel happy and cheery. Overall, most of the results

*Colors Psychology Paper*

were different from the research sources consulted. In any case, it is obvious that colors have a great affect on one's mood.

## Lesson 24: Using Word Processor in Creating a Memo

---

Welcome to Lesson 24. In Lesson 23 you have formatted a research paper using a word processor. In this lesson you will use a word processor to write a memo. Although the topic is not the usual document that you as a student will produce it is still a worthwhile activity to learn.

### Your Aims:

- create memo using word processing
- identify the benefits of using the word processor in creating a memo

---

### Memo

A memo is short for the word memorandum which means "to be remembered" in Latin. Business, offices and even schools use memos as an internal form of communication. Their objective is to deliver information or instructions. The scope should be limited to a single topic so that the reader will "get the message" quickly and, if necessary, take action.

### Types of Memos

There are four types of memos you might have to write, each with its own organizational format:

1. **Information memo** - used to deliver or request information or assistance
  - first paragraph provides main idea
  - second paragraph expands on the details
  - third paragraph outlines the action required
2. **Problem-solving memo** - suggests a specific action to improve a situation
  - first paragraph states the problem
  - second paragraph analyses the problem
  - third paragraph makes a recommendation
  - when making a recommendation, include not only the positive details but also the drawbacks and diffuse them yourself
3. **Persuasion memo** - used to encourage the reader to undertake an action he or she does not have to take
  - first paragraph begins with an agreeable point
  - second paragraph introduces the idea
  - third paragraph states benefits to the reader
  - fourth paragraph outlines the action required
  - fifth paragraph ends with a call to action

4. **Internal memo proposal** - used to convey suggestions to senior management
- first paragraph states reason for writing
  - second paragraph outlines present situation and states writer's proposal
  - third paragraph describes advantage(s)
  - fourth paragraph mentions and diffuses disadvantage(s)
  - fifth paragraph ends with a call to action
- 

### Parts of a Memo

All memos consist of two sections: the heading and the body.

1. The heading indicates who is writing to whom, when, and why. It includes the following:
    - a. To – the recipients of the memo
    - b. From – the name of the writer
    - c. Date – when the memo is written
    - d. Re: or Subject – indicates the main subject of the memo
    - e. Cc or c – lists the names of the people who will receive the copy of the memo.
  2. The body of the memo conveys the message and generally consists of 4 parts:
    - a. Introduction – states the general problem or the main idea
    - b. Statement of facts – states the facts or discusses the problem or issue
    - c. Argument – explain importance or relevance of facts
    - d. Conclusion – summarizes the main idea
- 

### Step 1: Create a document

A memo is a formal type of document and as a student you might not have encountered a memo before. So type the text on the next page and use this as an example of a written memo.

**MEMORANDUM**

To: All Staff Members  
From: Cami Joe, President  
Date: July 24, 20—  
Re: Company Merger

I would like to set the record straight. Perhaps you have heard rumours of all sorts to the effect that the company is going out of business. I would like to clear the issue once and for all that we are not closing.

However, the company is thinking of merging with the XYZ Company. The details of which will be available to you once negotiation has pushed through.

This is not a cause for alarm to our employees since the new company will still continue to operate this division on an autonomous basis and will retain all the employees who are currently on the payroll.

There are many benefits to be gained by the merger, and I would like to inform you of them personally. There will be a company-wide meeting in the auditorium on Monday, July 28, 20-- at noon. The meeting will be over lunch (provided by XYZ), and the members of the ABC team and I will be on hand to personally answer any questions.

I am sure that you will approve of the merger once you understand the reason and what we have to gain if we go through with this merger. I look forward to seeing each of you at the luncheon on July 28.

cc. file, dept heads

**Step 2: Editing**

Perform spell check to your document. Remember that not all words in red underline are spelling error.

**Step 3: Format Your Document**

A formal memo uses the most simplest of format. It does not require any special formatting unlike the other type of documents you have previously created. Follow the steps to format a memo.

- A. Use the following format:
- |              |   |                             |
|--------------|---|-----------------------------|
| Format       | : | Choose any simple font type |
| Format size  | : | 12 pts.                     |
| Format style | : | Use the example as guide    |
| Alignment    | : | Use example as guide        |
| Tab          | : | Use the example as guide    |
| Line space   | : | Single                      |

| MEMORANDUM                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                     |

| Re:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Company Merger      |
| <p>I'd like to set the record straight. Perhaps you have heard rumours of all sorts to the effect that the company going out of business. I would like to clear the issue once and for all we are not closing.</p> <p>However, the company will is thinking of merging with the XYZ Company. The details of which will be available to you once negotiation has pushed through. This is not a cause for alarm to our employees since the new company will still continue to operating this division on an autonomous basis and will <b>retain all the employees</b> who are currently on the payroll.</p> <p>There are many benefits to be gained by the merger, and I would like to inform you of them personally. There will be a company-wide meeting in the auditorium on Monday, July 28, 20— at noon. The meeting will be over lunch (provided by XYZ), and the members of the ABC team and I will be on hand to personally answer any questions.</p> <p>I'm sure that you'll approve of the merger once you understand the reason and what we have to gain if we go through with this merger. I look forward to seeing each of you at the luncheon on July 28.</p> <p>cc. file, dept heads</p> |                     |

B. Unlike a normal letter, a memo usually has a border that separates the heading from the body of the document. Follow the steps to add a border to our document.

1. Position the cursor in the first letter of your first paragraph.
2. Press Enter to create a small space between the heading and body of your memo.
3. Position the cursor where the paragraph was previously located.
4. In the Paragraph options of the Home ribbon, locate the **Border icon**.

5. Click the Bottom Border option. This will place a border between the heading and body of your memo.
6. To remove the border, position your cursor at the on top of the border line.

| MEMORANDUM                                                                                                                                                                                                                        |                     |

| Re:                                                                                                                                                                                                                               | Company Merger      |
| <p>I</p> <hr/> <p>I'd like to set the record straight. Perhaps you have heard rumours of all sorts to the effect that the company going out of business. I would like to clear the issue once and for all we are not closing.</p> |                     |

7. Click the down arrow and choose **No borders**. This will remove the border

8. Insert the border again to return the border.

#### Step 4: Storing

Save your work as **Merging Memo**.

#### Step 5: Printing

Print your document. Your work should look like the example below.

| <b>MEMORANDUM</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                     |

| <p>I'd like to set the record straight. Perhaps you have heard rumours of all sorts to the effect that the company going out of business. I would like to clear the issue once and for all we are not closing.</p> <p>However, the company will is thinking of merging with the XYZ Company. The details of which will be available to you once negotiation has pushed through. This is not a cause for alarm to our employees since the new company will still continue to operating this division on an autonomous basis and will <b>retain all the employees</b> who are currently on the payroll.</p> <p>There are many benefits to be gained by the merger, and I would like to inform you of them personally. There will be a company-wide meeting in the auditorium on Monday, July 28, 20— at noon. The meeting will be over lunch (provided by XYZ), and the members of the ABC team and I will be on hand to personally answer any questions.</p> <p>I'm sure that you'll approve of the merger once you understand the reason and what we have to gain if we go through with this merger. I look forward to seeing each of you at the luncheon on July 28.</p> <p>cc. file, dept heads</p> |                     |

### Activity 1: Writing a Memo

1. Pretend that you are the principal of a school and you need to issue a memo on the use of the compete uniform for all staff and students.
2. Use the guidelines presented when writing your memo.
3. Make sure to complete your memo by following the suggested Parts of a Memo.
4. Format to your memo.
5. Save your work as **Uniform Memo**.

---

Thank you for successfully completing this activity. I hope that you find this easy and could complete the task again without any help from the handbook. Compare your work with the sample output provided at the end of this lesson.

---

### Summary

You have reached the end of Lesson 24. In this lesson you have successfully applied some of the skills you have learned from previous lesson and created a sample memo. You have also learned to compose your own CV using the guidelines in writing a memo.

---

**NOW DO PRACTICE EXERCISE 24 ON THE NEXT PAGE**

## Practice Exercise 24

### A. Enumeration

1. List down the different types of memo.
  - a. \_\_\_\_\_
  - b. \_\_\_\_\_
  - c. \_\_\_\_\_
2. Name the Parts of a memo.
  - a. \_\_\_\_\_
  - b. \_\_\_\_\_
3. List the things that a body of a memo should have.
  - a. \_\_\_\_\_
  - b. \_\_\_\_\_
  - c. \_\_\_\_\_
  - d. \_\_\_\_\_

### B. Identify the paragraphs that contain the 4 things that the body of the memo should have.

| <b>1</b>  | But there is more to be done. The club house is still incomplete. Only part of the club house is finished and we need more money to complete our club project.<br><br>I know that this is asking a lot from you. But as the club president, I am asking you to support our cause once more. The club house, once completed, will serve as a venue for all our club activities: meetings, parties, and other group activities. |

| <b>6</b>  | Date: 24 February 20—                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>7</b>  | It has been a successful year for our club. Since our formation as a club, you have been very supportive of all our activities. As proof of your valuable support, we have already started the first phase of building our club house.                                                                                                                                                                                        |
| <b>8</b>  | To: All Club Member                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>9</b>  | To raise the needed money, we are proposing to have a Walk-A-Ton. Each member will be given a sponsor paper to fill-up and this will automatically qualify you to walk for our fund raising. The good news is that a business establishment has agreed to match any sponsor paper with the equal amount.                                                                                                                      |
| <b>10</b> | I hope that you will support this drive. I also encourage everybody to ask your friends and relatives to support our cause. I look forward to seeing you walk on 24 February.                                                                                                                                                                                                                                                 |

**CHECK YOUR WORK. ANSWERS ARE AT THE END OF TOPIC 4**

**Answer to Activity 1**

---

- A. How you compose your memo and its content will be different from the next person. However, your memo must contain the following:
1. Recipient of the memo.
  2. Name of the writer of the memo.
  3. The date when the memo was written.
  4. The subject of the memo.
  5. Name of the people who will receive copies of the memo
  6. Body of the memo.
- B. The body of the memo must contain the following parts:
1. Introduction to the problem or main idea.
  2. Discusses the problem or issue.
  3. Should explain the importance or relevance of facts.
  4. Summarizes the main idea.

## Answers to Practice Exercises in Topic 4

### Practice Exercise 19

- A.** There are many possible way of answer to this exercise. Remember that you could use the Ribbon, keyboard shortcut, mouse or dialogue box to format your text.
- To change alignment to centre.** (a) Highlight text and click centre in the paragraph option. (b) Highlight text and click Ctrl+E (c) Right click the highlighted text and choose Centre
  - Change the font type.** (a) Highlight text and select —Arial” from the font window. (b) Right-click the highlighted text and choose —Arial” Font type located at the pop-up menu.

**Practice Exercise 20**

- A. Changes done to Figure 1 to make it look like Figure 2 were:
1. Font type
  2. Font size
  3. Font style
  4. Alignment
  5. Uppercase
- B. Your work will look different from the example given below.

## Piping Hot Goodness

*On a cold night, he pulled out all the stops for us.*

Late one afternoon, I noticed a leak coming from our hot water system. I turned off the water and found the broken part. My partner and I took it to the local plumbing supplies shop, getting there just before it closed.

We hadn't been there before but the manager, John, was very helpful in finding the part for us. However, he did express some concern at the late hour, because if anything went wrong the shop would be closed. So he gave us his telephone number and said we could ring him if we had any problems with the parts.

"No worries," I said confidently. "I'm sure we'll be OK. But thanks anyway." And I took his proffered card.

Well sure enough, the part did not fit properly and we were faced with a cold night and early morning without any hot water.

Feeling a bit embarrassed at my previous cockiness, I called John and explained the situation. "No worries," he said. (Now where had I heard that before?) "I'll meet you at the shop in five minutes."

He showed no hint of being put out and found the right parts for me, saying I could call in tomorrow to pay for them.

John went above and beyond the call of duty for us. As far as he was concerned, his job was to show us the kindness he obviously shows to everyone he meets.

## Practical Exercise 21

A.

(Miss) Mary Kelly  
P.O. Box 1234 Boroko NCD  
Papua New Guinea

17 September 20—

Mr. Micheal Mea  
Human Resource Management  
Labara Marketers Ltd.  
P.O. Box 1955 Waigani

Dear Mr Mea,

I am applying for the part time sales position advertised on The National newspaper dated 15 September 20—. I have completed Grade 12 at Gordons Secondary School and awaiting my national exam results. My intention is to gain experience in sales while waiting for the result to arrive.

Although I do not have any experience, I think I have what it takes to be a good sales person because of my skills and willingness to learn.

I enclose my curriculum vitae, which covers my personal background.

On a personal level, I am self-motivated and very reliable.

I look forward to hearing from you about an interview. My telephone number is 7890-78564

Yours sincerely,  
Mary Kila (Miss)

Box 1955 Waigani                                                                                                                                                                                               |                                                                   |
| Dear Mr Mea,                                                                                                                                                                                                                                                                                 |                                                                   |
| I am applying for the part time sales position advertised on The National newspaper dated 15 September 20—. I have completed Grade 12 at Gordons Secondary School and awaiting my national exam results. My intention is to gain experience in sales while waiting for the result to arrive. |                                                                   |
| Although I do not have any experience in sales, I think I have what it takes to be a good sales person because of my people skills and willingness to learn.                                                                                                                                 |                                                                   |
| I enclose my curriculum vitae, which covers my personal background. On a personal level, I am self-motivated and very reliable.                                                                                                                                                              |                                                                   |
| I look forward to hearing from you about an interview. My telephone number is 7890-78564                                                                                                                                                                                                     |                                                                   |
|                                                                                                                                                                                                                                                                                              | Yours sincerely,<br><br>Mary Kila (Miss)                          |

 100 Little John Street  
 HAWTHORN VIC 3122  
 Telephone number: 889 1111

**Practice Exercise 23****A.**

- |              |                                |
|--------------|--------------------------------|
| 1. 11 pts.   | 4. Justified                   |
| 2. Uppercase | 5. Right                       |
| 3. Calibri   | 6. Special – First line indent |

**B.**

- |          |          |
|----------|----------|
| 1. False | 3. False |
| 2. True  | 4. False |

**C.**

1. Sample format of the document.

The following is a short information report on the use of computers by students in schools. It is a result of a survey done by a Year 9 computer user group.

1. Students frequently use computers at school even if they do not have access to them at home
2. Most frequent use is during computer-designated lessons or casual use at lunchtime in computer labs.
3. Many students use computers for games but a growing number see them as a strong aid to their study and gathering of information from sources such as the Internet or email contacts.
4. A number of students have expanded their interests and friendships through on-line chatrooms, which they access while at school. A larger number have increased contact with overseas students through email, and students of foreign languages are finding this particularly useful.
5. With government investment in computers in school it is assumed that use will increase.
6. Many students are well ahead of their parents and grandparents in the understanding and use of computers.

The report found that computer use by students for both study and social activity is common and on the increase in high schools.

2. The following formats were used for the document. Your work may contain different and/or more formats than the one presented below.

|                                          |
|------------------------------------------|
| Font: Calibri, 11 pts.                   |
| Paragraph Alignment : Right              |
| Indention: Numbered paragraphs indented. |
| Line Space: Multiple (1.15 pts.)         |
| Spacing: Before: 10 pts.                 |

**Practice Exercise 24**

A.

1. Types of Memo
  - a. Information memo
  - b. Problem-solving memo
  - c. Persuasion memo
  - d. Internal memo proposal
2. Parts of Memo
  - a. Heading
  - b. Body
3. Things that a body of a memo should have
  - a. Introduction
  - b. Statement of facts
  - c. Argument
  - d. Conclusion

B. This is what your memo should look like

|          |                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>5</b> | <b>MEMORANDUM</b>                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>8</b> | To: All Club Member                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>2</b> | From: Chris Nauga, Club President                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>6</b> | Date: 24 February 20—                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>3</b> | Re: Walk-A-Ton Sponsor Paper                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>7</b> | It has been a successful year for our club. Since our formation as a club, you have been very supportive of all our activities. As proof of your valuable support, we have already started the first phase of building our club house.                                                                                                                                                                                    |
| <b>1</b> | But there is more to be done. The club house is still incomplete. Only part of the club house is finished and we need more money to complete our club project.<br>I know that this is asking a lot from you. But as the club president, I am asking you to support our cause once more. The club house, once completed, will serve as a venue for all our club activities: meetings, parties, and other group activities. |
| <b>9</b> | To raise the needed money, we are proposing to have a Walk-A-Ton. Each member will be given a sponsor paper to fill-up and this will automatically qualify you to walk for our fund raising. The good news is that a business establishment has agreed to match any sponsor paper with the equal amount.                                                                                                                  |
| <b>1</b> | I hope that you will support this drive. I also encourage everybody to ask your friends and relatives to support out cause. I look forward to seeing you walk on 24 February.                                                                                                                                                                                                                                             |
